Contents

Introduction	1
1. Sources of productivity growth at the sectoral level	9
1.1 Introduction	9
1.2 Theoretical framework	11
1.2.1 Growth accounting	11
1.2.2 The accumulation of knowledge	15
1.3 Data and empirical specification	18
1.4 Estimation results	22
1.5 Conclusions	26
2. International sectoral spillovers	29
2.1 Introduction	29
2.2 Theoretical framework	32
2.2.1 Post-war growth in Germany and the United States	32
2.2.2 Sectoral productivity convergence	35
2.2.3 Estimation strategy	37
2.3 Data and empirical specification	41
2.4 Estimation results	52
2.4.1 Stationarity analysis of productivity gaps	52
2.4.2 Sources of productivity growth	57
2.4.3 Further effects of the productivity gap	61
2.5 Conclusions	63
3. Innovations, prices, and employment	65
3.1 Introduction	65
3.2 Theoretical framework	67
3.2.1 The model of the firm	67
3.2.2 The impact of innovations	77
3.2.3 Estimation strategy	80
3.3 Data and empirical specification	83
3.3.1 Data	83
3.3.2 Attrition	91
3.3.3 Empirical specification	93
3.4 Estimation results	96
3.4.1 Prices and employment	96
3.4.2 Output and capacity utilization	104
3.4.3 The quantitative impact on employment and sales	107
3.4.4 Summary of estimation results	109
3.5 Conclusions	111

4. Endogenous innovations in a model of the firm	113
4.1 Introduction	113
4.2 Theoretical framework	115
4.2.1 The basic model of the firm	116
4.2.2 Endogenous innovations	126
4.2.3 Estimation strategy	134
4.3 Data and empirical specification	137
4.3.1 Data	137
4.3.2 Attrition	151
4.3.3 Empirical specification	152
4.4 Estimation results	154
4.4.1 Innovation plans and implementations	154
4.4.2 Innovations and investment	160
4.4.3 Innovation activities	163
4.4.4 Innovation expenditures and investment	167
4.4.5 Summary of estimation results	171
4.5 Conclusions	173
5. Sources of productivity growth at the firm level	175
5.1 Introduction	175
5.2 Theoretical framework	177
5.2.1 Growth accounting	177
5.2.2 The model of the firm	178
5.2.3 The knowledge production function	180
5.3 Data and empirical specification	182
5.3.1 Data	182
5.3.2 Empirical specification	188
5.3.3 Attrition	190
5.4 Estimation results	191
5.5 Conclusions	197
Conclusions	199
