<i>List of Figures</i>	<i>xi</i>
<i>List of Tables</i>	<i>xii</i>
<i>List of Examples</i>	<i>xiii</i>
<i>Preface to Second Edition</i>	<i>xiv</i>
<i>Preface to First Edition</i>	<i>xv</i>
<b>1 Introduction</b>	<b>1</b>
1.1 Background	2
1.2 Some Simplifying Devices	3
1.3 Research Methods Training	5
1.4 Essentials and Logic	6
1.5 Science, the Social Sciences and Social Research	8
1.6 Organization of the Book	9
1.7 Suggestions for Further Reading	11
1.8 The Use of Examples	11
1.9 Review Concepts	12
Notes	12
<b>2 Some Central Issues</b>	<b>14</b>
2.1 Description versus Explanation *	14
2.2 Question-Method Connections	19
2.3 Prespecified versus Unfolding: Structure in Research Questions, Design and Data	22
2.4 Some Important Terms	27
2.5 Review Concepts	30
Notes	30
Further Reading	31
<b>3 Research Questions</b>	<b>32</b>
3.1 General and Specific Research Questions	33
3.2 Developing Research Questions	35
3.3 The Role of Research Questions	36
3.4 Hypotheses	37
3.5 A Simplified Model of Research	39
3.6 The Role of the Literature	41
3.7 Review Concepts	42
Notes	43
Further Reading	43

<b>4</b>	<b>From Research Questions to Data</b>	<b>44</b>
4.1	The Empirical Criterion	44
4.2	Linking Concepts and Data	45
4.3	Good and Bad Research Questions	46
4.4	Value Judgements	47
4.5	Causation	48
4.6	Conceptual Frameworks	53
4.7	From Research Questions to Data	54
4.7.1	Quantitative data	55
4.7.2	Qualitative data	56
4.8	Combining Quantitative and Qualitative Data	58
4.9	Review Concepts	59
	Notes	59
	Further Reading	60
<b>5</b>	<b>Quantitative Research Design</b>	<b>62</b>
5.1	What is Research Design?	62
5.2	Some Background	65
5.3	Independent, Dependent and Control Variables	67
5.4	The Experiment	68
5.5	Quasi-Experimental and Non-Experimental Design	71
5.6	Relationships between Variables: the Correlational Survey	75
5.7	Relationships between Variables: Causation and Accounting for Variance	77
5.8	Multiple Linear Regression (MLR) as a General Design Strategy	78
5.9	Controlling Variables	80
5.10	Review Concepts	82
	Notes	83
	Further Reading	83
<b>6</b>	<b>Collecting Quantitative Data</b>	<b>85</b>
6.1	Types of Variables	85
6.2	The Process of Measurement	87
6.3	Latent Traits	90
6.4	Measuring Techniques	91
6.5	Steps in Constructing a Measuring Instrument	92
6.6	To Construct an Instrument or to Use an Existing Instrument?	93
6.7	Locating Existing Measuring Instruments	94
6.8	Reliability and Validity	95
6.8.1	Reliability	95
6.8.2	Validity	97
6.9	Developing a Survey Questionnaire	99
6.10	Collecting the Data: Administering the Measuring Instrument	100

6.11	Sampling	101
6.12	Secondary Analysis	103
6.13	Review Concepts	104
	Notes	105
	Further Reading	106
<b>7</b>	<b>The Analysis of Quantitative Data</b>	<b>108</b>
7.1	Summarizing Quantitative Data	109
7.1.1	Central tendency: the mean	110
7.1.2	Variation: standard deviation and variance	110
7.1.3	Frequency distributions	111
7.2	Relationships between Variables: Cross-Tabulations and Contingency Tables	112
7.3	Comparisons between Groups: the Analysis of Variance	113
7.3.1	Analysis of variance	113
7.3.2	Interaction	115
7.3.3	Analysis of covariance	117
7.3.4	From univariate to multivariate	117
7.4	Relationships between Variables: Correlation and Regression	118
7.4.1	Simple correlation	118
7.4.2	Multiple correlation and regression	120
7.4.3	Squared multiple correlation coefficient	121
7.4.4	Regression weights	121
7.4.5	Stepwise regression	121
7.4.6	Review: MLR as a general data analysis system	122
7.4.7	Analysis of covariance using MLR	124
7.5	The Analysis of Survey Data	124
7.6	Data Reduction: Factor Analysis	125
7.7	Statistical Inference	127
7.8	Computer Software for the Analysis of Quantitative Data	130
7.9	Review Concepts	130
	Notes	131
	Further Reading	132
<b>8</b>	<b>Design in Qualitative Research</b>	<b>133</b>
8.1	Overview	134
8.1.1	Diversity in qualitative research	134
8.1.2	Feminism	136
8.1.3	Postmodernism	138
8.1.4	Common themes within the diversity	140

8.2	Design in Qualitative Research	142
8.3	Case Studies	142
8.3.1	The general idea	144
8.3.2	Four characteristics of case studies	145
8.3.3	Case studies and generalizability	145
8.3.4	Preparing a case study	148
8.4	Ethnography	150
8.4.1	Introduction	150
-*	8.4.2 Some main characteristics	152
	8.4.3 General comments	153
8.5	Grounded Theory	154
8.5.1	What is grounded theory?	155
8.5.2	A short history of grounded theory	156
8.5.3	Theory generation versus theory verification	157
8.5.4	Data-collection/data-analysis relationships: theoretical sampling	158
8.5.5	The use of the literature in grounded theory	159
8.5.6	The place of grounded theory research	159
8.6	Action Research	160
8.7	Review Concepts	163
	Notes	164
	Further Reading	165
<b>9</b>	<b>Collecting Qualitative Data</b>	<b>168</b>
9.1	The Interview	168
9.1.1	Types of interviews	169
9.1.2	Feminist perspectives on interviewing	172
9.1.3	Practical aspects of interviewing	174
9.1.4	The analytic status of interview data: the role of language	176
9.2	Observation	178
9.2.1	Structured and unstructured approaches to observation	179
9.2.2	Practical issues in observation	180
9.3	Participant Observation	182
9.4	Documentary Data	184
9.5	Data Collection Procedures	186
9.6	Sampling in Qualitative Research	187
9.7	Review Concepts	189
	Notes	190
	Further Reading	190

<b>10</b>	<b>The Analysis of Qualitative Data</b>	<b>193</b>
10.1	Diversity in Qualitative Analysis	194
10.2	Analytic Induction	196
10.3	The Miles and Huberman Framework for Qualitative Data Analysis	197
10.3.1	Coding	199
10.3.2	Memoing	201
10.4	Abstracting and Comparing	202
10.5	Grounded Theory Analysis	204
10.5.1	Overview	205
10.5.2	Open coding	205
10.5.3	Axial (or theoretical) coding	209
10.5.4	Selective coding	211
10.5.5	Key concepts of grounded theory analysis	212
10.6	Other Approaches in Qualitative Analysis	216
10.6.1	Narratives and meaning	216
10.6.2	Ethnomethodology and conversation analysis	219
10.6.3	Discourse analysis	221
10.6.4	Semiotics	225
10.6.5	Documentary and textual analysis	226
10.7	Computers in the Analysis of Qualitative Data	228
10.8	Review Concepts	229
	Notes	230
	Further Reading	231
<b>11</b>	<b>Mixed Methods and Evaluative Criteria</b>	<b>234</b>
11.1	Combining Quantitative and Qualitative Approaches	234
11.1.1	Similarities in the two approaches	234
11.1.2	Basic characteristics of the two approaches	236
11.1.3	Quantitative or qualitative?	239
11.1.4	Quantitative and qualitative	240
11.2	General Evaluative Criteria	245
11.2.1	Disciplined inquiry	245
11.2.2	The fit between the component parts of a research project	247
11.2.3	Criteria for evaluation	247
11.3	Review Concepts	256
	Notes	257
	Further Reading	258

<b>12 Research Writing</b>	<b>259</b>
12.1 Background	260
12.1.1 The quantitative tradition	260
12.1.2 Qualitative research writing	260
12.1.3 The analytical mix	261
12.2 Research Documents	262
12.2.1 Proposals	262
12.2.2 Qualitative proposals	268
12.2.3 Examples of proposals	270
12.2.4 Abstracts and titles	271
12.2.5 Dissertations (and projects)	271
12.3 Writing to Report versus Writing to Learn: Writing as Analysis	274
12.4 Writing Choices	275
12.5 Ethical Issues	276
12.6 Review Concepts	278
Notes	278
Further Reading	279
<b>Appendix 1:</b> Computer Software in Quantitative and Qualitative Analysis	281
<b>Appendix 2:</b> Drawing and Verifying Conclusions in Qualitative Analysis	286
<b>Glossary</b>	<b>289</b>
