INTRODUCTION 1

PART ONE

OCCUPATIONAL SAFETY AND HEALTH
IN THE CONSTRUCTION INDUSTRY

CHAPTER I: THE PRESENT STATE OF OCCUPATIONAL SAFETY
AND HEALTH IN THE CONSTRUCTION INDUSTRY 5

 Special aspects of the industry in relation to
 occupational safety and health 5

 The role of the social partners and governments 7

 Safety organisation 10

 Temporary duration of work sites 11

 Seasonal employment 11

 Migrant labour 12

 Size of undertakings 12

 Subcontracting 13

 The occupations and hazards of the industry 13

 Specialisation of occupations 13

 Injuries and their causes 14

 Occupational diseases 15

 Tabulation of occupations and related injuries
 and diseases 17

 Accident reporting and statistics 24

 International statistics 24

 Variations throughout the world 26

 The influence of unemployment and living
 standards 29

 The influence of capital availability 29

 Training 30

| | <u>Page</u> |
|--|-------------|
| The influence of technology transfer | 31 |
| Some hazards related to technical progress | 32 |
| Scaffolding and high-rise sites | 32 |
| Falsework and other temporary structures | 32 |
| Excavations | 33 |
| Lifting appliances | 33 |
| Steel erection | 34 |
| Chemicals and dangerous substances | 35 |
| Machinery and mechanical hazards | 36 |
| Electrical hazards | 36 |
| Noise and vibration | 37 |
| Special problems | 38 |
| Possible exposure to non-ionising and ionising radiations | 38 |
| Work in atmospheres modified in pressure and/or gaseous composition | 39 |
| CHAPTER II: ORGANISATION OF HEALTH SERVICES | 41 |
| Basic considerations | 41 |
| Functions | 42 |
| Medical examinations | 43 |
| First-aid facilities | 44 |
| CHAPTER III: THE FUTURE | 45 |
| General remarks | 45 |
| Action at the undertaking level | 45 |
| Action at the national level | 48 |
| Government action | 48 |
| Action by employers' organisations | 49 |
| Action by workers' organisations | 49 |
| Action at the international level | 50 |

PART TWO

WORKING CONDITIONS IN THE CONSTRUCTION INDUSTRY

| | | |
|-------------|---|----|
| CHAPTER IV: | HOURS OF WORK IN THE CONSTRUCTION INDUSTRY..... | 57 |
| | General remarks | 57 |
| | Hours of work: problems, current situation and trends | 57 |
| | Normal hours of work | 58 |
| | Specific systems and categories | 59 |
| | Organisation and arrangement of working time | 61 |
| | Extent of the workday | 61 |
| | Recovering time lost because of bad weather | 62 |
| | Working hours on offshore sites | 63 |
| | Shift work | 63 |
| | Actual hours worked | 64 |
| | Overtime | 65 |
| | Clandestine work | 71 |
| | Rest periods and holidays | 72 |
| | Rest intervals | 72 |
| | Daily rest | 72 |
| | Weekly or periodic rest | 73 |
| | Paid annual leave | 74 |
| | Other leave | 77 |
| CHAPTER V: | WELFARE SERVICES FOR WORKERS | 79 |
| | General remarks | 79 |
| | Food | 80 |
| | Housing | 82 |
| | Transport to and from work | 85 |
| | Other welfare services | 87 |

| | <u>Page</u> |
|---------------------------------------|-------------|
| RECAPITULATION | 90 |
| SUGGESTED POINTS FOR DISCUSSION | 95 |

LIST OF TABLES

| | |
|--|----|
| 1. Total number of accidents and fatal accident incidence rates (per million man-hours worked) in construction and other industries in Japan, 1980 and 1981 | 6 |
| 2. Total number of accidents and fatal accident incidence rates (per 100,000 at risk) in construction and other industries in the United Kingdom, 1975 and 1979 | 6 |
| 3. Occupational diseases (general heading), causes and occupations most prone to them | 16 |
| 4A. Exposure of design, control and supervisory staff to occupational injuries and diseases | 19 |
| 4B. Exposure of safety, health, welfare and inspection personnel to occupational injuries and diseases | 19 |
| 4C. Exposure of building occupations to occupational injuries and diseases | 20 |
| 4D. Exposure of transport workers to occupational injuries and diseases | 21 |
| 4E. Exposure of ground and foundation workers to occupational injuries and diseases | 21 |
| 4F. Exposure of service workers to occupational injuries and diseases | 22 |
| 4G. Exposure of finishing craftsmen to occupational injuries and diseases | 23 |
| 4H. Exposure of allied occupations to occupational injuries and diseases | 23 |
| 5. Fatal accident frequency rates in construction for selected countries over consecutive eight-year periods, based on number of fatal accidents per million man-hours worked .. | 25 |
| 6. Actual hours of work per week in the construction industry | 66 |
| 7. Average weekly hours of work offered to manual workers in the manufacturing industries and in building and civil engineering (1966-78) | 68 |
