LUNAR BASES

Strategies, Concepts, Prospects and Plans

Shaker Verlag
Aachen 2003

TABLE OF CONTENTS:

Glossary

Prelude

Preface

1. Goals and Policies	p.1
1.1 Frame of Reference	1
1.2 History and Strategies	9
1.3 Policy Statements	20
1.4 The Earth- Moon	25
1.5 Lunar Market Prospects and Structure	26
2. Facilities	31
2.1 Functions	31
2.2 Definition of Facilities	32
2.3 Habitat	33
2.4 Life Support System	44
2.5 Manufacturing Facilities	53
2.6 Lunar Power Plants	68
2.7 Equipment Requirements	76
3. Logistics	81
3.1 State-of-the-art of Space Transportation Systems	81
3.2 Ground Rules	85
3.3 System Performance	88
3.4 Options of Lunar Space Transportation Systems	91
3.5 Example of an Advanced Lunar Space Transportation System	95
4. Operations	108
4.1 Base Activation	108
4.2 Operation of Housing Facilities	109
4.3 Research Operations	110
4.4 Pilot Plant Operations	113
4.5 Base Infrastructure Operations	116
4.6 Composition and Efficiency of Lunar Crews	117

5. Programmatic	128
5.1 Program Development	128
5.2 Program Policies and Management Structures	130
5.3 Milestones of Future Development	132
5.4 Financing Model	135
5.5 Open Issues of a combined Moon-Mars Program	138
5.6 Legal Aspects	139
5.7 Stages in Development	142
 6. Program Alternatives	 148
6.1 Relevant Information	148
6.2 Interest Groups	150
6.3 Examples of typical Lunar Programs	154
6.4 Selection Criteria	160
 7. Plans	 162
7.1 Early Plans for a Lunar Outpost	162
7.2 System Model: Lunar Base 2015	166
7.3 Space Transportation System Schedule and Performance	185
7.4 Program Overview	195
7.5 LLL- Lean Lunar Laboratory	204
 8. Conclusions	 208
 9. Manifesto SPACE for the 21st Century	 211
About the Author	212
