The report is based on a mission that visited Bhutan in October and November of 1987. The mission members were Messrs. Cornelius Jansen (Mission Leader), Jeremy Berkoff, Nigel Roberts, and Mateen Thobani. The report was revised following discussions with the Government in April 1988 and the availability of new information on the Sixth Plan and other economic events. In addition, some changes in the balance of payments, fiscal and monetary data were incorporated following an IMF mission in May 1988.
