

# **Technology, Trade and Growth in OECD Countries**

Does specialisation matter?

**Valentina Meliciani**

London and New York

# Contents

<i>List of tables</i>	x
<i>List of figures</i>	xii
<i>Foreword</i>	xiii
<i>Acknowledgements</i>	xv
<b>1 Introduction</b>	<b>1</b>
<i>The theoretical framework</i>	1
<i>The methodology</i>	4
<i>The measurement of specialisation</i>	6
<i>Outline of the book content</i>	8
<b>2 The role of specialisation within different theoretical approaches to trade and growth</b>	<b>10</b>
<i>Introduction</i>	10
<i>Specialisation and the neoclassical theory of trade and growth</i>	11
<i>Developments of the neoclassical approach: the new growth and trade theories</i>	15
<i>The role of demand and post-Keynesian models of growth</i>	21
<i>Uneven technical change: Schumpeter, neo-Schumpeterian and evolutionary theories</i>	27
<i>Linking together technology trade and growth: the role of technological specialisation and structural change</i>	34
<i>Summary and conclusions</i>	37
<b>3 Stylised facts emerging from the empirical literature on technology, trade and growth</b>	<b>40</b>
<i>Introduction</i>	40
<i>Innovation and growth</i>	41
<i>Technology and international competitiveness</i>	49
<i>International competitiveness and growth</i>	52

	<i>The impact of specialisation on international competitiveness and economic growth</i>	56
	<i>Summary and conclusions</i>	62
<b>4</b>	<b>The relationship between the composition of national activities and country performance: a preliminary analysis</b>	<b>65</b>
	<i>Introduction</i>	65
	<i>Constant market shares analysis</i>	65
	<i>Technology-specific and country-specific determinants of technical change</i>	70
	<i>Summary and conclusions</i>	77
	<i>Appendix 4.1: A list of 91 technology sub-fields and technological groups</i>	79
	<i>Appendix 4.2: A list of 34 technology fields and related sub-fields</i>	82
<b>5</b>	<b>The impact of specialisation in areas of strong technological opportunity for economic growth</b>	<b>83</b>
	<i>Introduction</i>	83
	<i>Measuring technological opportunity: the indicators and the data set</i>	83
	<i>Analysis of areas of strong technological opportunity</i>	85
	<i>Specialisation in new technologies and economic performance</i>	96
	<i>Conclusions</i>	100
	<i>Appendix 5.1: Rate of growth of technology shares of 91 technology sub-fields</i>	102
<b>6</b>	<b>The impact of technology and income elasticities of demand on international competitiveness</b>	<b>105</b>
	<i>Introduction</i>	105
	<i>Some stylised facts on trade, technology and international specialisation</i>	105
	<i>Trade, technology and international specialisation: the hypotheses to be tested</i>	111
	<i>The impact of specialisation on income elasticities of exports and imports across countries</i>	112
	<i>Sectoral and national export elasticities of income</i>	114
	<i>Summary and conclusions</i>	118
	<i>Appendix 6.1: The econometric methodology: coefficients that are functions of other exogenous variables</i>	119
	<i>Appendix 6.2: The concordance adopted between SIC and ISIC classes. SIC (based on the 1972 Standard Industrial Classification Manual)</i>	121

<b>7</b>	<b>Technological specialisation and national performance in a balance-of-payments constrained growth model</b>	<b>125</b>
	<i>Introduction</i>	125
	<i>Technological specialisation, non-price competitiveness, and the balance-of-payments constraint</i>	126
	<i>The variables and the data</i>	131
	<i>Technology, specialisation and balance-of-payments-constrained growth: the results</i>	135
	<i>Summary and conclusions</i>	138
	<i>Appendix 7.1: Fast-growing patent classes 1963–96</i>	141
<b>8</b>	<b>The impact of increasing openness on the sensitivity of export shares to price and non-price competitiveness</b>	<b>142</b>
	<i>Introduction</i>	142
	<i>The impact of increasing openness on the elasticity of export market shares to price and non-price competition</i>	142
	<i>The empirical specification of the export equations with increasing openness</i>	146
	<i>Technology, price and exports: a closer look at the data</i>	150
	<i>The effect of increasing openness on the elasticity of exports to price and non-price factors: the results</i>	153
	<i>Summary and conclusions</i>	157
<b>9</b>	<b>Conclusions</b>	<b>159</b>
	<i>Technological specialisation, international competitiveness and economic growth: a summary of the results</i>	159
	<i>Implications for policy</i>	162
	<i>Implications for theory</i>	165
	<i>Questions for further research</i>	167
	<i>Bibliography</i>	170
	<i>Index of names</i>	181
	<i>Subject index</i>	184
