
A Multi-Volume Comprehensive Treatise

Biotechnology

Second, Completely Revised Edition

Edited by
H.-J. Rehm and G. Reed
in cooperation with
A. Pühler and P. Stadler

Volume 6

Products of Primary Metabolism

Edited by
M. Roehr

Weinheim · New York
Basel · Cambridge · Tokyo

Contents

Introduction	1	
<i>M. Roehr</i>		
I. Raw Materials and Raw Material Strategies		
1a Sugar-Based Raw Materials for Fermentation Applications	5	
<i>E. Stoppok, K. Buchholz</i>		
1b Starch-Based Raw Materials for Fermentation Applications	31	
<i>J.-C. de Troostembergh</i>		
2 Raw Material Strategies – Economical Problems	47	
<i>F. Schneider, H. Steinmüller</i>		
II. Products of Primary Metabolism		
3 Ethanol – Classical Methods	59	
<i>T. Senn, H. J. Pieper</i>		
4 Ethanol – Potential Source of Energy and Chemical Products	121	
<i>N. Kosaric</i>		
5 Microbial Production of Glycerol and Other Polyols	205	
<i>H.-J. Rehm</i>		
6 Microbial Production of Acetone/Isopropanol	229	
<i>P. Dürre, H. Bahl</i>		
7 Microbial Production of 2,3-Butanediol	269	
<i>I. S. Maddox</i>		
8 Lactic Acid	293	
<i>J. S. Kašćák, J. Komínek, M. Roehr</i>		
9 Citric Acid	307	
<i>M. Roehr, C. P. Kubicek, J. Komínek</i>		
10 Gluconic Acid	347	
<i>M. Roehr, C. P. Kubicek, J. Komínek</i>		
11 Further Organic Acids	363	
<i>M. Roehr, C. P. Kubicek</i>		
12 Acetic Acid	381	
<i>H. Ebner, S. Sellmer, H. Follmann</i>		
13 PHB and Other Polyhydroxyalkanoic Acids	403	
<i>A. Steinbüchel</i>		
14a Amino Acids – Technical Production and Use	465	
<i>W. Leuchtenberger</i>		
14b Enzymology of Amino Acid Production	503	
<i>N. Esaki, S. Nakamori, T. Kurihara, S. Furuyoshi, K. Soda</i>		
15 Nucleotides and Related Compounds	561	
<i>A. Kuninaka</i>		
16 Extracellular Polysaccharides	613	
<i>I. W. Sutherland</i>		
17 Biosurfactants	659	
<i>N. Kosaric</i>		
Index	719
