Analysis of Institutions: A New Lens to Rural Policies and Agricultural Markets 1

Guido Van Huylenbroeck, Ludwig Lauwers and Wim Verbeke

Do institutions matter for the organisation of the agro-food sector?	1
Agriculture: an interesting case for institutional economics	3
Structure of the book	4
1.3.1 Policies, markets and rurality	4
1.3.2 Part 1: TCE, a state-of-the-art	6
1.3.3 Part 2: Policy reform, institutional determinants and outcomes	6
1.3.4 Part 3: Formalisation of the links between institutions and policy	8
1.3.5 Part 4: Institutions in policy analysis	9
1.3.6 Part 5: Market metamorphosis and chain dynamics	9
1.3.7 Part 6: Arrangements in input markets	10
1.3.8 Part 7: New institutions in agro-environmental policies and public good delivery	11
1.3.9 Part 8: Role of social capital and bottom-up approaches in rural development	13
14 Epilogue	14

Part I. Transaction Cost Economics, a state-of-the-art

Chapter 2 Transaction Cost Economics and Agriculture: An Excursion 19

Oliver E. Williamson

Introduction	19
2.2 Orthodoxy	20
2.2.1 Orthodoxy is self-limiting	20
2.2.2 Overuse of orthodoxy	22
2.2.3 Relief	22
2.3 New ideas	22
2.3.1 New ideas in law	23
2.3.2 New ideas in economics	23
2.3.3 New ideas in organisation theory	25
24 Transaction Cost Economics: Conceptualisation	27
2.4.1 Opportunism	28
2.4.2 Bilateral dependency	29
2.4.3 Contract laws plural	29
25 Transaction Cost Economics: Operationalisation	30
2.5.1 The main case	30
2.5.2 Dimensionalising	30
2.5.3 Heuristic models and refutable implications	31
2.5.4 Empirical testing	34

2.6	Applications to agriculture.....	34
2.6.1	Outliers.....	35
2.6.2	Cooperatives.....	36
2.7	Conclusions.....	37

Part II. Policy reform, institutional determinants and outcomes

Chapter 3	The Subtle Art of Major Institutional Reform: Introducing Property Rights in the Iceland Fisheries.....	43
	<i>Thrdinn Eggertsson</i>	
3.1	Introduction.....	43
3.2	Some propositions concerning major institutional change.....	45
3.2.1	Social equilibrium.....	45
3.2.2	Political economy.....	45
3.2.3	Transaction costs.....	45
3.2.4	Incomplete social models.....	46
3.2.5	Unreliable feedback from social experiments.....	46
3.3	Social disequilibrium in Iceland's fishing sector.....	47
3.4	Iceland's ITQs and property rights.....	48
3.4.1	Debate on people's property.....	48
3.4.2	Rights and duties in the ITQ system.....	49
3.4.3	Why the critics were surprised.....	51
3.4.4	Political economy and overshooting the total allowable catch.....	52
3.5	Exclusion and internal governance: ITQs and dumping at sea.....	53
3.6	Incomplete models and governance in ocean fishing.....	54
3.7	The feedback: mixed signals.....	56
Chapter 4	The Role of Institutions in the Negotiations for Accession to the European Union.....	61
	<i>Emil Erjavec</i>	
4.1	Introduction.....	61
4.2	The analytical framework.....	62
4.3	Process, issues and actors of negotiations.....	63
4.3.1	Formal and technical levels of accession negotiations.....	63
4.3.2	The negotiations issues.....	65
4.4	Evaluation of the decision-making process.....	68
4.4.1	Accession negotiations within the EU multi-level decision making.....	68
4.4.2	The role of institutions.....	69
4.5	Conclusions.....	72
Chapter 5	The European Parliament: From a Consultative to a Decisive Institution in the CAP Making Process.....	75
	<i>Sevasti Chatzopoulou</i>	
5.1	Introduction.....	75
5.2	Decision-making process in the CAP.....	76

5.2.1	The consultation legislative decision making process (CNS)	77
5.2.2	Co-decision (CD)	78
5.2.3	The special characteristics of CAP decision-making	79
	Data and methodology	79
	The Role of the EP under CD	81
5.4.1	The role of the EP as formal and informal structure	83
5.4.2	Quantitative and qualitative indicators	85
5.4.3	Impacts on further CAP reform	88
	Conclusions	89

• 6	The Reorientation Process of the CAP Support: Modulation of Direct Payments	93
	<i>Roberto Henke and Roberta Sardone</i>	
	Introduction	93
	Voluntary-based modulation in the horizontal regulation	95
	Designing compulsory modulation	96
	The reinforcement of the second pillar	98
	Redistribution effects among member States	101
	Conclusions	105

Part III. Formalisation of the links between institutions and policy

Chapter 7	Rules and Equilibria: A Formal Conceptualisation of Institutions with an Application to Norwegian Agricultural Policy Making	109
	<i>Klaus Mittenzwei and David S. Bullock</i>	
7.1	Introduction	109
7.2	The institutional structure of Norwegian agricultural policy formation	111
• 7.3	Presentation of the formal framework	113
7.4	Application to Norwegian agricultural policy making	116
7.5	Conclusions	120

Chapter 8	Decision-Making on the Common Agricultural Policy of the EU: The Influence of the European Commission	123
	<i>Jan Pokrivcak and Johan F.M. Swinnen</i>	
8.1	Introduction	123
8.2	Member States Preferences on the CAP	125
8.3	A Model of the CAP Decision-Making Process	125
8.4	Commission Influence and Status Quo Bias	127
	8.4.1 Definition	127
	8.4.2 Simple majority voting	127
	8.4.3 Qualified majority voting	128
	8.4.4 Unanimity rule	129
8.5	Status Quo bias	130
	8.5.1 Conditions for new proposal acceptance	130
	8.5.2 Influence triangle versus status quo	132

8.6	Package deals.....	134
8.7	Conclusions.....	135
Chapter 9	The Role of Institutions in Agricultural Protectionism	137
	<i>Christian H.C.A. Henning</i>	
9.1	Introduction.....	137
9.2	Political economy and institutions.....	138
9.3	Theoretical model derivation.....	140
9.3.1	A simple model of legislative decision-making.....	140
9.3.2	Preferences of the political agents.....	141
9.3.3	Composition of the agricultural committee.....	143
9.3.4	Stylised policy preferences of the government, the committee and the floor.....	143
9.4	Model results.....	144
9.4.1	Equilibrium outcome of the US-system.....	144
9.4.2	Equilibrium for the EU-system.....	145
9.5	Empirical Evidence.....	146
9.6	Conclusions.....	148
Chapter 10	Political Institutions and Milk Policy Outcomes in OECD Countries	153
	<i>Alessandro Olper and Valentino Raimondi</i>	
10.1	Introduction.....	153
10.2	Theoretical hypotheses.....	154
10.2.1	Electoral rule and composition of government spending.....	155
10.2.2	Regime types and composition of government spending.....	156
10.3	Data and basic specification.....	156
10.3.1	Political institution variables.....	156
10.3.2	Dependent variable and structural controls.....	158
10.4	Empirical specification and results.....	160
10.4.1	Basic model specification.....	160
10.4.2	Results.....	161
10.4.3	Interaction effect between geographic concentration and institutions.....	164
10.5	Conclusions.....	166
Part IV. Institutions in policy analysis		
Chapter 11	An Agent-Based Analysis of Different Direct Payment Schemes for the German Region Hohenlohe	171
	<i>Kathrin Happe, Alfons Balmann and Konrad Kellermann</i>	
11.1	Introduction.....	171
11.2	Methods and techniques.....	172
11.3	Model calibration and empirical database.....	174
11.4	Results.....	176
11.5	Conclusions.....	180

' 12	Organisation of Knowledge Transfer in Agricultural Policy Analysis	183
	<i>Bruno Fernagut, Lame Nasse, Ludwig Lauwers, Jeroen Buysse, Guido Van Huylenbroeck, Olivier Harmignie, Philippe Polome and Bruno Henry de Frahan</i>	
	Introduction	183
	Literature review: Models of knowledge transfer for policy-making	184
	Institutional aspects of knowledge transfer	187
£4	Concepts for a more optimal organisation	190
t.5	Case: Assumptions on cost function	192
E6	Conclusions	194

Part V. Market metamorphosis and chain dynamics

Chapter 13	Markets in Metamorphosis: The Rise and Fall of Policy Institutions	199
	<i>Jill E. Hobbs</i>	
13.1	Introduction	199
13.2	Transaction cost considerations	200
13.3	Food safety and institutional adaptation	201
13.3.1	New policy institutions in the EU	202
13.4	Food quality and institutional adaptation	204
13.4.1	Livestock grades: The rise and fall of quality measurement institutions	204
13.4.2	Institutions in ascendancy: Quality assurance programs	206
13.4.3	Institutions in demise?: Price reporting agencies	206
13.5	Technological change and institutional adaptation	207
13.5.1	New crop variety licensing: Institutions in flux	208
13.5.2	New food product approval and labelling: Institutions in disarray	208
13.6	Conclusions	210
Chapter 14	Food System Value Chains: Implications for Agricultural Policy	213
	<i>Robert D. Weaver and Justus Wesseler</i>	
14.1	Introduction	213
14.2	The theoretical framework	215
14.2.1	Scope and reversibility dimensions	216
14.2.2	The case of reversibility and certainty	217
14.2.3	The case of irreversibility and multi-period uncertainty in benefits and costs	220
14.3	Conclusions	222
Chapter 15	Real Options: Institutional and Policy Implications for Competitive and Inter-related Markets	225
	<i>Alfons Balmann and Oliver Mufthojf</i>	
15.1	Introduction	225
15.2	The model	227
15.2.1	The investment problem	227
15.2.2	The genetic algorithm and its implementation	230
15.2.3	The scenarios	232

15.3	Results.....	233
15.3.1	Validation.....	233
15.3.2	Closed systems vs. spot market interaction.....	234
15.4	Summary and conclusions.....	237
Chapter 16	Vertical Alliances for Origin Labelled Food Products: What Is the Most Relevant Economic Model of Analysis?.....	239
	<i>Sophie Reviron, Jean-Marc Chappuis and Dominique Barjolle</i>	
16.1	Introduction.....	239
16.2	Characteristics of PDO-PGI vertical alliances.....	240
16.3	Which theoretical economic model for the analysis of real markets?.....	242
16.4	Position of vertical PDO-PGI alliances on the axes of theoretical diversity.....	246
16.5	Consequences on public policies.....	250
16.6	Conclusion.....	252
Chapter 17	Time Series Analysis of a Principal-Agent Model to Assess Risk Shifting in Agricultural Marketing Channels: An Application to the Dutch Ware Potato Marketing Channel.....	255
	<i>John K.M. Kuwornu, W. Erno Kuiper and Joost M.E. Pennings</i>	
17.1	Introduction.....	255
17.2	The classic agency model.....	258
17.3	Econometric considerations.....	260
17.4	Empirical application.....	262
17.5	Conclusion and discussion.....	268
Part VI. Arrangements in input markets		
Chapter 18	Policy Intervention on a Market with Pervasive Agency Relations: Lessons from the Polish Agricultural Credit Programme.....	275
	<i>Martin Petrick</i>	
18.1	Introduction.....	275
18.2	Theoretical controversies regarding government intervention on markets with agency relations.....	276
18.3	A micro-econometric analysis of the Polish agricultural credit programme.....	278
18.3.1	Form and importance of government intervention on the Polish rural credit market.....	278
18.3.2	Credit rationing.....	280
18.3.3	Targeting of funds.....	283
18.4	Lessons for policy advice.....	286
Chapter 19	European Integration, Foreign Investment, and Institutional Restructuring in the Polish Agri-Food Sector.....	291
	<i>Liesbeth Dries and Johan F.M. Swinnen</i>	
19.1	Introduction.....	291
19.2	Data.....	293

19.2.1	Small suppliers.....	293
19.2.2	Dairy companies.....	294
	Foreign investment, vertical integration, and supplier restructuring.....	296
19.3.1	Foreign investment and vertical integration.....	297
19.3.2	Spillover effects.....	297
19.3.3	Impact on farm investments.....	298
19.3.4	Impact on quality.....	299
19.3.5	Dynamics of spillover effects.....	299
19.3.6	Impact on survival and growth of small suppliers.....	300
M	Conclusions.....	301

20 Emerging Institutions in East European Land Markets: Evidence from Hungary..... 305
Liesbet Vranken and Johan F.M. Swinnen

11	Introduction.....	305
	Conceptual framework.....	307
K3	Land sales versus rental contracts.....	309
	Data.....	310
15	The empirical model.....	312
16	Results.....	314
17	Conclusions.....	317

Part VII. New institutions in agro-environmental policies and public good delivery

Chapter 21	Borderlines for a Common Agricultural Policy of Multifunctional Agriculture..... 323 <i>Erik Fahlbeck</i>
21.1	Introduction..... 323
21.2	Transaction costs in relation to public goods and externalities..... 325
21.3	Transaction costs and the CAP..... 327
	21.3.1 Politically sunk costs and inertia..... 327
	21.3.2 Regulation versus incentives..... 328
21.4	Different governance structures in relation to multifunctionality..... 329
21.5	Some notes on the existing schemes..... 330
21.6	Conclusions..... 332

Chapter 22	The Role of Agri-Environmental Measures in the Definition of Property Rights..... 335 <i>Dionisio Ortiz-Miranda and Vicente Estruch-Guitart</i>
22.1	Introduction..... 335
22.2	From the theoretical to the political problem..... 337
22.3	Agri-environmental externalities as a question of property rights..... 339
	22.3.1 The setting of agri-environmental standards..... 339
	22.3.2 The role of agri-environmental payments in the definition of property rights..... 342
22.4	Analysis of property rights: Security and flexibility..... 344
22.5	Some theoretical and political concluding remarks..... 346

Chapter 23	Institutional Analysis of the Flemish Buyout Regulation for Pig Holdings	349
	<i>Joeri Deuninck, Ludwig Lauwers, Sonia Lenders and Guido Van Huylenbroeck</i>	
23.1	Introduction	349
23.2	The buyout institutional arrangement	351
23.3	Evolution of institutional and economic environment	352
23.4	Assessment of the buyout effectiveness	355
23.5	Conclusion and discussion	358
Chapter 24	Policies and Institutions for Agriculture and Environment in Central and Eastern European Countries	361
	<i>Franz W. Gatzweiler and Konrad Hagedorn</i>	
24.1	Dimensions of institutional change	361
24.2	The nitrates directive: Cases from Poland, Lithuania and Slovakia	366
24.3	Governing agricultural biodiversity and landscapes in Czech republic, Slovenia and Hungary	367
24.4	Conclusions	370
Chapter 25	Institutions and Policies for Sustainable Land Management in the Czech Republic	375
	<i>Tomds Ratering, Veronika Kfimalovd and Jaroslav Prazan</i>	
25.1	Introduction	375
25.2	Theoretical concepts	376
25.3	White Carpathians case study	380
25.4	Analysis of the current institutional arrangement in the White Carpathians	381
	25.4.1 Governance structures stemming from the environmental policy	381
	25.4.2 Strength and weaknesses of the current system	383
25.5	Policy options	384
	25.5.1 Policy Option (a): The LA PLA takes over the ownership and management	385
	25.5.2 Policy option (b): Improved horizontal and vertical co-operation by integrating agricultural and environmental policies	385
	25.5.3 Policy option (c): Agri-environmental policies delivered through local partnerships	386
25.6	Conclusions	387
 Part VIII. Role of social capital and bottom-up approaches in rural development		
Chapter 26	A Social Capital Perspective on the Institutional Changes in Transitional Agriculture of CEE Countries	393
	<i>Vladislav L. Valentinov</i>	
26.1	Introduction	393
26.2	The concept of social capital	394
	26.2.1 The logic of the concept	394
	26.2.2 The existing views of social capital: A classification	395
	26.2.3 The problem of definition	395

	Social capital and theoretical studies of agrarian reform	396
	26.3.1 Social capital and political economy of agrarian reform	397
	26.3.2 Social capital and the property rights approach to agrarian reform	397
	26.3.3 Social capital and transaction cost economics view of agrarian reform	398
	Social capital and organisation of agrarian reform	400
	26.4.1 The transformation of responsibility for reform success	400
	26.4.2 Stages of reform	400
	Social capital and economic organisation	402
	26.5.1 Economic organisation: Conventional and social capital-based	403
	26.5.2 Social capital-based organisation in agriculture	404
S6	Conclusions	404
»r 27	The Role of Social Capital in Promoting Institutional Changes in Transitional Agriculture	407
	<i>Axel Wolz, Ulrich Fiege and Klaus Reinsberg</i>	
M	Introduction	407
1.2	Concept of social capital	409
	27.2.1 Definition	410
	27.2.2 Indicators for measuring social capital	412
	27.2.3 Relevance in transition countries	413
17.3	Data analysis	414
	27.3.1 National level	415
	27.3.2 Farm level	416
27.4	Conclusions	419
Chapter 28	Making Sense of Bottom-Up in Rural Development	423
	<i>Benedikt Korf</i>	
28.1	Introduction	423
28.2	Open forum participation: The PRA legacy	424
28.3	Four critical factors of success	426
28.4	Participation as cooperation: The legitimacy dilemma	430
	28.4.1 Insincere deliberation	430
	28.4.2 Participation and motivations for cooperation	431
	28.4.3 Participation as institution-making	433
28.5	Conclusion	434
Chapter 29	New Institutions in European Rural Development Programmes: Between the Top-Down and Bottom-Up Approach. The Case of Andalusia (Southern Spain)	439
	<i>M^o del Mar Delgado, Eduardo Ramos and Esther Canizares</i>	
29.1	Towards a new institutionalism for rural development	439
29.2	New institutions and rural development in Andalusia	442
29.3	Objective and methodology	443
29.4	Main results	447
29.5	Conclusions	450
