List of Tables	ix
Acknowledgments	xi
1. INTRODUCTION	1
1 Selected Environmental Trends	1
2 Interactions Between Trade and the Environment	5
3 Focus of the Monograph	7
Part I Environmental Consequences of Trade Liberalization	
2. MODELS OF TRADE AND ENVIRONMENT	13
3. PARTIAL EQUILIBRIUM MODELS OF TRADE AND ENVIRONMENT	17
1 Production Externality in a Small Country without Environmental Policy	17
2 Consumption Externality in a Small Country without Environmental Policy	19
3 Production Externality in a Large Country without Environmental Policy	21
4 Consumption Externality in a Large Country without Environmental Policy	23
5 Production Externality in the Presence of Environmental Policy for a Small Country	25
6 Production Externality in the Presence of Environmental Policy for a Large Country	26
4. STRATEGIC BEHAVIOR AND ENVIRONMENTAL QUALITY	31
1 Introduction	31

vi	<i>TRADE</i>	<i>AND</i>	<i>ENVIRONMENT</i>
2	Model		34
3	Welfare Analysis for Non-symmetric Cases		36
	3.1 Non-strategic versus Only Foreign Government is Acting Strategically, (NS versus GS)		36
	3.2 Non-strategic versus Only Foreign Producer is Acting Strategically (NS versus PS)		39
	3.3 Non-strategic versus Both Foreign Government and Producer are Acting Strategically (NS versus Both)		40
	3.4 Only Domestic Government and Foreign Producer are Acting Strategically (GS versus PS)		40
	3.5 Domestic Government and Both Foreign Government and Producer are Acting Strategically (GS versus Both)		41
	3.6 Domestic Producer, and Both Foreign Government and Producer are Acting Strategically (PS versus Both)		41
4	Nash Equilibrium		44
	4.1 Simultaneous Move Game		45
	4.2 Sequential Move Game		46
	4.3 Emissions		47
5	Summary		48
5.	GENERAL EQUILIBRIUM MODELS OF TRADE AND ENVIRONMENT		51
	1 Overview of the Literature		52
	2 Differences in Property Rights		54
	3 Differences in Human Capital		57
	3.1 Transnational Pollution		62
	4 Environmental Protection as a Composite Commodity		63
	5 Summary		66
6.	EMPIRICAL EVIDENCES ON THE ENVIRONMENTAL IMPACT OF TRADE LIBERALIZATION		67
	1 Introduction		67
	2 Past Data Analysis		68
	3 Computable General Equilibrium Models		73
	3.1 Single-Country CGE Models		73
	3.2 Multi-Country CGE Models		75
	4 Case Studies on Individual Countries		80
	5 Other Aspects		83

<i>Contents</i>	vii
7. GROWTH, TRADE AND ENVIRONMENT	85
1 Introduction to EKC Hypothesis	86
2 Empirical Studies on EKC Hypothesis	87
3 An Alternative Test of EKC	89
3.1 Data and Model	91
3.2 Estimation Results for EPP	93
4 A Threshold Test of EKC Hypothesis	95
4.1 Introduction to Threshold Estimation	96
4.2 Model and Estimation	96
4.3 EKC Hypothesis Between Trade and Pollution	98
5 Summary on EKC Findings	99
8. IS TRADE GOOD FOR THE ENVIRONMENT?	
GENERAL CONCLUSIONS	103
Part II Impact of Environmental Regulations on International Competitiveness	
9. INTERNATIONAL COMPETITIVENESS AND ENVIRONMENTAL REGULATIONS	111
1 Introduction	111
2 Conventional School	112
3 Revisionist School	113
4 Regulations, Innovation and Competitiveness	116
5 Environmental Regulations and Innovation	116
6 Innovation and Competitiveness	118
10. COMPETITIVENESS AND ENVIRONMENTAL REGULATIONS: A THEORETICAL INQUIRY	121
1 Introduction	121
2 Theoretical Literature	121
3 Porter Hypothesis and Tradable Emissions Permits	123
3.1 Stricter Regulation, Innovation and Competitiveness	125
3.2 International Competitiveness and Regulation	130
3.3 Summary	136
3.4 Appendix	137
11. EMPIRICAL LITERATURE ON ENVIRONMENTAL REGULATIONS AND COMPETITIVENESS	143

viii	<i>TRADE</i>	<i>AND</i>	<i>ENVIRONMENT</i>
1	Changes in Trade Patterns-Pollution Haven Hypothesis		143
1.1	A Criticism		146
2	Environmental Policy Stringency and Net Exports		147
3	Foreign Direct Investment		150
4	Firm-Level Evidences		151
5	Individual Country Studies		153
6	Summary of Empirical Findings		155

### Part III International Environmental Agreements and Trade

12.	INTERNATIONAL ENVIRONMENTAL AGREEMENTS AND TRADE		159
1	Introduction		159
2	International Trading Regime		163
2.1	Trade and the Environment in the GATT		163
2.1.1	Canada-US Tuna Case (1982)		164
2.1.2	Tuna-Dolphin I-( 1991) and II-( 1994)		164
2.2	Trade and the Environment in NAFTA		166
2.3	Environmental Impact of NAFTA		168
2.4	International Environmental Agreements		169
2.4.1	Montreal Protocol		170
3	Appendix		173
3.1	The Committee on Trade and Environment (CTE)		173
3.2	Trade and Environment Disputes		175
3.3	International Treaties on Environment with Trade Provisions		181
13.	GLOBAL ENVIRONMENTAL PROTECTION AND TRADE		183
1	Introduction		183
2	Model		185
2.1	Production side		185
2.2	Demand side		186
3	Free-riding and Nash Equilibrium		187
3.1	Terms of Trade Effects		190
3.2	Cooperative Case		193
4	Conclusion		196
5	Appendix		198
