Acknowledgments	xiii
Acronyms and Abbreviations	xv
Introduction	1
Part I: The Conceptual Framework	2
Part II: Making Strategic Purchasing Pro-Poor	7
Part III: Purchasing Health Services	9
Part IV: Purchasing Inputs	12
Part V: Supply, Demand, And Markets	15
Part VI: Legal And Regulatory Issues	18
PART I. THE CONCEPTUAL FRAMEWORK	21
1. Managing Scarcity through Strategic Purchasing of Health Care	23
<i>Alexander S. Preker</i>	
The Evolution of Health Systems and Collective Financing of Health Care	23
Reform Trends in Public Spending on Health Care	29
Continued Need for Strong Public Policy in Managing Scarce Resources	30
The Purchaser-Provider Split	33
Getting Value for Public Money Spent on Health Care	38
Forthcoming Books on Resource Allocation and Purchasing in the Health Sector	39
References	39
2. For Whom to Buy? Are Free Government Health Services the Best Way to Reach the Poor?	47
<i>Davidson R. Gwatkin</i>	
The Beneficiaries of Government Health Service Expenditures	48
Focusing Government Services on the Poor	52
Encouraging the Better-Off to Pay for Their Own Services	55
Conclusions	58
Notes	58
References	59

3. What to Buy? Revisiting Priority Setting in Health Care	61
<i>Katharina Hauck, Peter C. Smith, and Maria Goddard</i>	
Some Approaches to Priority Setting	61
Economic Evaluation	62
Equity Issues	64
Practical Constraints	67
Conclusions	73
References	73
4. From Whom to Buy? Selecting Providers	79
<i>Fernando Montenegro-Torres and Cristian Baeza</i>	
Defining and Identifying Eligible Providers and Matching the Intervention	79
Can the Purchaser Buy the Desired Intervention from the Eligible Providers?	83
References	87
5. How to Pay? Understanding and Using Payment Incentives	89
<i>John C. Langenbrunner and Xingzhu Liu</i>	
Payment System Types and a Conceptual Framework for Incentives	89
Which Payment System Should Be Chosen?	91
Discussion	102
Notes	104
References	104
6. At What Price? Affordable and Realistic Fees	107
<i>Hugh Waters and Peter Sotir Hussey</i>	
Overview of Provider Payment Methods	107
Calculating Costs—Methods and Information Available	110
Characteristics of Purchasers and Providers	114
Conclusions	115
Notes	116
References	116
PART II. MAKING STRATEGIC PURCHASING PRO-POOR	119
7. The Equity Dimensions of Purchasing	121
<i>Paolo Carlo Belli</i>	
The Evidence	121
What Does An “Equitable Distribution of Health and Health Benefits” Mean?	123
Defining Variables: Resource Allocation and Purchasing Reforms	126

Conclusions and Recommendations	134
Notes	135
References	139
8. Reversing the Law of Inverse Care	143
<i>Finn Diderichsen</i>	
The Inverse Care Law At Work in Rich and Poor Countries	143
The Infrastructure of Inequity	144
Methodological Issues: How to Construct Resource Allocation for Equity in Access	145
References	151
9. Risk Pooling and Purchasing	153
<i>Peter C. Smith and Sophie N. Witter</i>	
Approaches to Risk Pooling	154
Practical Issues	159
Conclusions	165
Note	166
References	167
PART III. PURCHASING HEALTH SERVICES	169
10. Paying for Public Health Services: Financing and Utilization	171
<i>Xingzhu Liu and Sheila O'Dougherty</i>	
Who Should Pay for Public Health Services?	171
How Should Providers Be Paid?	178
Toward Better Financing and Payment Policies	183
References	187
11. Buying Results: Contracting for Primary Health Care Delivery	195
<i>Benjamin Loevinsohn and April L. Harding</i>	
Why Contract—Ideology or Pragmatism?	195
Approaches to Contracting	197
Study Methodology	197
Results: Contracting Can Quickly Improve Service Delivery	199
Methodological Limitations of This Review	205
Is Contracting a Sustainable Approach?	206
Recommendations	208
Note	210
References	210
