Acronyms	xix

1 Introduction	1
1.1 Purpose of the Study and Issues Raised	2
1.2 Conceptual Framework	4
1.3 Structure of the Book	5
2 Indicators of Technological Capability and Productivity Growth	15
2.1 Growth of Capital-Labor Ratio and Labor Productivity	15
2.2 Growth of Total Factor Productivity	20
2.3 Accumulation of R&D Capital Assets and Technological Spillover Effects	28
2.4 Human Capital and Returns to Investment in Education	40
2.5 Concluding Remarks	44
3 Human Capital Accumulation and the Role of Universities	47
3.1 Human Capital Accumulation: A Building Block for Industrialization	47
3.2 Education-Productivity Nexus: Issues and Evidence	55
3.3 Universities and Human Capital Accumulation	61
3.4 University-Industry Complementarity and Cooperation Programs	73
3.5 Centers of Excellence Program to Uplift University Performance	77

3.6	Korea–U.S. Linkages and R&D Human Resources	83
3.7	Challenges to Science and Technology Education in the Twenty-first Century	84
4	Corporate Organization as a Learning Institution	89
4.1	<i>Chaebols</i> as Learning Organizations	89
4.2	Diversification as a Strategy for Technological Learning	94
4.3	Samsung's Semiconductor Development: A Model	102
4.4	Strategic Cooperation among <i>Chaebols</i> and SMEs	117
5	National R&D and the Government as a Catalyst and Institution Designer	127
5.1	Industrialization Policies and Technology Upgrading	127
5.2	Think-Tank System and Professionalism in Policy Making	134
5.3	National R&D Program and the Evaluation Problem	141
5.4	Trade Regime as a Technology Learning Instrument: A Model	145
5.5	National R&D Program to Strengthen Industry-University- Government Linkages	156
5.6	Lessons from U.S. Cooperation among Industry, Academe, and Government: The Case of Information Technology	163
6	Summary and Conclusions	173
6.1	Lessons for the Future: New Challenges	174
6.2	Korean Experience as a Tool for Science and Technology Diplomacy	185
	Appendixes	189
A	Indicators of Technological Capabilities in South Korea	189
B	Regression of Total Factor Productivity Function with R&D and Education as Determinants in South Korea	193
C	Regression of Wage Function with Education, Age, and Sex as Determinants in South Korea	203
	Notes	207
	Name Index	225
	Subject Index	229
