<b>About the authors</b>	<b>xxv</b>
<b>List of abbreviations and acronyms</b>	<b>xxix</b>
<b>Introduction</b>	<b>1</b>
Definitional context and limitations	1
Objective	4
Method	5
Audience and level of technicality	6
The place of this volume in the Quantitative Methods in Social Protection Series	6
Outline	7
<b>1 Basic concepts: Social protection and social transfers</b>	<b>11</b>
1.1 Social protection through social transfers	12
1.2 Informal transfer systems	17
1.3 Formal transfer systems	19
1.3.1 Defining formal social protection, its functions, institutions and sources of finance	19
1.3.2 Financial architecture of national social protection systems	22
1.4 Income effects of national social transfer systems	25
1.4.1 Measures of inequality, poverty and transfer efficiency	26
1.4.1.1 Measuring income inequality	26
1.4.1.2 Measuring poverty	32
1.4.1.3 Measuring transfer efficiency	34
1.4.2 Factual evidence on the redistributive effects of social transfers	37
1.5 Estimating overall normal transfer levels	41
1.6 Estimating minimum levels of formal social protection	46
1.7 Normal transfer levels and the affordability debate	50
1.8 Summary	51
Annex I-A1 Defining the term “social protection”	54
	<b>vii</b>

## Contents

<b>2</b>	<b>The size of the welfare state: Trends, patterns and determinants of social expenditure</b>	<b>59</b>
2.1	Social expenditure ratio: A basic measure and its limitations	60
2.2	Expenditure trends and patterns	61
2.2.1	Observed regional expenditure trends	62
2.2.1.1	Industrialized countries	62
2.2.1.2	Developing countries	65
2.2.2	Developmental patterns	69
2.2.3	Structural patterns	70
2.3	Future prospects	72
2.3.1	Methodology and assumptions	75
2.3.2	Projection results	78
2.4	Factor analysis of the determinants of national social expenditure	82
2.4.1	Impact of the demographic environment	83
2.4.2	Impact of governance	89
2.4.3	Impact of the economic environment	96
2.4.4	Weighting the factors	99
2.5	Summary	99
	Statistical Annex 2-A1	103
<b>3</b>	<b>Social protection and the economy</b>	<b>106</b>
3.1	Economic taxonomies of national social protection systems	109
3.2	Exploring the theory: Do extensive welfare states affect economic performance?	111
3.2.1	Do extensive welfare states have a negative impact on economic performance?	112
3.2.2	Do extensive welfare states have a positive impact on economic performance?	119
3.2.3	Preliminary theoretical conclusion	121
3.3	Looking at the evidence: The mechanisms of interaction between the welfare state and economic performance	121
3.3.1	The welfare state and labour market outcomes	126
3.3.2	Institutional fine print: Tax/benefit systems and low-paid labour	130
3.3.3	Institutional fine print: Retirement schemes and other exits from the labour force	139
3.3.4	Total social expenditure revisited: Input or outcome measure	141
3.3.5	Welfare outcomes of different types of welfare states	143
3.3.5.1	Income transfers and the dynamics of poverty	143
3.3.5.2	Adequacy of pensions	145
3.3.6	Putting theory and evidence together: The puzzle remains	148
3.4	Economic instruments in the governance of social transfers	150
3.4.1	Theoretical background	151

3.4.1.1	Information economics	151
3.4.1.2	New institutional economics	153
3.4.2	Public versus private provision of social protection	156
3.4.2.1	Market and government failures	156
3.4.2.2	Governance choices	159
3.4.2.3	Conclusions	163
3.5	Will we be able to afford the welfare state in the future?	163
3.5.1	The demographic challenge	164
3.5.2	The challenge of internationalization	168
3.5.3	Summing up	172
3.6	Summary	173
<b>4</b>	<b>The public finance nexus and resource mobilization strategies</b>	<b>178</b>
4.1	Social protection in national and government accounts	178
4.2	Financial links between social protection schemes and government accounts	181
4.2.1	Financial flows from social security schemes to government accounts	182
4.2.2	Flows and links between government accounts and social protection schemes	186
4.2.3	Indirect subsidies and contingent liabilities	191
4.3	Effect of social protection financing on public deficits and debt	193
4.3.1	Explicit debt	193
4.3.2	Implicit debt	194
4.4	Social protection financing and public financing strategies	198
4.5	Mobilizing resources for the social protection sector	202
4.5.1	Basic choices	202
4.5.2	Developing a national resource mobilization strategy	207
4.6	Summary	215
<b>5</b>	<b>Financing techniques</b>	<b>219</b>
5.1	Financing systems: Definition, parameters and main applications	220
5.1.1	The principal objective of financing systems	220
5.1.2	Parameters of financing systems	223
5.1.2.1	The size of the covered group	223
5.1.2.2	Financing rules	225
5.1.2.3	Actuarial equilibrium and the level of funding	227
5.1.2.4	Sources of financing	232
5.1.3	Application of the different types of financing systems	240
5.2	Financing health care benefits	240
5.2.1	National health care financing systems	245
5.2.2	Community-based schemes for the informal sector	249
5.2.3	Private insurance and mixed financing systems	257

## Contents

5.3	Financing social security pensions	261
5.3.1	Typical expenditure life cycle of pension schemes	261
5.3.2	Incidence of contributions	268
5.3.3	Contribution base	270
5.3.4	Types of contributions	272
5.3.5	Determining the level of contributions	282
5.3.6	Rate setting in fully and highly funded schemes	299
5.3.7	Rate setting in PAYG or scaled premium regimes	300
5.4	Financing other benefits	302
5.4.1	Social assistance	302
5.4.2	Universal (basic) minimum income	308
5.4.3	Other short-term and long-term benefits	315
5.5	International instruments	317
5.6	Summary	322
	Annex 5-A1 Testing factor sensitivity in the context of a young African pension scheme	326
<b>6</b>	<b>Investing social protection reserves</b>	<b>330</b>
6.1	Financial markets: Definition and general characteristics	331
6.1.1	Characteristics of formal financial markets	333
6.1.2	Macroeconomic context and role of financial markets	335
6.2	Nature and institutional management of social security reserves	338
6.2.1	Long-term funds versus transitory reserves	339
6.2.1.1	Pension funds	340
6.2.1.2	Contingency reserves	342
6.2.2	Institutional organization of reserve management	343
6.3	Basic investment principles	344
6.3.1	Safety	344
6.3.2	Yield	345
6.3.3	Liquidity	345
6.3.4	Social and economic utility	345
6.4	Criteria of asset management in practice	346
6.4.1	Maximizing return	347
6.4.2	Minimizing risk	349
6.4.3	Optimizing the time horizon	355
6.4.4	Benchmarking	357
6.5	Analytical tools	359
6.5.1	Equity performance indicators	359
6.5.2	Equity valuation	361
6.5.2.1	Balance sheet concepts	361
6.5.2.2	Concepts based on future cash flows	362
6.5.3	Debt instrument performance indicators	366
6.5.4	Bond yield	366

6.6	Investment strategies	369
6.6.1	Investment by industry	369
6.6.2	Investment by financial market	372
6.6.3	Investment by region	373
6.6.4	Socially responsible investment	374
6.6.4.1	Corruption	374
6.6.4.2	Labour standards	374
6.6.4.3	Human rights	375
6.6.4.4	Social security	375
6.6.5	Common considerations	376
6.7	Investment problems in countries with underdeveloped financial markets	378
6.7.1	Emerging markets and investment of pension funds	379
6.7.2	Funding pensions in transition countries	383
6.7.3	Investment in support of national development plans	389
6.8	What comes first: Pension funds or financial markets?	391
6.9	Summary	394
<b>7</b>	<b>Financial governance</b>	<b>401</b>
7.1	Basic legal framework and instruments of financial governance	404
7.1.1	Framework legislation and relation to other legislation	404
7.1.2	Regulatory framework for state-operated systems	405
7.1.2.1	Legal set-up	405
7.1.2.2	Audits and controls	407
7.1.3	Regulatory framework for social insurance schemes	408
7.1.4	Regulatory framework for mandated private insurance schemes or occupational schemes	408
7.1.4.1	Regulation of private mandatory pension systems	409
7.1.4.2	Regulation of life insurance companies	411
7.1.4.3	Supervision	414
7.1.5	Financial market regulations	415
7.1.5.1	Savings–investment intermediation mechanisms	416
7.1.5.2	Regulations relevant to financial markets	416
7.1.5.3	Basic regulations governing the banking system	417
7.2	Hierarchy of quantitative governance instruments: An overview	418
7.2.1	Descriptive instruments	419
7.2.1.1	Accounting frames	419
7.2.1.2	Social protection statistics	425
7.2.2	Planning instruments	429
7.2.3	Analytical and performance-monitoring instruments	436
7.2.3.1	Scheme-based performance indicators	439
7.2.3.2	Expenditure and performance reviews	447
7.3	Summary	464
	Annex 7-A1 A scheme-based set of performance indicators	468

## Contents

<b>Conclusion</b>	<b>489</b>
<b>Issue Brief 1 HIV/AIDS: Managing the financial consequences of a pandemic in a developing country context</b>	<b>495</b>
1. Introduction	495
2. Presentation of Afroland	496
3. Demographic impact	497
4. Economic impact	499
5. Impact of HIV/AIDS on social protection programmes	503
6. Social budget	512
7. Impact of HIV/AIDS on government budget	514
8. Conclusion	516
Annex IB1-A1 Description of the main economic assumptions used for projections	518
Annex IB1-A2 Impact of HIV/AIDS on defined-contribution schemes	521
<b>Issue Brief 2 Migration and higher labour force participation as factors in social protection financing: Policy choices in ageing societies</b>	<b>523</b>
1. Introduction and objective	523
2. Demographic context	524
3. Methodological approach	526
4. Results of labour force and economic projections	528
5. Effects on pension scheme financing	532
6. Policy conclusions	538
Statistical Annex IB2-A1	540
<b>Issue Brief 3 The number cruncher's survival kit</b>	<b>548</b>
1. Basic budgeting techniques	548
2. Calculation of balances and reserves	550
3. Calculation of contribution rates	550
<b>Issue Brief 4 Financial markets: Organization and main instruments</b>	<b>552</b>
1. Primary markets	553
2. Secondary markets	557
3. Debt markets	558
4. Equity markets	560
5. Money markets	561
6. Capital markets	562
