UNIVERSITY PRESS**

Contents

| | |
|---|---------|
| <i>Preface</i> | page xi |
| 1 Introduction | 1 |
| PART 1 | 1 |
| Some assumptions | 1 |
| <i>Materials as data</i> | 2 |
| <i>Methods for qualitative analysis of data</i> | 5 |
| <i>Grounded theory</i> | 5 |
| <i>Complex theory</i> | 6 |
| <i>Guidelines and rules of thumb, not rules</i> | 7 |
| <i>Research investigation as work</i> | 9 |
| Qualitative analysis of data: an introduction | 10 |
| <i>Complexity</i> | 10 |
| <i>Experiential data</i> | 10 |
| <i>Induction, deduction, and verification</i> | 11 |
| <i>An example</i> | 14 |
| <i>Several points about work processes</i> | 17 |
| <i>A glossary of major terms</i> | 20 |
| PART 2 | 22 |
| Grounded theory analysis: main elements | 22 |
| Research phases and the operations | 23 |
| Basic operations | 25 |
| <i>Concepts and indicators</i> | 25 |
| <i>Data collection</i> | 26 |
| <i>Coding</i> | 27 |
| <i>Sociologically constructed codes and in vivo codes</i> | 33 |
| <i>Core categories</i> | 34 |
| <i>Who should code?</i> | 36 |
| <i>Theoretical sampling</i> | 38 |
| 2 Two illustrations | 40 |
| A class session: pain management | 41 |

| | | |
|---|---|-----|
| | Coding through detailed analysis | 50 |
| | <i>The interview (by Aaron Smith)</i> | 51 |
| | <i>Analysis and queries (by the Instructor)</i> | 52 |
| 3 | Codes and coding | 55 |
| | Initial steps in open coding: a seminar session | 56 |
| | Open, axial, and selective coding | 58 |
| | <i>Open coding</i> | 59 |
| | <i>Axial coding</i> | 64 |
| | <i>Selective coding</i> | 69 |
| | Utilizing codes in writing for publication | 75 |
| | Coding for structural and interactional relationships | 78 |
| | Rules of thumb | 81 |
| 4 | Seminar on open coding | 82 |
| | Case | 82 |
| | Analytic commentary | 104 |
| 5 | Memos and memo writing | 109 |
| | Memos, memo types, and commentaries | 111 |
| | Rules of thumb for memoing | 127 |
| | Summary | 128 |
| 6 | Team meetings and graphic representations as memos | 130 |
| | Team meetings as memos | 130 |
| | <i>The summary memo</i> | 131 |
| | <i>The presentation: safety, danger, and risk</i> | 131 |
| | <i>On the discussion</i> | 137 |
| | <i>The discussion, itself</i> | 139 |
| | Theoretical memos and visual devices | 143 |
| | <i>Operational visual devices</i> | 143 |
| | Graphic teaching devices as memos | 149 |
| | Rules of thumb | 150 |
| 7 | Excerpts that illustrate common problems | 151 |
| | Case 1 | 151 |
| | <i>A rudimentary line-by-line analysis</i> | 151 |
| | Case 2 | 154 |
| | <i>Dimensionalizing</i> | 154 |
| | Case 3 | 160 |
| | <i>Flooded with data</i> | 160 |
| | Case 4 | 162 |
| | <i>Getting information rather than getting down to analysis</i> | 162 |

| | |
|--|-----|
| Case 5 | 163 |
| <i>Connecting macroscopic conditions and microscopic data</i> | 163 |
| Case 6 | 164 |
| <i>Determining the central issue in the study</i> | 164 |
| Case 7 | 167 |
| <i>Finding the hole in the diagram</i> | 167 |
| Summary | 169 |
| | |
| 8 Integrative diagrams and integrative sessions | 170 |
| Steps in integrative diagramming: a work session | 171 |
| <i>Phase 1</i> | 172 |
| <i>Phase 1, commentary</i> | 174 |
| <i>Phase 2</i> | 174 |
| <i>Phase 2, commentary</i> | 176 |
| <i>Phase 8</i> | 177 |
| <i>Phase 8, commentary</i> | 177 |
| Two postconsultation comments | 179 |
| Rules of thumb | 182 |
| | |
| 9 Integrative mechanisms: diagrams, memo sequences, writing | 184 |
| Integrative diagrams: rules of thumb | 184 |
| Integration through memo sequences and sets | 185 |
| The memo sequence | 191 |
| From memo sequence to writing | 208 |
| Rules of thumb for memo sequencing | 211 |
| Writing as an integrative mechanism | 212 |
| A last note | 214 |
| | |
| 10 Presenting case materials: data and interpretations | 215 |
| Illustrative data | 215 |
| Case histories and case studies | 218 |
| <i>Case study construction</i> | 218 |
| <i>Case history construction</i> | 220 |
| Case 1 | 224 |
| <i>The interplay between trajectory and biography: the process of comeback</i> | 224 |
| Case 2 | 230 |
| <i>Social world/arena: danger and debates</i> | 230 |
| | |
| 11 Grounded formal theory: awareness contexts | 241 |

| | | |
|----|---|-----|
| 12 | Reading and writing research publications | 249 |
| | Reading for analytic logic | 249 |
| | The readings | 251 |
| | Writing from grounded theory analysis | 258 |
| | <i>Clarity of analysis</i> | 258 |
| | <i>Confidence in analysis</i> | 259 |
| | <i>Audience</i> | 261 |
| | <i>Writing theory</i> | 263 |
| 13 | Questions and answers | 265 |
| 14 | Research consultations and teaching: guidelines, strategies, and style | 287 |
| | Consultation | 288 |
| | Consultations with students | 290 |
| | Teaching analysis in seminars | 291 |
| | The teaching of research planning or design | 297 |
| | Four requisite abilities | 299 |
| | After a seminar discussion | 301 |
| | Grounded theory culture | 303 |
| | Epilogue | 305 |
| | Appendix | 306 |
| | Discovering new theory from previous theory | 306 |
| | References | 312 |
| | <i>Author index</i> | 315 |
| | <i>Subject index</i> | 317 |
