

# CANADA *and the World* AN ATLAS RESOURCE

Geoffrey J. Matthews  
*Chief Cartographer*  
*Department of Geography*  
*University of Toronto*

Robert Morrow, Jr.  
*Co-ordinator of Social and Environmental Studies*  
*Wentworth County Board of Education*

## CANADA AND THE WORLD

### A VIEW FROM SPACE 1/2

Map – Azimuthal projection of the earth centred on New York.  
Photograph – The earth from space.

## CANADA

### EXPLORATION, SETTLEMENT, AND GROWTH 3/4

Maps – Historical development of North America to 1825.

### TERRITORIAL EVOLUTION 5/6

Maps – Territorial evolution of Canada, 1866-1984.  
Graph – Area and population growth.

### THE PROVINCES TODAY 7/8

Map – Political boundaries, major cities.  
Data for each province – Entry into Confederation, capital, area, population, population density, urban population.  
Illustrations – Provincial flags.

### POPULATION DISTRIBUTION 9/10

Maps – Population distribution, 1871, 1911, 1981 (with ecumene).  
Graphs – Percent population by province, 1871, 1911, 1981.  
Components of population growth. Population profiles, 1871, 1911, 1981.  
Table – Population of C.M.A.'s

### POPULATION DENSITY 11/12

Maps – Population density. Area and population comparison with five countries.  
Graphs – Population density of selected countries. Population density of provinces and territories. Percent of Canadian population by province and territory.

### NATIVE PEOPLES 13/14

Maps – Linguistic groups, population distribution, land claims.  
A disappearing heritage. Indian treaties.  
Graphs – Major linguistic groups. Registered Indian population. Native population.

### MIGRATION 15/16

Maps – Migration within Canada. Source of immigrants, 1901-1911, 1971-1981. First languages.  
Graphs – Immigration by year. Immigration by country. Net migration, 1961-1980. Source of immigrants, 1871, 1901-1911, 1971-1981. Ethnic composition of Canada.

### THE RESTLESS EARTH 17/18

Maps – Continental drift. Plate tectonics. World earthquake zones and volcanoes. Canadian earthquake seismic zones.  
Illustrations – Segment of the earth. Atlantic Ocean floor.

### SHADED RELIEF 19/20

Maps – Shaded relief, latitude, longitude.

### RELIEF 21/22

Map – Land contours, bathymetric contours.  
Illustrations – Three cross sections of Canada.

### PHYSIOGRAPHY 23/24

Maps – Glacial effect on physiography. The Wisconsin ice sheet. Physiographic regions.  
Photographs – The physiographic regions.

### GEOLOGY 25/26

Map – Geology.  
Graphs – Geological time scale. Temperature changes.  
Illustrations – Prehistoric animals.

### GEOLOGICAL RESOURCES 27/28

Maps – Mineral and fossil fuels. Metallic minerals (showing geological provinces). Industrial minerals (showing surface materials).  
Graphs – Total production value of mining. Production value by province and territory. Production value by mineral sector. Value of metallic minerals.  
Table – Production value of industrial minerals.

### ENERGY CHOICES 29/30

Maps – Electricity generating stations by size and type, electrical energy production and movement. Wind and solar energy. Coal and uranium deposits.  
Graphs – Electricity production by region. Electricity production by energy source. Electrical capacity. Coal production and exports. Primary energy sources. World coal production. Coal importers and exporters. Electricity demand.  
Table – Residential electricity costs.

### OIL AND GAS – EXPLORATION AND TRANSPORTATION 31/32

Maps – Pipeline network, oil and gas fields. Oil and gas exploration. Petroleum basins of the world.  
Tables – Gasoline consumption. Price of gasoline. World oil and gas reserves.  
Illustrations – Origin of oil and gas. Oil and gas traps.

### OIL AND GAS – NEEDS AND PRODUCTION 33/34

Maps – Oil and gas transfers. Beaufort Sea exploration. Beaufort Sea and world markets. East coast offshore exploration.  
Graphs – Oil refining capacity. Consumption and demand for energy. Production and consumption of energy. World petroleum deposits in Continental Shelf areas.  
Illustration – Refinery process.

### ENERGY CASE STUDIES 35/36

Maps – La Grande Rivière Hydro-Electric Complex. Bruce Nuclear Generating Station. Atikokan Coal-Fired Generating Station.  
Tables – Cost comparison. World nuclear energy use.  
Illustrations – Hydro-electric powerhouse. Candu nuclear power reactor. Coal-fired generating station.  
Photographs – LG3 dam and reservoir. Bruce Nuclear Generating Station. Atikokan Coal-Fired Generating Station.

**TYPES OF GOVERNMENT 115/116**

Map – Constitutional and absolute monarchies, one party republics, democratic republics, democratic parliamentary systems, communist socialist republics, military regimes, Islamic republics.

**POPULATION DISTRIBUTION 117/118**

Maps – Population distribution, shaded relief. Isodemographic map in proportion to population.

Graph – The population explosion.

**POPULATION CHARACTERISTICS 119/120**

Maps – Birth rate. Death rate. Population density (total land area). Population density (arable land).

Tables – Top ten and bottom ten countries relating to each of the maps.

**CLIMATE 121/122**

Maps – January temperature. July temperature. Annual solar radiation. Annual precipitation.

**LAND AND SEA 123/124**

Maps – Soils. Natural vegetation. Agriculture. Fishing.

**ECONOMY 125/126**

Maps – G.N.P. per capita. Industry as a percent of G.N.P.

Agriculture as a percent of G.N.P. Annual inflation.

Graphs – G.N.P. per capita for developed and developing countries. Foreign debts of developing countries.

Tables – Top ten and bottom ten countries relating to each of the maps.

**LIVING STANDARDS 127/128**

Maps – Socio-economic ranking. Literacy. Food intake. Infant mortality.

Graph – Adult illiteracy.

Tables – Top ten and bottom ten countries relating to each of the maps.

**LABOUR FORCE 129/130**

Maps – Labour force in industry. Labour force in agriculture. Labour force in services. Women in the labour force.

Tables – Top ten and bottom ten countries relating to each of the maps.

**MILITARY POWER 131/132**

Maps – The nuclear world: air, missile, and submarine bases; reactors; test sites; nuclear capability. Military expenditures.

Graphs – Nuclear industry. Military expenditure/foreign economic aid. Doctors/soldiers.

Tables – Nuclear weapons stockpile. Countries with forces stationed abroad. Regional military expenditures. NATO and Warsaw Pact countries.

**WORLD—REGIONAL**

The following maps all show political boundaries, countries, cities, transportation features including major roads, railways, and international airports, and bodies of water with the 200 m depth line identified.

**NORTH AND CENTRAL AMERICA 133/134****UNITED STATES 135/136****CENTRAL AMERICA AND CARIBBEAN 137/138****SOUTH AMERICA 139/140****EURASIA 141/142****EUROPE 143/144****CENTRAL EUROPE 145/146****UNION OF SOVIET SOCIALIST REPUBLICS 147/148****FAR EAST 149/150****SOUTHEAST ASIA 151/152****SOUTHWEST ASIA 153/154****AFRICA 155/156****AUSTRALIA AND NEW ZEALAND 157/158****POLAR REGIONS 159/160****CANADIAN STATISTICS 161**

1. Climate **161**. 2. Land and Freshwater Area **161**. 3. Basic Demographic Data **162**. 4. Population Growth by Province and Territory **162**. 5. Population Distribution **162**. 6. Projected Population to 2021 **162**. 7. Ethnic Origin **163**. 8. Religion **164**. 9. Official Language **165**. 10. Family Characteristics **165**. 11. Population Growth Since 1851 **165**. 12. Education **166**. 13. Destination of Immigrants **166**. 14. Origin of Immigrants **166**. 15. Family Size **166**. 16. Immigrant Population **167**. 17. First Language by Province and Territory **167**. 18. Labour Force **168**. 19. Principal Field Crops **168**. 20. Farm Cash Receipts by Province **169**. 21. Farm Cash Receipts by Product **169**. 22. Forest Inventory **169**. 23. Volume of Wood Cut **169**. 24. Leading Minerals **170**. 25. Selected Dairy Products **170**. 26. Value of Mineral Production **170**. 27. Foreign Trade by Product **171**. 28. Largest Companies **171**. 29. Foreign Trade by Partner **172**. 30. Foreign Ownership of Major Industries **172**. 31. Overview of the Fisheries **172**. 32. Volume and Value of Fishing Catch **173**. 33. Consumer Price Index **173**. 34. Expenditures on Consumer Goods and Services **174**. 35. Value of Non-Farm Dwellings **174**. 36. Average Income by Occupation **174**. 37. Federal Government Employment **174**. 38. Prime Ministers and Governors General **175**. 39. Income Tax Rates **175**. 40. National Political Party Representation **176**. 41. Federal Government Budget **176**. 42. Canadian Armed Forces – Strength **177**. 43. Canadian Armed Forces – Major Conflicts and Peacekeeping Operations **177**. 44. Canada – Census Metropolitan Areas **177**. 45. Population of Census Metropolitan Areas **178**.

**WORLD STATISTICS 179**

Country. Capital. Area. Population. Population Density. Urban Population. Population Under 15. Population Over 64. Birth/Death Rate. Natural Increase. Infant Mortality. Life Expectancy – Male/Female. Population Estimate For The Year 2000. Persons Per Physician. Persons Per Radio. Persons Per Telephone. Persons Per Television. Persons Per Car. Population With Safe Water. Literacy Rate. Daily Newspapers Bought. G.N.P. Per Capita. Agricultural Land – Cultivated/Pasture. Labour Force in Agriculture. People Compared to Arable Land. Total Highways/Paved Highways. Tourists. Armed Forces. Military Expenditures Per Capita. Military Expenditures (percent of national budget). Ratio of Military Expenditures to Educational Expenditures. Military Expenditures (percent of G.N.P.).

**GLOSSARY 185****GAZETTEER 193****SOURCES 201**

## **URBANIZATION 73/74**

Maps – Population of main urban centres, population change. Rural land converted to urban use by province. Population migration in Toronto C.M.A.

Graphs – Urban population growth. Urban/rural population. Rural land converted to urban use by major city. Owned/rented accommodation. Ownership/rental cost. Urban dwellers in C.M.A.'s.

Table – Fastest growing centres.

## **CALGARY – AN URBAN STUDY 75/76**

Maps – Generalized land use. Residential growth. Annexations.

Graphs – Population change. Population profiles. Urban growth.

Tables – Oil and gas industry. Personal disposable income in Canadian C.M.A.'s.

Satellite images – Calgary in 1975 and 1981.

## **FAR NORTH 77/78**

Map – Main highways, roads, railways, parks, glaciers, population distribution.

Satellite images – Baffin Island. Melville Island.

## **FAR NORTH 79/80**

Map – Major explorers. Climatic regions, weather and climograph stations. Forest use. Summer and winter sea-ice conditions.

Graphs – Climographs of selected stations.

## **FAR NORTH 81**

Map – Topographic map of Fort McPherson, N.W.T.

Photograph – MacKenzie Delta.

## **NEAR NORTH 82**

Map – Topographic map of Fort Coulonge, Qué.

Photograph – Edge of the Canadian Shield.

## **NEAR NORTH 83/84**

Map – Main highways, roads, railways, parks, population distribution.

Photographs – *Folded Canadian Shield rocks*. River used for hydro-electric power. Clay Belts.

Satellite image – Canadian Shield.

## **NEAR NORTH 85/86**

Maps – Metal mines, industrial mineral mines, mines being developed for production. Predominant land use. Land use in Sept-Îles and Sudbury.

Graphs – Extent of the Near North. Land classes in Canada.

Climographs of selected stations.

Photographs – Kidd Creek mining operation. Copper Cliff. Sept-Îles, Baie des Sept-Îles.

## **WESTERN MOUNTAINS 87/88**

Map – Main highways, roads, railways, parks, glaciers, population distribution.

Photograph – Coast Mountains, Skeena River.

Satellite image – Vancouver area.

## **WESTERN MOUNTAINS 89/90**

Maps – Land use. Mean daily temperature in January and July. Mean annual precipitation.

Graphs – Climographs of selected stations.

Illustrations – Cross section of southern B.C.

Photograph – Okanagan Centre.

Satellite images – Okanagan Valley. Northern B.C.

## **WESTERN MOUNTAINS 91**

Map – Topographic map of Brazeau, B.C./Alta.

Photograph – Rocky Mountains and glaciers.

## **PRAIRIES 92**

Map – Topographic map of Lumsden, Sask.

Photograph – Qu'Appelle Valley.

## **PRAIRIES 93/94**

Map – Main highways, roads, railways, parks, population distribution.

Photographs – Area near Drumheller. Badlands near Lake Diefenbaker.

## **PRAIRIES 95/96**

Maps – Types of farming. Loss/gain of farmland. Farm size. Farm sales. Mean annual moisture deficiency. Ethnic origins of people in Winnipeg: Dutch and German, French, East European, British.

Graphs – Trends in Prairie farming. World wheat exports.

Climographs of selected stations. Population growth of Winnipeg.

Ethnic origin of non-Canadian-born population in Winnipeg.

Satellite image – Irrigation patterns.

## **GREAT LAKES – ST. LAWRENCE 97/98**

Map – Main highways, roads, railways, parks, population distribution.

Satellite images – Québec (city) area. Toronto and the Niagara Peninsula.

## **GREAT LAKES – ST. LAWRENCE 99/100**

Maps – Land use. Loss of farmland. First languages in Toronto:

German, Greek, Portuguese, Italian, French, Chinese or Japanese.

Graphs – Change in population. First languages in Toronto.

Climographs of selected stations.

## **GREAT LAKES – ST. LAWRENCE 101**

Map – Topographic map of Montréal, Qué.

Photograph – St. Lawrence River and lowland south shore.

## **ATLANTIC 102**

Map – Topographic map of Bridgetown, N.S.

Photograph – Annapolis Valley.

## **ATLANTIC 103/104**

Map – Main highways, roads, railways, parks, population distribution.

Photograph – Conception Bay.

Satellite image – Northumberland Strait.

## **ATLANTIC 105/106**

Maps – Summer surface currents and bathymetry. Ice conditions.

Natural vegetation. Value of farmland. Agriculture. Land use in P.E.I.

Graphs – Farm cash receipts. Value of farm capital. Climographs of selected stations.

Table – Average income per farm.

## **PROVINCIAL POLITICS 107/108**

Maps – Results of provincial elections. Results for selected urban areas.

Graph – Voter turnout by province.

## **KEY FEDERAL ELECTIONS 109/110**

Maps – 1984 federal election results by electoral district and in major urban areas. Provincial results of key federal elections, 1867-1980.

Graph – Major political parties.

## **TRADE AND AID 111/112**

Maps – Exports. Imports. Energy exports and imports. External aid.

Table – Shipments of food aid in cereals.

## **COMMUNICATION LINKS 113/114**

Map – Canadian embassies, high commissions, consulates;

Permanent Mission of Canada to the United Nations; airline destinations; air connections; submarine cables; international date line; developed, developing, least developed countries.

Graph – Overseas telephone calls from Canada.

Table – Commonwealth countries.

## **URBANIZATION 73/74**

Maps – Population of main urban centres, population change. Rural land converted to urban use by province. Population migration in Toronto C.M.A.

Graphs – Urban population growth. Urban/rural population. Rural land converted to urban use by major city. Owned/rented accommodation. Ownership/rental cost. Urban dwellers in C.M.A.'s.

Table – Fastest growing centres.

## **CALGARY – AN URBAN STUDY 75/76**

Maps – Generalized land use. Residential growth. Annexations.

Graphs – Population change. Population profiles. Urban growth.

Tables – Oil and gas industry. Personal disposable income in Canadian C.M.A.'s.

Satellite images – Calgary in 1975 and 1981.

## **FAR NORTH 77/78**

Map – Main highways, roads, railways, parks, glaciers, population distribution.

Satellite images – Baffin Island. Melville Island.

## **FAR NORTH 79/80**

Map – Major explorers. Climatic regions, weather and climograph stations. Forest use. Summer and winter sea-ice conditions.

Graphs – Climographs of selected stations.

## **FAR NORTH 81**

Map – Topographic map of Fort McPherson, N.W.T.

Photograph – MacKenzie Delta.

## **NEAR NORTH 82**

Map – Topographic map of Fort Coulonge, Qué.

Photograph – Edge of the Canadian Shield.

## **NEAR NORTH 83/84**

Map – Main highways, roads, railways, parks, population distribution.

Photographs – Folded Canadian Shield rocks. River used for hydro-electric power. Clay Belts.

Satellite image – Canadian Shield.

## **NEAR NORTH 85/86**

Maps – Metal mines, industrial mineral mines, mines being developed for production. Predominant land use. Land use in Sept-Îles and Sudbury.

Graphs – Extent of the Near North. Land classes in Canada.

Climographs of selected stations.

Photographs – Kidd Creek mining operation. Copper Cliff. Sept-Îles, Baie des Sept-Îles.
