CONTENTS

ACKNOWLEDGMENTS

ix

1. Why Old Fields? Socioeconomic and Ecological Causes and Consequences of Land Abandonment 1
Richard J. Hobbs and Viki A. Cramer

PART 1. Old Fields and the Development of Ecological Concepts 15

2. Old Field Succession: Development of Concepts 17
Richard J. Hobbs and Lawrence R. Walker
3. Old Fields as Complex Systems: New Concepts for Describing the Dynamics of Abandoned Farmland 31
Viki A. Cramer

PART 2. Case Studies from Around the World 47

4. Implications of Land Use History for Natural Forest Regeneration and Restoration Strategies in Puerto Rico 51
Jess K. Zimmerman, T. Mitchell Aide, and Ariel E. Lugo
5. Processes Affecting Succession in Old Fields of Brazilian Amazonia 75
Gislene Ganade
6. Old Field Vegetation Succession in the Neotropics 93
Karen D. Holl
7. Patterns and Processes of Old Field Reforestation in Australian Rain Forest Landscapes 119
Peter D. Erskine, Carla P. Catterall, David Lamb, and John Kanowski

8. Succession on the Piedmont of New Jersey and Its Implications for Ecological Restoration <i>Scott J. Meiners, Mary L. Cadenasso, and Steward T. A. Pickett</i>	145
9. Succession and Restoration in Michigan Old Field Communities <i>Katherine L. Gross and Sarah M. Emery</i>	162
10. Old Field Succession in Central Europe: Local and Regional Patterns <i>Karel Prach, Jan Lepš, and Marcel Rejmánek</i>	180
11. Dynamics and Restoration of Abandoned Farmland and Other Old Fields in Southern France <i>Pascal Marty, James Aronson, and Jacques Lepart</i>	202
12. Land Abandonment and Old Field Dynamics in Greece <i>Vasilios P. Papanastasis</i>	225
13. Old Field Dynamics on the Dry Side of the Mediterranean Basin: Patterns and Processes in Semiarid Southeast Spain <i>Andreu Bonet and Juli G. Pausas</i>	247
14. Restoration of Old Fields in Renosterveld: A Case Study in a Mediterranean-type Shrubland of South Africa <i>Cornelia B. Krug and Rainer M. Krug</i>	265
15. Prospects for the Recovery of Native Vegetation in Western Australian Old Fields <i>Viki A. Cramer, Rachel J. Standish, and Richard J. Hobbs</i>	286
PART 3. Synthesis: Old Field Dynamics and Restoration	307
16. Old Field Dynamics: Regional and Local Differences, and Lessons for Ecology and Restoration <i>Richard J. Hobbs and Viki A. Cramer</i>	309
