<i>Author Bios</i>	xi
1 Introduction to Games User Research	1
ANDERS DRACHEN, PEJMAN MIRZA-BABAEI AND LENNART E. NACKE	
<b>PART I GAMES USER RESEARCH IN PRODUCTION</b>	13
2 Games User Research as part of the development process in the game industry: challenges and best practices	15
VERONICA ZAMMITTO	
3 It is all about process	31
DAVID TISSERAND	
4 Post-launch in Games User Research	45
IAN LIVINGSTON	
5 User experience maturity levels: evaluating and improving Games User Research practices	61
GRAHAM MCALLISTER	
6 Designing a Games User Research lab from scratch	81
SEBASTIAN LONG	
<b>PART II METHODS: TESTING THINGS YOU PLAY</b>	97
7 An Overview of GUR methods	99
MICHAEL C. MEDLOCK	
8 A framework for player research	117
GRAHAM MCALLISTER AND SEBASTIAN LONG	

<b>9</b>	<b>Surveys in Games User Research</b>	<b>141</b>
	FLORIAN BRÜHLMANN AND ELISA MEKLER	
<b>10</b>	<b>Interviewing players</b>	<b>163</b>
	STEVE BROMLEY	
<b>11</b>	<b>Observing the player experience: the art and craft of observing and documenting Games User Research</b>	<b>175</b>
	MIRWEIS SANGIN	
<b>12</b>	<b>The think-aloud protocol</b>	<b>189</b>
	TOM KNOLL	
<b>13</b>	<b>The Rapid Iterative Test and Evaluation Method (RITE)</b>	<b>203</b>
	MICHAEL C. MEDLOCK	
<b>14</b>	<b>Heuristics uncovered for Games User Researchers and game designers</b>	<b>217</b>
	HEATHER DESURVIRE AND DENNIS WIXON	
<b>15</b>	<b>Heuristic evaluation of playability: examples from social games research and free-to-play heuristics</b>	<b>257</b>
	JANNE PAAVILAINEN, HANNU KORHONEN, ELINA KOSKINEN, AND KATI ALHA	
<b>16</b>	<b>Introduction to Biometric Measures for Games User Research</b>	<b>281</b>
	LENNART E. NACKE	
<b>17</b>	<b>Developing actionable biometric insights for production teams: case studies and key learnings</b>	<b>301</b>
	PIERRE CHALFOUN AND JONATHAN DANKOFF	
<b>18</b>	<b>Reporting user research findings to the development team</b>	<b>323</b>
	PEJMAN MIRZA-BABAEI	
<b>19</b>	<b>Game Analytics for Games User Research</b>	<b>333</b>
	ANDERS DRACHEN AND SHAWN CONNOR	
	<b>PART III CASE STUDIES AND FOCUS TOPICS</b>	<b>355</b>
<b>20</b>	<b>Punching above your weight: how small studios can leverage data for an unfair advantage</b>	<b>357</b>
	LYSIANE CHAREST	

21	Affordable and data-driven user research for indie studios	381
	PEJMAN MIRZA-BABAEI AND THOMAS GALATI	
22	‘Play as if you were at home’: dealing with biases and test validity	393
	GUILLAUME LOUVEL	
23	Dissecting the Dragon: GUR for Dragon Age™: Inquisition	403
	JAMES BERG	
24	Running user tests with limited resources and experience	417
	JULIEN HUGUENIN	
25	Starting from scratch: pragmatic and scalable guidelines to impactful Games User Research	431
	JOHAN DORELL AND BJÖRN BERG MARKLUND	
26	Strategies for understanding and researching mobile games in context	453
	STEVEN SCHIRRA AND BROOKE WHITE	
27	Involving players with special needs in Games User Research	465
	KATHRIN GERLING, CONOR LINEHAN, AND REGAN MANDRYK	
28	Gamer motivation profiling: uses and applications	485
	NICK YEE AND NICOLAS DUCHENEAUT	
29	Social Network Analysis in Games User Research	491
	JOHANNA PIRKER	
30	A short guide to user testing for simulation sickness in Virtual Reality	501
	BEN LEWIS-EVANS	
	<b>CONCLUSION: THE FUTURE OF GAMES USER RESEARCH</b>	507
31	Frontlines in Games User Research	509
	ANDERS DRACHEN, PEJMAN MIRZA-BABAEI, AND LENNART E. NACKE
