## List of Contributors

1. Crayfish — an Introduction 1  
*D.M. Holdich and R.S. Lowery*
- 

## Part I: General Biology

2. Functional Morphology and Anatomy 11  
*D.M. Holdich and I.D. Reeve*
  3. Crayfish Distribution, Adaptive Radiation and Evolution 52  
*H.H. Hobbs, Jr*
  4. Growth, Moulting and Reproduction 83  
*R.S. Lowery*
  5. Ecology, Population Biology and Behaviour 114  
*J.B. Hogger*
  6. Food and Feeding 145  
*J.S. Goddard*
  7. Pathogens, Parasites and Commensals 167  
*D.J. Alderman and J.L. Polglase*
  8. Internal Defence Mechanisms 213  
*K. Söderhäll, M.W. Johansson and V.J. Smith*
- 

## Part II: Crayfish of Economic Importance — Methods, Production and Problems

9. *Procambarus* in North America and elsewhere 239  
*J.V. Huner*
10. *Orconectes* in North America and elsewhere 262  
*W. Momot*
11. *Pacifastacus leniusculus* in North America and Europe, 283  
with Details of the Distribution of Introduced and Native  
Crayfish Species in Europe  
*R.S. Lowery and D.M. Holdich*
12. *Astacus astacus* in Europe 309  
*J.M. Cukerzis*
13. *Austropotamobius pallipes* and *A. torrentium*, with Observations 341  
on their Interaction with other Species in Europe  
*P.J. Laurent*
14. *Astacus leptodactylus* in Europe 365  
*G. Köksal*
