Burkhard Hofmeister

Australia and its Urban Centres
Australia and its Urban Centres

by

Prof. Dr. Burkhard Hofmeister

With 120 figures and 61 tables in the text
## Contents

**Preface** ........................................................................................................... V

1 **Introduction** ........................................................................................................ 1
   1.1 Approaching the topic: urbanization in Australia ........................................ 1
   1.2 Main sources of information ........................................................................ 4

2 **Historical development of the urban system in Australia** .................................. 7
   2.1 The elements of urban development .............................................................. 7
      2.1.1 Physical-geographical opportunities and constraints .............................. 7
      2.1.2 The demographic and economic framework ........................................... 13
      2.1.3 Urban development policies of the three tiers of government .......... 21
         2.1.3.1 Policies at local, state and federal levels ........................................ 21
         2.1.3.2 The State Housing Authorities ......................................................... 25
         2.1.3.3 Decentralization and growth-pole policy ......................................... 28
   2.2 Stages of urban development ........................................................................ 32
      2.2.1 Convict settlements along the coastlines .............................................. 32
      2.2.2 The Macquarie towns in New South Wales ........................................... 35
      2.2.3 The old mining towns and Murray River towns in the Southeast ....... 38
      2.2.4 The parkland towns on South Australia's frontier ............................... 45
      2.2.5 The ports of Queensland .................................................................... 50
      2.2.6 The sawmill towns of Western Australia's southwest ......................... 52
      2.2.7 Urban development since federation in 1901 .................................... 54
      2.2.8 Growing consciousness of the national heritage and the advent of urban conservation ............................................................. 58
   2.3 The uniqueness of the Australian urban system ............................................. 63
      2.3.1 The phenomenon of the primate city .................................................... 63
      2.3.2 Is there a true hierarchy of central places? .......................................... 68
      2.3.3 Constant changes of rank within the urban system .............................. 74
      2.3.4 Inter-urban relations in the Australian context ..................................... 77

3 **Towns, cities and metropolitan areas** ................................................................ 80
   3.1 The capital cities ............................................................................................ 80
      3.1.1 The metropolitan area of Sydney, New South Wales ............................. 80
      3.1.2 The metropolitan area of Melbourne, Victoria ...................................... 91
      3.1.3 The metropolitan area of Adelaide, South Australia ............................ 100
      3.1.4 The metropolitan area of Brisbane, Queensland .................................... 109
      3.1.5 The metropolitan area of Perth, Western Australia ............................. 115
      3.1.6 The metropolitan area of Hobart, Tasmania ........................................ 123
      3.1.7 The state capitals: a comparative perspective ....................................... 128
      3.1.8 Darwin, capital of the Northern Territory ........................................... 136
      3.1.9 Canberra and the Australian National Territory ................................... 142
   3.2 The City of the Gold Coast in Queensland .................................................... 151
   3.3 Seaports other than the capital cities; important inland towns ....................... 154
      3.3.1 Port and industrial cities ..................................................................... 154
      3.3.2 Mining towns of the interior ................................................................ 156
      3.3.3 Inland service and communication centres ........................................ 157
   3.4 New towns across Australia .......................................................................... 160
      3.4.1 New towns in the Murrumbidgee Irrigation Areas ................................ 160
      3.4.2 Satellite cities in connection with deep-sea harbours and heavy industries ................................................................. 165
      3.4.3 Company towns and open towns in newly developed mining areas .... 169
