PREFACE	vii
1. Why Observe?	1
Observation in Research and Teaching	3
Summary	6
Lab Assignments	
1. Observing Passive vs. Active Subjects	7
2. Observer Point of View	13
3. Describing the Setting	17
2. Observation and Child Study: A Historical Perspective	21
The Art and Science of Observation	22
The Beginnings of Child Study	23
Charles Robert Darwin (1809–1882)	24
Granville Stanley Hall (1846–1924)	24
Lawrence Kelso Frank (1890–1968)	25
Perspectives on Child Study	26
Psychoanalytic Theory	26
Learning Theory	29
Cognitive-Developmental Theory	31
Approaches to Studying Children	34
Ecological and Ethological Psychology	34
The Perspectives Applied	36
Research Strategies in Child Study	36
Summary	39
Suggestions for Further Reading	40
Lab Assignments	
4. Research Strategies in Child Study	43
5. Asking the Question	55
X 6. Observing and Hypothesizing	59
3. Observational Strategies	61
Observation Guidelines	64
Summary	68
Suggestions for Further Reading	68
Lab Assignments	
7. Fact vs. Inference	69
8. Drawing Inferences	71
9. The Child's Eye View	75

4. <b>Diary Descriptions: The Historical Background</b>	<b>77</b>
The Early Baby Biographies	79
Advantages and Disadvantages of the Diary Description Method of Observation	84
Current Uses of Diary Descriptions	85
Summary	86
Suggestions for Further Reading	87
<b>Lab Assignments</b>	
10. Diary Descriptions	89
11. Observer Experimentation	91
12. The Problem of Generalizing	93
5. <b>Anecdotal Records, Running Records, and Specimen Descriptions</b>	<b>95</b>
Anecdotal Records	96
Guidelines for Recording Anecdotal Observations	98
Running Records	99
Specimen Descriptions	102
X The Question of Detail	104
Guidelines for Recording Running Records and Specimen Descriptions	106
Advantages and Disadvantages of the Specimen Description and the Running Record	107
Summary	108
Suggestions for Further Reading	109
<b>Lab Assignments</b>	
13. Visualizing the Situation	111
14. Children's Thoughts and Reasoning	113
15. Observing the Guidelines	117
6. <b>Case Studies and Field Studies</b>	<b>125</b>
Case Studies	126
John Oliver Lynn	129
A Word of Caution	134
Analyzing the Data	134
Field Studies	135
Summary	138
Suggestions for Further Reading	139
<b>Lab Assignments</b>	
16. Planning a Case Study	141
17. Identifying Questions	143
18. The Vocabulary of Observation	145
7. <b>Time Sampling</b>	<b>146</b>
The Development of Time Sampling	148
Guidelines for Time Sampling	151
What To Do with the Data	156

Advantages and Disadvantages of Time Sampling	158
Summary	159
Suggestions for Further Reading	160

#### Lab Assignments

19. Determining Appropriateness of Time Sampling	163
20. Comparison of Recording Formats	165
21. Developing Sign and Category Systems	169

### 8. Event Sampling 175

The Role of Observational Sampling Techniques in Child Study	176
Use of Event Sampling versus Time Sampling	178
Guidelines for Event Sampling	179
Advantages and Disadvantages of Event Sampling	180
The Technology of Sampling	180
The Question of Reliability	182
Summary	184
Suggestions for Further Reading	185

#### Lab Assignments

22. Using the Event-Sampling Technique	187
23. Technically Assisted Observations	191
24. Inter-Rater and Intra-Rater Reliability	193

### 9. Checklists and Rating Scales 199

Guidelines for Developing Checklists	200
Advantages and Disadvantages of Checklists	202
Rating Scales	204
Types of Rating Scales	208
Advantages and Disadvantages	212
Guidelines for Observation	214
Summary	215
Suggestions for Further Reading	215

#### Lab Assignments

25. Checklist Inventories	217
26. Rating the Physical Environment	219
27. Comparing Different Types of Rating Scales	223

### 10. Observation Systems 229

Devising a Coding System	230
Observation Systems: Some Examples	233
Adapting Observation Systems	240
Guidelines for Developing Observation Systems	243
Summary	244
Suggestions for Further Reading	245

#### Lab Assignment

28. Developing and Using Coding Symbols	247
---	-----

<b>11. Selecting a Strategy</b>	<b>249</b>
Naturalistic and Experimental Research	254
Epilogue	259
Summary	259
Suggestions for Further Reading	260
<b>Lab Assignments</b>	
29. Classroom Observations	261
30. Research Observations	263
<b>BIBLIOGRAPHY</b>	<b>265</b>
<b>INDEX</b>	<b>271</b>
