Preface xiii

## **Part I. Definition, Identification, and Assessment 1**

### **1. Problems and Issues in the Definition of Learning Disabilities**

*Bernice Y. L. Wong*

Problems in Operationalizing the Definition of Learning  
Disabilities 3

Psychological Process Problems 8

Definitional Problems Arising from Different Demands on the LD  
Definition by Different Interest Groups 14

Research Problems in LD 17

Epilogue 21

References 22

### **2. LD Research in Sociological and Scientific Perspective**

*Gerald M. Senf*

Introduction 27

More than Ignorance at Work 28

The Casualties 29

Science Meets Social Reality 30

Other Sample Bias 31

Problems in Defining the LD Sample	33
Issues Having Research Implications	34
Band-Aid Approaches to Heterogeneity	36
The Context of Classification	38
Classification as Pragmatic	39
Classification as Theory	40
Normal Theory and Deviant Subgroups	42
Alternative Grouping Strategies	43
Empirically Defined Groups	45
Rationally Defined, Clinical/Intuitive, and Behavioral Grouping	46
The Sociological Context of Educational Failure	49
References	51

### 3. Approaches to Assessment

*Gerald Tindal and Doug Marston*

Introduction	55
Issues in Current Models of Assessment	56
Issues and Problems in Identification and Classification	59
Issues and Problems in Instructional Planning and Evaluation	64
An Alternative Model of Assessment Using Direct and Frequent Measurement	67
References	79

## Part II. Psychological Characteristics of Learning-Disabled Children 85

### 4. Cognitive Processes and the Reading Problems of Learning-Disabled Children: Evaluating the Assumption of Specificity

*Keith E. Stanovich*

Introduction	87
What Cognitive Problems Are Associated with Delayed Reading Acquisition?	88
Conclusions: The Assumption of Specificity Revisited	110
References	116

5. Why Some Children Encounter Reading Problems: The Contribution of Difficulties with Language Processing and Phonological Sophistication to Early Reading Disability

*Virginia A. Mann*

Introductory Comments	133
Decoding a Written Representation of Spoken Language: What Skilled Reading Is "All About"	134
The Problem of Specific Reading Difficulty	140
Inadequate Language Skills Are Often Associated with Reading Difficulty	142
The Relation between Reading Difficulty and Difficulties with Language Processing	143
The Relation between Reading Difficulty and Deficient Phonological Sophistication	147
Some Possible Origins of Deficient Language Skills	149
Concluding Remarks	153
References	154

6. Attention Problems in Youngsters with Learning Handicaps

*Antoinette Krupski*

Introduction	161
Sustained Attention	164
Selective Attention	171
Summary and Concluding Comments	186
References	188

7. Social Relationships of Learning-Disabled Children

*Ruth Pearl, Mavis Donahue, and Tanis Bryan*

Introduction	193
Attitudes of Others toward Learning-Disabled Children	194
Learning-Disabled Children's Social Behavior	201
Explanations of Behavioral Differences	208
Social Remediation	213
References	218

## 8. Motivational Problems of Learning-Disabled Children: Individual Differences and Their Implications for Treatment

*Barbara G. Licht and Janet A. Kistner*

Introduction	225
Children's Perceptions of Their Abilities: A Developmental Analysis	229
Patterns of Teacher Feedback	234
Goal Structure of the Classroom	238
Attribution Retraining Treatments	243
Conclusions	248
References	249

## Part III. Treatment Approaches 257

### 9. The Effects of Psychostimulant Drugs on Learning and Academic Achievement in Children with Attention-Deficit Disorders and Learning Disabilities

*William E. Pelham, Jr.*

Introduction	259
Laboratory Studies	260
Classroom Studies	266
Concurrent Interventions	278
Interpretational Issues	282
Conclusions	285
References	288

### 10. Applied Behavior Analysis and the Correction of Learning Disabilities

*Mark A. Koorland*

Introduction	297
Behavioral Instructional Practices	299
Experimental Logic and Design Considerations	305
Recent Research	312
Future Directions	324
References	325

## 11. Intervention Issues Related to the Education of LD Adolescents

*Jean B. Schumaker, Donald D. Deshler, and Edwin S. Ellis*

Introduction	329
Specification of Skill Instruction	336
Enhancing the Intensity of Instruction	342
Accommodating Curricular Expectations	347
Facilitating Independence versus Dependence	353
Conclusion	359
References	360

## 12. Cognitive Behavior Modification: Promoting Active, Self-Regulatory Learning Styles

*Ellen Bouchard Ryan, Keri A. Weed, and Elizabeth J. Short*

Learning-Disabled Children as Passive Learners	367
Cognitive Behavior Modification as an Approach to Intervention	371
Promoting Active Self-Regulatory Learning Styles	375
Methodological Issues and Future Directions	390
References	392

## 13. The Role of Phonemic Analysis in Reading

*Joanna P. Williams*

Introduction	399
The Beginnings of Interest in Auditory Skills	400
A Focus on Phonemic Analysis	401
Phonemic Analysis Training	403
The Relationship between Phonemic Analysis and Instructional Methods	406
Does Reading Improve Phonemic Skill?	408
Should Letters Be Used in Phonemic Training?	410
Related Reading Problems in Older Children	412
Summary	412
References	413

## 14. Computer-Assisted Instruction with Learning-Disabled Children

*Joseph K. Torgesen*

Introduction	417
Evaluation of Computer-Assisted Instruction	418
Potential Uses of Computers with LD Children	422
Needs for the Future	430
References	433
