Contents

Development Directions and Strategies

Systems Engineering Environments of ATMOSPHERE <i>Henk Obbink</i>	1
Building IPSE's by Combining Heterogeneous CASE Tools <i>Peter Göhner</i>	18
On the Functional and Architectural Integration of CASE Systems <i>Günter Merbeth</i>	31
Development of a Method Driven CAS ² E Tool <i>Jonah Z. Lavi, Michael Winokur</i>	44
VSF and its Relationship to Open Systems and Standard Repositories <i>John N. Pocock</i>	53
Adding Control Integration to PCTE <i>Huw Oliver</i>	69
Meta-CASE Technology <i>Albert Alderson</i>	81

Application Experience and Requirements

Management Issues in Software Development <i>Rainer Burchett</i>	92
Standardization of Software Development Environments <i>Adolf Peter Bröhl</i>	99
A Software Development Environment for CIM Applications <i>Lothar Köhler</i>	109
A Repository and Other Tools in a Commercial Development Center <i>Dieter Steinbauer</i>	114
Lessons Learned from DOMINO and GRAPES <i>Johann Wagner</i>	130
Should CASE be Application Dependent? <i>Peter Hruschka</i>	143

Research Issues and Results

Utilizing Fifth Generation Technology in Software Development Tools <i>Wolfgang Henhapl, Stefan Kaes, Gregor Snelting</i>	153
Integrated Software Components: A Paradigm for Control Integration <i>Dominique Clément, Vincent Prunet, Francis Montagnac</i>	167
Formal Methods in Software Development: Requirements for a CASE <i>Dines Bjørner, Søren Prehn</i>	178
Modeling of Software Architectures: Importance, Notions, Experiences <i>Manfred Nagl</i>	211
A Configurable Framework for Method and Tool Integration <i>Jeff Kramer, Anthony Finkelstein</i>	233
Recent Findings in Software Process Maturity <i>Watts S. Humphrey</i>	258
Validation and Verification of Software Process Models <i>Volker Gruhn</i>	271
