Privatization and Regulation of Transport Infrastructure

*Guidelines for
Policymakers and Regulators*

Edited by
Antonio Estache
Gines de Rus

The World Bank
Washington, D.C.

Contents

Foreword	<i>ix</i>
Acknowledgments	<i>xi</i>
1. Introduction	1
2. The Regulation of Transport Infrastructure and Services: A Conceptual Overview	5
<i>Antonio Estache and Gines de Rus</i>	
Why Economic Regulation of Transport?	6
The Diversity of Objectives Reflected in Economic Regulation	10
Natural Monopoly, Competition, and the Unbundling of Activities	22
Unavoidable Restrictions to Entry and Regulation	14
The Main Elements of Contract Design from a Regulator's Viewpoint	16
Public Service Obligations, Competition, and Equity Regulatory Institutions	41
Conclusions	49
3. Airports	51
<i>Ofelia Betancor and Roberto Rendeiro</i>	
Airport Services	51
Privatization and Regulatory Trends	63
Price Regulation	78
Quality and Safety Regulation	92
Performance Indicators	202
Conclusions	220

4. Seaports	223
<i>Lourdes Trujillo and Gustavo Nombela</i>	
Characteristics of Seaports' Services: The Multiproduct ,	
Nature of the-Activity	225
Seaport Infrastructures	226
Seaport Services	227
Coordination of Activities: Port Authorities	229
Privatization and Regulation of Seaports	223
The Traditional Seaport Organization	223
The Movement toward Privatization	128
Concession Contracts in Ports	234
Africa	252
The Americas	252
Asia	253
Price Regulation	255
Quality and Safety Regulation	262
Performance Indicators	265
Conclusions	168
5. Railways	272
<i>Javier Campos and Pedro Cantos</i>	
Characteristics of Railway Services	272
Privatization and Regulatory Trends	277
Price Regulation	202
Quality and Safety Regulation	222
Performance Indicators	226
Conclusions	233
6. Toll Roads	235
<i>Antonio Estache, Manuel Romero, and John Strong*</i>	
Toll Road Services	235
Privatization and Regulatory Trends	245
Price Regulation	279
Quality Regulation	285
Performance Indicators and Information Requirements	289
Conclusions: Recent Innovations and Emerging Issues	292
References	293
Index	307

Boxes

- 2.1 Organizational Forms for the Delivery of Transport Activities 8 •
- 2.2 Price Caps in Practice 33
- 3.1 ATC: The Case of New Zealand 62
- 3.2 ATC: The Case of Canada 65
- 3.3 The RPI-X Formula for BAA Airports 84
- 3.4 Details of Applying the Price Cap at Manchester Airport 86
- 4.1 Levels of Port Development 232
- 4.2 Concept of Long-Run Marginal Cost 257
- 4.3 Concept of Generalized Cost 263
- 6.1 Contracting Out Road Planning and Management 238
- 6.2 Increasing Private Participation in Roads: Argentina's Experience 253 •
- 6.3 How Should a Regulator Consider Risks? 262
- 6.4 Preparing for a Toll Road Program: A Lesson from Peru 266
- 6.5 Rule-Based Renegotiations: Lessons from Chile 272
- 6.6 Why Were Consortia Initially So Optimistic About Road Projects? 277
- 6.7 A Brief Lesson in Engineering for the Price Regulator 283

Figures

- 2.1 Natural Monopoly and Competition 23
- 3.1 Airport size and revenue sources: the Spanish case, 1997 55
- 3.2 Runway Costs Functions 59
- 4.1 Scheme of Seaport Structures 227

Tables

- 2.1 Types of Private Sector Involvement in Transport across Regions in Developing and Transition Economies 10
- 2.2 Relation between Privatization Objectives and Auction Award Criteria 25
- 2.3 The Division of Labor Between Regulator and Government 48
- 3.1 Classification of Airport Activities 52
- 3.2 Airport Size and Revenue Sources: The Spanish Case, 1997 54
- 3.3 Traffic and Revenue Distribution: Selected Airports 56
- 3.4 Scope of Competition in Airport Services 66
- 3.5 Monopoly Power in Airport Handling and Commercial Activities 67

3.6	Inventory of Airport Ownership Structures in Selected Countries	74
3.7	Structure of Some European Airports	76
3.8	Privatization Processes in Latin American Airports	79
3.9	Airport Charges at Selected Airports, 1998	81
3.10	Application of a Price Cap at Manchester Airport, 1993/94-1997/98	85
3.11	Elements for Quality Assessment at Airports	93
3.12	Quality Survey Monitoring Scores: Departure and Arrival areas at Selected BAA Airports, 1995/96	95
3.13	Quality Survey Monitoring Scores: Retail Value for Money at Selected BAA Airports, 1995/96	96
3.14	BAA Check-In Queue Targets	96
3.15	Percentage Availability of Critical Equipment at Selected BAA Airports, April 1995 to March 1996	97
3.16	Average Fault Repair Times for Critical Equipment at Selected BAA Airports, April 1995 to March 1996	97
3.17	Average Levels of Pier Service at Selected BAA Airports, 1995/96	98
3.18	Standards for Maximum Baggage Delivery Times at Selected BAA Airports	98
3.19	Components of the Airport Security System	200
3.20	Financial Performance Indicators	205
3.21	Economic and Productivity Indicators	206
3.22	Quality of Service Indicators	108
3.23	Examples of Reference Standard Levels	209
3.24	European Airports: Best and Worst Practice Values	220
4.1	Typical Civil Works Unit Costs for Port Infrastructure	226
4.2	Port Services	220
4.3	Type of Ownership of 50 Main World Ports, 1997	222
4.4	Financing of Port Infrastructure in Different Countries	224
4.5	Containers: World/Regional Traffic, Selected Years	226
4.6	Threshold Values to Determine the Type of Competition: Container Traffic	233
4.7	Term of Port Concession Contracts in Practice"	239
4.8	Chilean Ports: Distribution of Cargo by Port Type	247
4.9	Port of Buenos Aires Indicators, 1991 and 1997	250
4.10	Relative Weights of Different Port Charges	255
4.11	Comparison of Container Handling Charges Across World Regions, 1996	260

4.12	Concession Fees for Different Ports, 1997	262
5.1	A Summary of the Economic Characteristics of the Rail Industry	76
5.2	Market Shares of Different Transport Modes, Selected Years, 1970-94	277
5.3	Deregulation and Privatization Experiences in Railways	280
5.4	Alternative Organizational Structures in Railways	287
5.5	Different Rail Regulatory Scenarios and their Objectives	292
5.6	Key Variables in Designing Rail Concession Contracts	294
5.7	Quality Dimensions of the Rail Industry'	226
5.8	Role Assignment in Railway Quality of Service Regulation	227
5.9	Instruments for Quality Control in the Rail Industry	225
5.10	Contextual Indicators in the Rail Industry	229
5.11	Management Indicators in the Rail Industry	230
5.12	Best Practices in Railway Management Indicators	232
6.1	Divestitures, Concessions, and O&M Contracts in Developing and Transition Economies, 1990-97	246
6.2	Tolled and Other Roads in Selected Countries	247
6.3	Characteristics of Organizational Options for Toll Roads	252
6.4	Award Criteria in Selected Latin American Toll Road Concessions	275
6.5	Toll Design and Levels in Selected Latin American Toll Road Concessions	280
6.6	Reporting Requirements for Road Concessions	292
