Contents

List of figures xi
List of boxes xii
List of tables xiii
Preface xv
Guided tour of the book xvii
Publisher's acknowledgements xviii

Part I • Challenges and ambiguities of business research

1 Introduction 3
1.1 Purpose 4
1.2 Readership 5
1.3 On the use of the book 7

2 Research in business studies 8
2.1 Why we do research 9
2.2 Research versus common sense 10
2.3 Different research orientations 14
2.4 Induction and deduction 14
2.5 What comes first: theory or data? 16
2.6 Knowledge skills and research 17
2.7 Why research never stops 18
2.8 Research and ethics 19
2.8.1 The researcher and the respondent 21
2.8.2 The researcher's moral responsibility 22
Further reading 24
Questions 24
Exercises 25

Part II • The research process

3 The research process 29
3.1 The process perspective 29
3.1.1 The international dimension 32
3.2 Levels of research 35

3.3 Research and knowledge 35
3.4 What comes first: theory or research? 36
3.5 Some important concepts 37
3.5.1 Concepts 37
3.5.2 Definitions 38
3.5.3 Theory 39
3.5.4 Methods 40
3.6 Concluding remarks 40
Further reading 41
Questions 41
Exercises 42

4 Research problems 43

4.1 Research ideas 43
4.2 Wrestling with research problems 44
4.3 Models in research 47
4.3.1 General concepts and specific use 49
4.3.2 Model purposes 49
4.4 The role of reviewing past literature 52
Further reading 54
Questions 54
Exercises 55

5 Research design 56

5.1 The design problem 56
5.2 Problem structure and research design 57
5.2.1 Exploratory research 58
5.2.2 Descriptive research 58
5.2.3 Causal research 59
5.3 The problem of 'cause' 60
5.3.1 The importance of theory 61
5.4 The classic experiment 62
5.5 Validity threats 65
5.6 Other research designs 68
5.6.1 Cross-sectional designs 68
5.6.2 Time series 70
5.6.3 The one-shot case study 70
5.7 Requirements in research design 71
5.7.1 Research and choices 72
Further reading 73
Questions 74
Exercises 74

6 Measurements 75

6.1 Defining measurement 75
6.1.1 Objects, properties and indicators 77
6.2 Levels (scales) of measurement 78
6.2.1 Nominal level (scale) 78
6.2.2 Ordinal level (scale) 78
6.2.3 Interval level (scale) 79
6.2.4 Ratio scale 79
6.3 Validity and reliability in measurements 80
6.3.1 Validity and reliability 81
6.3.2 Multiple indicators 82
6.3.3 Construct validity 83
6.3.4 Other forms of validity 85
6.4 Improving your measurements 86
6.5 Measurements in 'qualitative' research 88
Further reading 90
Questions 90
Exercises 90

7 Data sources 91

7.1 Secondary data 91
7.1.1 Advantages of secondary data 95
7.1.2 Disadvantages of secondary data 97
7.1.3 Types of secondary data 100
7.2 Primary data 102
7.2.1 Advantages of primary data 102
7.2.2 Disadvantages of primary data 105
7.2.3 Types of primary data 105
Further reading 106
Questions 107
Exercises 107

8 Data collection 108

8.1 Qualitative versus quantitative methods 109
8.2 When to use qualitative methods 110
8.2.1 Historical review 111
8.2.2 Focus groups 114
8.2.3 Case studies 114
8.3 Observations 120
8.4 Communication 123
8.5 Surveys 124
8.5.1 Constructing questionnaires 127
8.5.2 Guidelines for constructing questionnaires 129

8.6 Interviews 131
8.6.1 Preparing for an interview 133
8.6.2 Pre-interview 136
8.6.3 The interview 137
8.6.4 Post-interview 139
8.7 Focus groups 140
8.7.1 Advantages/disadvantages of focus groups 141
8.7.2 Conducting focus groups 142
Further reading 143
Questions 144
Exercises 144

9 Sampling in empirical research 145

9.1 Why take samples? 145
9.2 Sampling procedures 146
9.3 Probability samples 148
9.3.1 Simple random sampling 148
9.3.2 Systematic sampling 149
9.3.3 Stratified sampling 150
9.3.4 Cluster sampling 151
9.4 Determining sample size 151
9.5 Sampling in qualitative research 155
Further reading 156
Questions 156
Exercises 156

10 Preparation and analysis of data 157

10.1 Editing and coding 157
10.1.1 Editing 157
10.1.2 Coding 158
10.2 The role of statistics 159
10.3 Analysing one variable 160
10.3.1 Using graphs to describe distributions 161
10.3.2 Measures of dispersion 163
10.3.3 Types of frequency distributions 164
10.4 Cross-tabulation 166
10.5 Test of hypotheses 168
10.5.1 A word of warning 170
10.6 Use of computers in research 170
Further reading 172
Questions 172
Exercises 172

Part III • Implementation

11 Quantitative data analysis 175

11.1 Examining differences 175
11.1.1 Hypotheses about one mean 175
11.1.2 Hypotheses about two means 177
11.1.3 Related samples 178
11.1.4 Comparison of more than two groups 179
11.2 Relationship (covariation) between variables 181
11.2.1 The correlation coefficient 181
11.2.2 Partial correlation 182
11.3 Explaining and predicting relationships between variables 183
11.3.1 Simple linear regression 183
11.3.2 Multiple regression 188
11.3.3 Dummy variables 190
11.3.4 Discriminant analysis 191
11.3.5 Logistic regression analysis 193
11.4 Data reduction, structure and dimensions 195
11.4.1 Factor analysis 195
11.4.2 Principal component analysis 198
11.5 Additional methods 198
11.5.1 Cluster analysis 198
11.5.2 Multidimensional scaling 198
11.5.3 Canonical correlation analysis 199
11.5.4 Multivariate analysis 199
11.5.5 Structural equation modelling 199
Further reading 200
Questions 200
Exercises 201

12 Qualitative data analysis 202

12.1 Characteristics of qualitative research 202
12.2 Qualitative data 204
12.3 Analytical procedures 206
12.4 Interpretation 212
12.5 Strategies for qualitative analysis 212
12.5.1 Analysing case studies 214
12.6 Quantifying qualitative data 215
12.7 Validity in qualitative research 216
12.8 Analysis of cross-cultural data 218
12.9 Use of computers in qualitative research 220
12.10 Case studies and triangulation 221
Further reading 222
Questions 223
Exercises 223

13 Writing the final report **224**
13.1 Purpose and importance of a written presentation 224
13.2 Guidelines 225
13.2.1 Audience 225
13.2.2 Good communication 226
13.2.3 Language and flow 226
13.2.4 Form and style 227
13.2.5 Headings 229
13.3 Structure of the report 229
13.3.1 Title page 229
13.3.2 Table of contents 229
13.3.3 Executive summary 230
13.3.4 Introduction and problem statement 230
13.3.5 Theoretical background 231
13.3.6 Methodology 231
13.3.7 Findings 231
13.3.8 Conclusions 232
13.3.9 Footnotes 233
13.3.10 Bibliography or references 234
13.4 Oral presentation 235
13.5 Writing for publication 237
Further reading 238
Questions 238
Exercises 239
