<i>Gobinda Chowdhury</i>	
About the authors	xi
1 Introduction	1
<i>Christine Urquhart</i>	
2 Approaches to information architecture	9
<i>Faten Hamad</i>	
3 Taxonomy testing for information architecture	33
<i>Christine Urquhart</i>	
4 The enterprise website and its information structures	49
<i>Sally Burford</i>	
5 Analysing activities, roles and processes	71
<i>Christine Urquhart and Dina Tbaishat</i>	
6 Libraries and the organisation of library processes – a history of operational research, and the use of process modelling	85
<i>Dina Tbaishat</i>	
7 Using Riva process modelling to study book acquisition in academic libraries	107
<i>Dina Tbaishat</i>	
8 Workflow analysis and process mapping in US academic libraries	127
<i>Christine Urquhart</i>	
9 A theoretical framework for designing and evaluating semi-structured document triage interfaces	145
<i>Fernando Loizides and Aekaterini Mavri</i>	

10	Resource discovery case studies	171
	<i>Karen Colbron and Christine Urquhart</i>	
11	Increasing social connection through a community-of-practice-inspired design	185
	<i>Catherine M. Burns and Adam Euerby</i>	
12	Methods for studying information provision, networking and communication in patient support groups	205
	<i>Cristina Vasilica and Paula Ormandy</i>	
13	Health information systems: clinical data capture and document architecture	233
	<i>Faten Hamad</i>	
14	Producing systematic reviews and getting evidence to the clinician	255
	<i>Faten Hamad</i>
