

# **Reforming Infrastructure**

**Privatization, Regulation,  
and Competition**

Ioannis N. Kessides

A copublication of the World Bank  
and Oxford University Press

# Contents

**Foreword** xi

**The Report Team** xv

**Executive Summary** 1

State-owned Monopolies Often Exhibited Poor Performance . . .

. . .Leading to a New Model for Financing and Providing  
Infrastructure 3

The New Model Poses Risks—But Also Holds Considerable  
Promise 4

What Effects Have Reforms Had? 9

Developing Good Regulation Remains a Major Challenge 17

Many Prices and Subsidies Still Require Reform 19

An Agenda for Action—From Institution Building to Policymaking

**1. The New Paradigm for Network Utilities** 29

Why Are Network Utilities So Important? 29

From State to Market—Changing Views on Utilities 30

The Dawn of a New Utility Model 35

Framework for Assessing Reforms and Regulations 42

Recent Experiences with Privatization and Reform—  
Promises and Perils 51

Second Generation Reforms—Choices and Challenges 63

**2. Crafting Regulation for Privatized Infrastructure** 79

The Emergence of Post-Privatization Regulation 79

The Evolution and Elements of Effective Regulation 81

The Structure of Regulatory Institutions 95

The Importance of Regulatory Commitment 100

Getting the Economics Right 110

Mechanisms to Regulate Prices 112

Moving toward More Practical Regulation 123

<b>3. Restructuring Electricity Supply</b>	<b>131</b>
Background to Electricity Reform	132
Addressing the Problems of State Ownership	141
Regulatory Challenges	158
Reform Experiences and Lessons	167
<b>4. Managing Private Participation in Transportation</b>	<b>183</b>
Railroads: Restructuring Regulation for the Public Interest	184
Ports: Alternatives for Organizing a Multiproduct Activity	205
<b>5. Reforming the Water Sector</b>	<b>219</b>
Economics of Water Supply	220
Options for Competition and Market Structure	227
Choosing Regulation	235
Reform Experiences and Lessons	252
<b>6. An Agenda for Action</b>	<b>259</b>
Assessing Reforms Effects on Performance and Distribution	260
Pricing Reform—Balancing Efficiency and Equity	269
Facilitating Access to Bottleneck Facilities	275

## Figures

1	In 1990—2001, Latin America and East Asia Received the Most Private Investment in Infrastructure	10
2	Private Investment in Infrastructure in Developing and Transition Countries Peaked in 1997	11
3	Privatized Services Have Increased Access to Safe Water in a Variety of Cities and Countries	12
4	In 1989-94, Privatization Contributed to Faster Growth in Phone Lines in Latin America	13
5	Railway Concessions Sharply Increased Labor Productivity in the 1990s	14
6	In 2000, Electricity Prices Covered a Small Fraction of Long-Run Marginal Costs in Many Transition Economies	15
1.1	Latin America and the Caribbean Has Led Developing Regions in Private Investment in Infrastructure, 1990—2001	34
1.2	The Optimal Size of Power Generating Plants Has Shrunk	39
1.3	There Are Now More Mobile Phone Users Than Fixed Phone Lines	41
1.4	Latin Americans Increasingly Disapprove of Privatization	52
1.5	Privatization Has Led to Rapid Growth in Telecommunications Networks	54
1.6	Private Competition Generated the Fastest Growth in Telecommunications Lines in Latin America	56

1.7	Electricity Prices Often Fail to Cover Costs in Europe and Central Asia, 2000	66
1.8	Despite Liberalization, Entrants into the Local Exchange Account for a Small Share of Latin American Telecom Markets, 2001 Second Quarter	72
2.1	Results from a Survey of Telecommunications Regulators, 2001	93
2.2	Regulatory Indexes for Telecommunications in Latin America, 1980-97	94
3.1	Vertical Integration in Electricity	132
3.2	Customers per Electricity Employee in Selected African Countries, 1998	138
3.3	Projected Costs of Small-Scale Electricity Generation Technologies, 2000-15	139
3.4	The Single-Buyer Model for Electricity	148
3.5	The Wholesale Competition Model for Electricity	150
3.6	Average Ratios of Household to Industrial Electricity Prices, 1990-99	161
3.7	Types of Private Investment in Electricity, by Region, 1990-2001	170
3.8	Top 20 Recipients of Private Investment in Electricity, 1990-99	171
3.9	Post-Privatization Labor Productivity in Electricity Distribution in Argentina, Chile, and the United Kingdom	174
3.10	Energy Losses among Argentina's Distribution Companies, at Privatization and in 1999	175
3.11	Electricity Coverage in Peru, 1986—97	176
4.1	Railroad Freight in Transition Countries, 1988-2001	185
4.2	Cumulative Investment in Rail Projects with Private Participation in Developing and Transition Countries, 1990—2001	199
4.3	Performance of Class I U.S. Railroads, 1964-2000	200
4.4	Rail Labor Productivity in Argentina, 1974—2000	202
4.5	Cumulative Investment in Port Projects with Private Participation in Developing and Transition Countries, 1990—2001	211
5.1	Winners and Losers before and after Adjustments to a Water Concession in Parana, Argentina	246
6.1	Telephone and Water Access in Urban and Rural Areas of Developing Regions, 1990s	266

## Tables

1.1	Private Investment in Infrastructure in Developing and Transition Economies, by Sector, 1990-2001	33
1.2	Noncompetitive and Competitive Components of Network Industries	37
