

H. F. Beyer V. P. Shevelko (Eds.)

# Atomic Physics with Heavy Ions

With 131 Figures

Springer

# Table of Contents

List of Contributors .....	IX
----------------------------	----

---

## Part A. Experimental Methods

---

### I Heavy-Ion Storage Rings

Andreas Wolf .....	3
--------------------	---

### II Physics at the Electron Beam Ion Trap

D.H.G. Schneider, J. Steiger, T. Schenkel and J.R. Crespo Lòpez-Urrutia	30
---	----

---

## Part B. Fundamental Properties

---

### III Quantum Electrodynamics of Highly Charged Ions

Günter Plunien and Gerhard Soff .....	63
---------------------------------------	----

### IV Electron Correlation Effects in Few-Electron Atoms

Paul Indelicato .....	92
-----------------------	----

### V Relativistic Effects

#### in Spectra of One- and Two-Electron Ions

Vitalij G. Pal'chikov .....	117
-----------------------------	-----

### VI Hyperfine Structure of Highly Charged Ions

Vladimir M. Shabaev .....	139
---------------------------	-----

### VII Ground-State Lamb Shift in Heavy Ions

Dieter Liesen and Heinrich F. Beyer .....	160
---	-----

### VIII Laser Spectroscopy

Thomas Kühl .....	181
-------------------	-----

### IX Lifetimes of Excited States in Highly Charged Ions

Lorenzo J. Curtis and Indrek Martinson ..... 197

**X Beta Decay of Highly Charged Ions**  
 Fritz Bosch ..... 219

---

**Part C. Collisional and Radiative Processes**

---

**XI Relativistic Ion-Atom Collisions**  
 Jörg Eichler and Thomas Stöhlker ..... 249

**XII Electron-Impact Ionization  
 and Recombination of Highly Charged Ions**  
 Alfred Müller ..... 272

**XIII Excitation of Atoms by Multiply Charged Ions**  
 Ratko K. Janev ..... 291

**XIV Projectile Ionization and Capture Reactions in  
 Ion-Atom Collisions**  
 Viatcheslav P. Shevelko, D. Böhne, B. Franzke and Th. Stöhlker ..... 305

**XV Charge Changing Processes in Ion-Ion Collisions**  
 Frank Melchert ..... 323

**XVI Rearrangement Reactions in Ion-Ion Interactions**  
 Leonid P. Presnyakov, E. Salzborn and H. Tawara ..... 349

**XVII Hollow Atoms**  
 Brigitte Ban-d'Etat and Jean Pierre Briand ..... 360

**XVIII Large Charged Clusters in Plasmas**  
 Boris M. Smirnov ..... 381

**Subject Index** ..... 395
