

Francis Johnson on Markin

Part I / Fundamental Tools of Analysis

Chapter 1 / The Goals of Financial Management 5

The Financial Managers	6
Goals and Objectives of Financial Management	6
Maintaining Liquidity	6
Earning a Satisfactory Profit	7
Increasing Shareholder Value	7
The Value of the Enterprise	8
The Determinants of Value	8
Other Concepts of Value	9
Profits and Cash Inflows	11
Goals of Management Versus Goals of Owners	12
Conclusion	12
Problems	13
Selected Reading List	14

Chapter 2 / The Analysis of Profitability 15

Profitability as a Rate of Return	15
The Elements of Profitability	16
Calculating Ratios	16
A Problem for Analysis	18
The Asset Turnover	18
The Rate of Return on Sales	19
The <i>P/V</i> Ratio	19
The Margin of Safety	20
Changing the Selling Price	20
Increasing the <i>P/V</i> Ratio	22
Raising the Price	22
Adjusting the Sales Mix	23
Reducing the Variable Expenses	23
Calculating the Break-even Point	24
Increasing or Decreasing Sales Volume	26
Allocating Fixed Costs	28
Some Common Objections	29
What Are Fixed Costs?	29
Do Variable Costs Vary Directly with Sales?	29
Multipoint and Multiproduct Companies	29
External Analysis	29
Rate of Return and Turnover	30
Percentage of Sales Statements	31
Conclusion	33

Problems	34
Selected Reading List	36
Chapter 3 / Financial Leverage	39
The Effect on Profitability	39
Rates of Return on Assets and Owners' Equity	40
The Effect on Profit Variability	43
Earnings per Share Probabilities	44
Estimating Probabilities	45
Determining Common Stock Value	46
Fixed Financial Charge Ratios	47
Relating Fixed Charges to Cash Flow	48
Conclusion	50
Problems	50
Selected Reading List	51

Chapter 4 / Working Capital Analysis

The Circulating Nature of Working Capital	53
An Example of Circulating Working Capital	54
Permanent and Temporary Current Accounts	59
Financing Permanent and Temporary Assets	60
Ratios of Working Capital Accounts	62
The Current Ratio	62
The Quick Ratio, or Acid Test	63
Inventory Turnover	63
Days of Sales Outstanding	64
Days of Purchases Outstanding	64
The Model Corporation: An Illustration	65
Conclusion	67
Problems	68
Selected Reading List	69

Chapter 5 / Time Adjustment

The Mechanics of Calculating Time Value	71
The Basic Types of Problems	72
Formulas for Making Time Valuations	72
Example Problems	75
Values of Fixed-Income Securities	77
The Valuation of Common Stock	79

Asset Value and the Determination of Profit	81
Conclusion	84
Problems	84
Selected Reading List	86

Chapter 6 / Cash Forecasting

The Procedure for Cash Forecasting	88
The Acme Toy Company: An Illustration	88
Estimated Balance Sheet Approach	91
Monthly Cash Flow Forecast	93
Some Other Problems in Cash Forecasting	97
Multiple Credit Terms	97
Cash Outlays for Purchases	99
Conclusion	100
Problems	100
Selected Reading List	103

Part II / Asset Management

Chapter 7 / The Management of Cash

Determining Minimum Cash Balances	107
Patterns of Cash Collection and Payment	109
Procedures for Gathering and Disbursing Cash	109
Collection Procedures	110
Payment Procedures	111
Investing Excess Cash Balances	112
Safety, Marketability, and Yield	112
Appropriate Types of Securities	113
Market Yields	114
Methods of Improving the Return	116
The Division between Cash and Securities	118
Calculating the Costs of Holding Excess Cash	118
Conclusion	119
Problems	119
Selected Reading List	122

Chapter 8 / The Management of Accounts Receivable

The Size of Accounts Receivable	123
Problems in Managing Accounts Receivable	124
The Level of Sales and Trade Credit	125

The Cost of Granting Trade Credit	125
Bad Debt Losses	128
Making Credit Extensions Profitable	128
Seasonal Sales	131
Collecting Slow Accounts	132
Credit Analysis	133
Risk Categories	134
Individual Accounts	134
Conclusion	135
Problems	136
Selected Reading List	138

Chapter 9 / The Management of Inventories

Inventories Costs	140
The Order Quantity	141
The Reorder Point and Safety Stocks	143
Unstorable Inventory	147
Problems of Fluctuating Demand	149
Conclusion	150
Problems	150
Selected Reading List	152

Chapter 10 / Capital Budgeting

The Basic Capital Budgeting Problem	154
Cash Outlays for Investments	154
Cash Inflows from Investments	155
Basic Capital Budgeting Measures	155
Payback	155
Average Rate of Return	156
Internal Rate of Return	157
Net Present Value	160
Weighing Conflicting Results	160
The Profitability Index	161
Replacement and Book Value of Old Assets	161
Scrap Value	163
A Summary Example of Capital Budgeting	163
The Effect of Depreciation Procedures	167
Conclusion	168
Problems	168
Selected Reading List	172

Chapter 11 / Risk Analysis in Capital Budgeting

The Definition of Risk	173
The Dispersion of Cash Flows	174
The Dispersion of Net Present Values	174
Standard Deviation as a Measure of Risk	175
The Index of Relative Risk	176
Determining the Probabilities of Net Present Values	177
Estimating the Standard Deviation of Independent Cash Flows	177
Partial Dependence and Partial Independence	179
Risk and the Investment Choice	180
Risk and the Portfolio of Assets	183
Abandonment	184
Conclusion	185
Problems	185
Selected Reading List	188
Appendix: Efficient Portfolios	188

Part III / Sources of Funds

Chapter 12 / Short-Term Sources of Funds

Basic Types of Short-Term Credit	195
Basic Principles of Short-Term Financing	196
Sources of Spontaneous Short-Term Credit	197
Trade Credit	197
Other Spontaneous Short-Term Credit	199
Unsecured Short-Term Bank Loans	199
Selection of a Bank	199
Advance Credit Arrangements	200
Aspects of Bank Loans	201
The Cost of Unsecured Short-Term Bank Credit	203
Commercial Paper	204
Secured Short-Term Credit	207
Accounts Receivable and Inventory Loans	207
Accounts Receivable Financing	208
Inventory Financing	210
Conclusion	211
Problems	212
Selected Reading List	213

Chapter 13 / Planning the Capital

Structure	215
The Comparative Costs of Debt and Equity	215
Conservatism	216
An Illustration of Pro Forma Statement Analysis	217
Flexibility	220
Flexibility in Fixed Charges	220
Restrictive Covenants	220
Callability	222
Convertible Securities	223
Marketability	223
Control	223
Leverage and Income Taxes	224
Costs of Distribution	225
Preferred Stock	225
Conclusion	226
Problems	227
Selected Reading List	229
Appendix: Calculating the Value of the Call Privilege	229

Chapter 14 / The Management of Long-Term Debt

Basic Features and Definitions	235
Maturity and Retirement Provisions	235
Creditor Ranking	236
Miscellaneous Provisions and Terms	238
The Structure of Interest Rates	239
Selecting the Type of Long-Term Debt	241
Private Placement Versus Public Distribution	242
Maturity Dates	243
Creditor Ranking	244
Managing Outstanding Long-Term Debt	246
Refunding	247
Repurchasing Bonds on the Market	248
Conclusion	250
Problems	251
Selected Reading List	252

Chapter 15 / Convertible Securities and Warrants

Convertible Bonds	253
Reasons for Issuing Convertible Bonds	256
Setting the Conversion Price	258
When Should Convertibles Be Issued?	259
Forcing Conversion	259
Voluntary Conversion	260
Warrants	261
Features of Warrants	261
Reasons for Issuing Warrants	262
Market Valuation	262
Warrant Value and the Cost of Debt	263
Setting the Terms	264
Conclusion	265
Problems	265
Selected Reading List	267

Chapter 16 / Intermediate Term

Credit	269
Intermediate Credit Compared with Short-Term Credit	269
Repayment of Intermediate Credit	270
Risk to the Lender	270
Intermediate Credit Compared with Long-Term Credit	271
Amount of Annual Repayment	271
Availability	271
Intermediate Credit from Banks	272
Term Loans from Banks	272
Revolving Credit	273
Term Loans from Insurance Companies	274
Equipment Financing	275
The Small Business Administration	275
Eligibility	275
Types of Loans	276
The Justification of the SBA	276
Conclusion	277
Problems	277
Selected Reading List	278

Chapter 17 / Lease Financing	279
Borrowing, Renting, and Leasing	279
Types of Leases	280
Leasing Versus Purchasing	281

The Balance Sheet Effect	281	
The Availability and Cost of Credit		282
The Down Payment	284	
Flexibility	284	
Treatment in Bankruptcy		285
The Tax Effect	285	
Terminal Values	286	
Obsolescence	286	
A Cost Comparison	287	
Payments	287	
After-Tax Cash Outflows	287	
The Rate of Discount	288	
Present Values of the Cash Outflows		288
The Terminal Value	289	
The Down Payment	290	
Conclusion	292	
Problems	292	
Selected Reading List	294	

Chapter 18 / Equity Financing and Dividend Policy

Dividend Policy	295	
Preferred Stock	295	
Preferred Stock and Leverage		296
Maturity Date	296	
A Defense of Preferred Stock		296
Common Stock	297	
Ownership Rights of Common Stockholders	297	
Classified Common Stock	299	
The Value of Common Stock	300	
Par Value and Book Value	300	
The Market Capitalization of the Cash Flow	300	
Dividend Policy	301	
The Irrelevance Argument	301	
Are Dividends Valued Higher than Retained Earnings?	303	
The Informational Value of Dividends		303
The Mechanics of Paying Dividends	305	
Repurchase of Stock	306	
Reasons for Stock Repurchase	306	
The Effect on Stockholders' Wealth		307
Stock Dividends and Stock Splits	308	
Conclusion	310	
Problems	310	
Selected Reading List	312	

Chapter 19 / The Cost of Capital

Cost of Capital Defined	314	
The Pool of Funds Concept	314	
The Basis for the Cost of Any Source of Funds	315	
The Cost of Equity	316	
The Cost of Common Stock: A Stable Company	316	
The Cost of Retained Earnings: A Stable Company	318	
The Cost of Common Stock: A Growth Company	320	
The Cost of Retained Earnings: A Growth Company	322	
The Cost of Preferred Stock	322	
The Cost of Debt	323	
The Cost of Long-Term Debt	323	
The Cost of Short-Term Debt	324	
The Cost of Convertible Bonds	324	
The Cost of Funds Generated by Depreciation	325	
The Marginal Cost of Capital	326	
The Effect of Risk	326	
The Stability of the Cost of Capital	327	
Summary Example	327	
Conclusion	329	
Problems	330	
Selected Reading List	331	

Part IV / Capital Markets and Mergers

Chapter 20 / The Primary Distribution of Securities

Investment Bankers	336	
The Selection of an Investment Banker		336
Competitive Bidding Versus Negotiated Underwriting	337	
The Buying Group and the Selling Group	337	
An Example of Competitively Bid Pricing and Selling	337	
Best-Effort Distributions	340	
Private Placements	341	
Rights Distributions	341	
The Value of Rights	342	
The Investment Banker's Function in a Rights Offering	343	
Setting the Subscription Price	343	

Similarities Between Rights Underpricing and the Stock Dividend	345
Rights Offerings for Other Securities	346
Initial Common Stock Distributions	346
Necessary Conditions	347
Preoffering Planning	348
Setting the Offering Price	348
The Investment Banker's Functions	349
Distribution Costs	349
Conclusion	350
Problems	351
Selected Reading List	352

Chapter 21 / Mergers and Acquisitions

Objectives of the Surviving Company	354
Achieving Quick Growth	354
Acquiring Management Skills	354
Purchasing Liquidity	355
Reducing Risk	355
Synergism Possibilities	355
Objectives of the Selling Company	357
Procedures	357
Accounting Methods	358
Purchase of Assets or Purchase of Stock	358

The Method of Payment	359
Earnings Growth through Acquisition	360
The Ratio of Exchange	362
Earnings	362
Growth in Earnings	364
Dividends	365
Market Prices	366
Book Values	366
Tender Offers	367
Conclusion	367
Problems	367
Selected Reading List	369

Appendix / Tables for Time Value and Probability Calculations

Table A-1. Compound Sum of \$1	370
Table A-2. Present Value of \$1	370
Table A-3. Sum of an Annuity of \$1 for N Years	372
Table A-4. Present Value of an Annuity of \$1	372
Table A-5. Area Under the Normal Curve	374

Index	375
