

# **Inspiration**

**Contemporary Design Methods in Architecture**

**Mark Mückenheim | Juliane Demel**

5	<b>About the Book</b>	153	<b>7 Volumetric Alterations</b> generation of space / conceptuality / additive design / subtractive design / application of proportion theory / contextualization
7	<b>Introduction</b> cultural significance / globalization / specific vs. generic / design methodology / digital culture / didactics / emotional decisions in design processes	187	<b>8 Spatial Ornaments</b> ornament and crime / cultural and social context / mass customization / digital fabrication techniques / art and craftsmanship / narrative qualities / ornamental systems
15	<b>1 Primary Elements of Design</b> <b>– Points</b> component assembly / point, line, surface / loss of gestalt quality / additive composition / visual effects / emergent effects	205	<b>9 Tracing, Mapping and Notation</b> tracing and drawing / design by trace / referencing by trace / notation / tracing the virtual / three dimensional trace / conceptualization
31	<b>2 Primary Elements of Design</b> <b>– Line to Surface</b> lines / emergent effects / optical illusions / surface composition / three- dimensionality / two-dimensional subtraction / additive design / visual effects / optical illusion	223	<b>10 Folds and Foldings</b> fold as spatial philosophy / sculptural folding / folding dynamics / conceptual folds / constructing a fold / folding evolution / diagrammatic transformations
51	<b>3 Pattern Development</b> <b>– Texture</b> axes / grids / patterns / ornamental patterns / textures / performative properties / spatial reliefs / pattern tectonics	241	<b>11 Parametric Design</b> definition / physical simulation / object-oriented programming / parametric modeling / material behavior
69	<b>4 Spatial Patterns</b> <b>– Structure</b> texture vs. structure / spatial patterns / grids and matrix / formal entities / adapted modules / spatial modules	254	<b>Imprint</b> people / chair for principles of architectural design / teachers / administrative staff
89	<b>5 Compositions on Typography</b> <b>and Color</b> color palette / monochromatic use of color / color as concept / color effects / color theory / typography and architecture / psychological phenomena / composition theory / perception theory	255	<b>Authors</b> authors / guest authors
119	<b>6 Architectural Transformations</b> <b>– Surface to Volume</b> non-physical space / space defined by surface / psychological phenomena / perception of space / virtual space / spatial perception vs. spatial design	256	<b>Image Credits</b> photographers / architects
		260	<b>Credits</b> participating students / design credits
		264	<b>Bibliography</b> referenced books / reading list
		269	<b>Acknowledgements</b> people connected to this book project
