

The Atlas of World Hunger

Thomas J. Bassett and Alex Winter-Nelson

The University of Chicago Press Chicago and London

Contents

<i>List of Maps</i>	vi	<i>Institutions and Power Relations</i>	107
<i>List of Figures</i>	viii	21. Colonialism and Neocolonialism	109
<i>List of Tables</i>	x	22. Debt and International Power Relations	112
<i>List of Boxes</i>	xi	23. Political Freedoms	115
<i>Acknowledgments</i>	xiii	24. Income Inequality	118
1. Introduction	1	25. Gender Inequality	122
Part I. Locating Hunger	11	<i>Poverty</i>	125
<i>Indicators of Malnutrition</i>	13	26. National Income per Capita	127
2. Food Availability	15	27. Extreme Poverty	131
3. Prevalence of Undernourishment (POU)	19	<i>Exacerbating Conditions and Events</i>	135
4. Micronutrient Malnutrition	26	28. Dependency Ratio	137
5. Malnutrition and Obesity	32	29. HIV/AIDS	140
6. Growth Failure	37	30. Malaria	143
7. Household Poverty	43	31. Health Expenditures per Capita	145
8. The Hunger Vulnerability Index	51	32. Unsafe Water and Poor Sanitation	148
<i>Patterns of Hunger within Countries</i>	57	33. International Trade and Primary Products	154
9. Child Growth Failure in Uruguay	59	34. International Terms of Trade	157
10. Food Insecurity in the United States	63	35. Terms-of-Trade Shocks	160
11. Malnutrition in India and Mexico	67	36. Food Trade	162
Part II. The Sources of Hunger	71	37. Food Price Shocks	165
<i>National Resources</i>	73	38. Development Aid and Food Aid	168
12. Population Growth	75	39. War	174
13. Arable Land per Capita	79	40. Natural Disasters	178
14. Environmental Systems Health	84	Conclusion	181
15. Human Resources: Literacy	86	<i>Appendix 1. Map Data Sources</i>	185
16. Built Resources: Roads	88	<i>Appendix 2. Hunger Vulnerability Index</i>	188
17. Change in Resource Base	91	<i>Notes</i>	191
18. Climate Change	94	<i>References</i>	193
<i>Technology</i>	97	<i>Index</i>	199
19. College and University Enrollment and Research and Development ^	99		
20. Agricultural Technology: Fertilizer	103		

Maps

1.1	Safe drinking water	8	11.1	Severe anemia in India	67
1.2	People living on less than \$1.25 per day	8	11.2	Child growth failure in India	68
2.1	Food supply as a percentage of daily need (2300 calories per day)	15	11.3	Adult obesity in Mexico	69
2.2	Change in food availability	16	12.1	Population growth	77
2.3	Food supply as a percentage of daily need (2100 calories per day)	18	13.1	Arable land per person	79
3.1	Prevalence of undernourishment	19	13.2	Change in arable land per person	82
3.2	Change in share of population that is undernourished	22	14.1	Environmental systems health	84
3.3	Estimated number of undernourished people	23	15.1	Adult literacy	86
3.4	Change in number of undernourished people	23	16.1	Road density	88
4.1	Vitamin A deficiency in preschool-aged children	27	17.1	Change in resource base	92
4.2	Iodine deficiency	30	18.1	Projected impact of climate change on agricultural production	94
4.3	Prevalence of anemia	31	19.1	College and university enrollment	99
5.1	Overweight and obese children 0-5 years of age	34	19.2	Research in the world	100
5.2	Obese adults in the world	35	19.3	Investment in research and development	101
6.1	Children with moderate or severe growth failure	39	19.4	The digital divide	101
6.2	Change in child growth failure rate	39	20.1	Fertilizer consumption	103
6.3	Change in the number of children with growth failure	40	21.1	European colonies	109
7.1	Population living on less than \$2.00 per day	48	22.1	Foreign debt burden	113
7.2	Number of people living on less than \$2.00 a day	48	23.1	Political freedoms	116
8.1	The Hunger Vulnerability Index	56	24.1	Income share held by poorest 10%	118
9.1	Child growth failure in Uruguay by department	59	24.2	Income share held by richest 10%	119
9.2	Rural-urban differences in child growth failure in Uruguay	60	25.1	Gender differences in life expectancy	122
9.3	Child growth failure in Montevideo by neighborhood	61	25.2	Gender-related Development Index	123
10.1	Food insecurity in the United States	63	26.1	Gross national income per capita	128
10.2	Changes in hunger prevalence in US households	64	27.1	Percentage of population in extreme poverty	132
10.3	Poverty per capita in the United States	64	27.2	Change in rate of extreme poverty	132
10.4	Percentage of poor households participating in Food Stamp Program	65	27.3	Population in extreme poverty	133
			27.4	Change in number of people in extreme poverty	133
			27.5	Number of people living in \$1.25/day poverty	134
			28.1	Dependency ratio	137
			29.1	HIV infections among adults	140
			30.1	Total deaths from malaria	143
			31.1	Health expenditures per capita	145
			32.1	Improved drinking water	148
			32.2	Improved sanitation	149
			32.3	Cholera epidemic in Angola by province	150
			32.4	Indian households with improved drinking water	152

33.1	Primary products as a share of merchandise exports	154	39.1	Military spending	175
33.2	Trade (exports and imports) as a share of GDP	156	39.2	People displaced by human-made disasters	175
34.1	Average annual change in terms of trade	157	39.3	Number of people affected by human-made disasters	176
35.1	Largest single-year decline in terms of trade	160	39.4	Major armed conflicts	176
36.1	Cereal trade	162	40.1	Number of people affected by natural disasters	178
37.1	Food price inflation	166	40.2	Number of people affected by natural disasters, four-year annual average	179
38.1	Aid per capita	168	41.1	Change in number of people undernourished	183
38.2	Food aid deliveries	172	41.2	Change in proportion of population undernourished	183
38.3	Food aid recipients	173			
38.4	Food aid per person living in extreme poverty	173
