CONTENTS

Preface.....	xiii
1 AIR TRANSPORT AND AIRPORTS.....	1
1.1 Development of Airports.....	1
1.2 Standards.....	11
1.2.1 ICAO Legislation.....	11
1.2.2 National Standards and Recommended Practices.....	14
1.3 Airport Development Planning.....	15
2 RUNWAYS.....	19
2.1 Aerodrome Reference Code.....	19
2.2 Runway Length.....	22
2.3 Declared Distances.....	28
2.4 Runway Width.....	30
2.4.1 Runway Width Requirements.....	30
2.4.2 Runway Edge Strips.....	31
2.5 Runway Slopes.....	32
2.5.1 Transverse Slopes.....	32
2.5.2 Longitudinal Slopes.....	33
3 RUNWAY STRIPS AND OTHER AREAS.....	35
3.1 Runway Strips.....	35
3.2 Clearways.....	37
3.3 Runway End Safety Areas.....	38
4 TAXIWAYS.....	43
4.1 Taxiway System Design.....	43
4.2 High-speed Exit Taxiways.....	45
4.3 Taxiway Characteristics.....	49
5 PAVEMENTS.....	53
5.1 Background.....	53
5.2 Pavement Types.....	54

5.2.1	Non-Reinforced Grass Strips.....	55
5.2.2	Reinforced Grass Strips.....	55
5.2.3	Reinforced Pavements with Hard Surface.....	56
5.2.3.1	Use of Hard Surface Pavements.....	56
5.2.3.1.1	Subgrade.....	56
5.2.3.1.2	Sub-base.....	58
5.2.3.1.3	Bearing Course.....	58
5.2.3.2	Flexible (Asphalt) Pavements.....	58
5.2.3.3	Rigid (Cement-concrete) Pavements.....	60
5.2.3.4	Combined Pavements.....	66
5.2.3.5	Block Paving.....	66
5.3	Pavement Strength.....	67
5.3.1	Pavements-Aircraft Loads.....	67
5.3.2	Pavement Strength Reporting.....	68
5.3.3	Overload Operations.....	72
5.4	Runway Surface.....	72
5.4.1	Runway Surface Quality Requirements.....	72
5.4.2	Methods of the Runway Surface Unevenness Assessment by the DMS Method..	73
5.4.3	Pavement Texture.....	77
5.4.4	Runway Braking Action.....	80
6	AIRPORT SITE SELECTION AND RUNWAY SYSTEM ORIENTATION.....	87
6.1	Selection of a Site for the Airport.....	87
6.2	Usability Factor.....	89
6.3	Usability Factor with the Runway Visibility Range.....	92
6.4	Obstacles.....	93
6.5	Other Factors.....	97
7	APRONS.....	101
7.1	Apron Requirements.....	101
7.2	Apron Sizing.....	102
7.3	Apron Location.....	103
7.4	Apron Concepts.....	104
7.4.1	Linear Concept.....	105
7.4.2	Open Concept.....	105
7.4.3	Pier Concept.....	106
7.4.4	Satellite Concept.....	107
7.5	Stand Types.....	108
7.6	Apron Capacity.....	112
7.7	Isolated Aircraft Parking Position.....	113
8	AIRCRAFT GROUND HANDLING.....	115
8.1	Aircraft Handling Methods.....	115
8.2	Aircraft Ground Handling Activities.....	119

8.2.1	Deplaning and Boarding.....	119
8.2.2	Supplies of Power, Air-Conditioning and Compressed Air.....	123
8.2.3	Cargo and Baggage Loading.....	124
8.2.4	Push Back Operations.....	124
8.3	Visual Guidance Systems.....	127
9	AIRCRAFT REFUELLING.....	133
9.1	Background.....	133
9.2	Fuel - Requirements.....	135
9.2.1	Requirements for Fuel Quality.....	135
9.2.2	Fuel Storage.....	137
9.3	Fuel Distribution.....	139
9.4	Safety of the Refuelling Operation.....	143
9.4.1	Ecological Damage.....	143
9.4.2	Fire Safety.....	146
9.5	Aircraft Fuel - Future Trends.....	147
10	VISUAL AIDS FOR NAVIGATION.....	149
10.1	Markings.....	149
10.1.1	Markings Requirements.....	149
10.1.2	Marking Types.....	152
10.2	Airport Lights <i>(Author: Frantisek B lohradsky, Consultant, Prague, CZ)</i>	155
10.2.1	Characteristics of Airport Lights.....	155
10.2.1.1	Introduction.....	155
10.2.1.2	Approach and Runway Systems.....	157
10.2.1.2.1	Non-Instrument and Instrument Runways.....	157
10.2.1.2.2	Precision Approach Runway.....	159
10.2.1.3	Approach Slope Indicator Systems.....	166
10.2.2	Lighting System Components.....	172
10.2.2.1	Remote Control Equipment.....	172
10.2.2.2	Light sources.....	174
10.2.2.3	Lights and Fittings.....	175
10.2.2.4	Requirements for Aerodrome Lights.....	176
10.2.3	Lighting Systems Construction and Operation.....	179
10.2.3.1	Lighting Systems Design and Installation.....	179
10.2.3.2	Maintenance of the Lighting Systems.....	180
10.2.4	Trends in Lighting Systems Development.....	182
11	ELECTRICAL ENERGY SUPPLY.....	185
11.1	Background.....	185
11.2	Electrical Systems Reliability.....	185
11.3	Supply Systems.....	190
11.3.1	Parallel System.....	190
11.3.2	Serial System.....	191

11.3.2.1	Serial System - the Principle.....	191
11.3.2.2	Serial System - Components.....	192
11.4	Electrical supply to Category I - III Lighting Systems.....	196
12	AIRPORT WINTER OPERATION.....	197
12.1	Snow and Aircraft Operation.....	197
12.2	Snow Plan.....	199
12.3	Mechanical Equipment for Snow Removal and Ice Control.....	203
12.4	Chemicals for Runway De-icing.....	209
12.5	Thermal De-icing.....	213
12.6	Runway Surface Monitoring.....	214
12.7	Aircraft De-icing.....	215
13	AIRPORT EMERGENCY SERVICES.....	219
13.1	Roles of the Rescue and Fire Fighting Service.....	219
13.2	Level of Protection Required.....	220
13.2.1	Response Times.....	220
13.2.2	Aerodrome Category For Rescue And Fire Fighting.....	223
13.2.3	Principal Extinguishing Agents.....	224
13.2.4	Complementary Extinguishing Agents.....	226
13.2.5	The Amounts of Extinguishing Agents.....	227
13.3	Rescue and Fire Fighting Vehicles.....	228
13.4	Airport Fire Stations.....	232
13.5	Emergency Training and Activity of Rescue and Fire Fighting Unit.....	234
13.5.1	Training.....	234
13.5.2	Preparation for an Emergency Situation and Rescue and Fire Fighting Intervention Control.....	236
13.6	Runway Foaming.....	238
13.7	Post Emergency Operations.....	240
13.8	Emergency Services and Environment Protection.....	243
13.9	Summary.....	244
14	PASSENGER TERMINALS.....	245
14.1	Airport Terminal Design Principles.....	245
14.2	Airport Terminal Layout.....	249
14.3	Airport Terminal Concepts.....	251
14.4	Terminal Design.....	252
14.5	The Handling Process.....	255
14.5.1	Passenger Handling.....	255
14.5.2	Baggage Handling.....	259
14.6	Non-Aeronautical Services.....	261
14.7	Passenger Transportation - People Movers.....	263
15	SECURITY.....	269

15.1	Unlawful Acts and Air Transport	269
15.2	The Airport System and Its Security.....	273
15.3	Safeguarding of Airport Security.....	275
15.3.1	Security as a Service.....	275
15.3.2	Airport Perimeter Security and Staff Identification.....	276
15.3.3	Employee Security Procedures.....	281
15.3.4	Measures in Relation to Passengers.....	282
15.4	Detection of Dangerous Objects.....	287
15.5	Summary.....	295
16	LANDSIDE ACCESS.....	297
16.1	Access and the Airport System.....	297
16.2	Selection of the Access Modes.....	299
16.3	Categories of Surface Transport Users.....	300
16.4	Access and Terminal Operations.....	300
16.5	Access Modes.....	302
16.5.1	Passenger Car.....	302
16.5.2	Taxi.....	304
16.5.3	Minibus.....	305
16.5.4	Bus.....	305
16.5.5	Railway Transport.....	306
16.5.5	Unconventional Means of Transport.....	310
17	ENVIRONMENTAL CONTROL.....	311
17.1	Background.....	311
17.2	Noise (<i>Author: Milan Kamenicky, Bratislava, Slovakia</i>).....	314
17.2.1	Characteristics.....	314
17.2.2	Descriptors Used for Aircraft Noise Rating.....	316
17.2.3	Evaluation of Noise in the Vicinity of Airports.....	321
17.2.4	Land Use and Compatibility Planning.....	324
17.2.5	Aircraft Noise Measurement.....	326
17.2.5.1	Short Term Measurement.....	326
17.2.5.2	Long-term Noise Monitoring.....	327
17.2.6	Prediction of Air Traffic Noise.....	329
17.2.7	Airport Noise Mitigation and Noise Abatement Procedures.....	331
17.3	Control of Gaseous Emissions.....	334
17.4	Protection of Water Sources.....	336
17.5	Landscaping.....	337
17.6	Waste Management.....	338
17.7	Bird Control.....	339
17.7.1	Introduction.....	339
17.7.2	Bird Strike Statistics.....	340
17.7.3	Change of the Habitat.....	342
17.7.4	Bird Scaring.....	344

17.7.5	Ornithological Protection Zones.....	348
18	PREDICTING DEMAND.....	349
18.1	Introduction.....	349
18.2	Types of Forecast Needed.....	350
18.3	Methods of Analysis.....	351
18.3.1	Informed Judgement.....	351
18.3.2	Trend Extrapolation.....	352
18.3.3	Econometric Models.....	354
18.3.4	The Travel Decisions.....	356
18.3.5	Modal Shares.....	356
18.3.6	Discrete Choice Models.....	358
18.3.7	Revealed and Stated Preferences.....	359
18.3.8	Effects of Supply Decisions.....	359
18.3.9	Uncertainty.....	360
18.3.10	Scenario Writing.....	361
18.4	Historic Trends in Traffic.....	362
18.5	Factors Affecting the Trends.....	363
18.5.1	Economic Factors.....	363
18.5.2	Demographic Factors.....	363
18.5.3	Supply Factors.....	364
18.5.4	Technology.....	365
18.5.5	Management.....	366
18.5.6	Regulation.....	366
18.5.7	Constraints.....	366
18.5.8	Cargo.....	367
18.6	Conclusions.....	367
	Further reading.....	371
	Index.....	381
