References.....	29

Chapter II.

Developing Strategies For Competitive Advantage.....32

Understanding the Competitive Environment	32
Industry Analysis.....	33
Taking a Look Inside the Industry.....	39

internal Analysis of the Company to Adequate Positioning.....	45
Case Study: Strategy and Decisions in Perspective.....	53
Questions for Discussion and Reflection.....	53
References.....	59

Chapter HI.

An Overview Of Value Chains, Supply Chains And Strategic

Alliances Issues.....	61
Introduction.....	61
Flow to Define the Term Chains.....	62
Location: The Role of Clusters in Competitiveness.....	68
Decision-Making Tool Applied to Environment Analysis.....	74
Case Study: Strategy and Decisions in Perspective.....	76
Questions for Discussion and Reflection.....	78
References.....	78

Chapter IV.

Aligning Strategy With Organizational Structures And Project

Deployment.....	82
Introduction.....	82
The Project Concept.....	83
Organizational Structures and the Project.....	84
Maturity Models.....	91
Case Study: Strategy and Decisions in Perspective.....	98
Questions for Discussion and Reflection.....	101
References.....	102

Chapter V.

Alignment Of Organizational Strategy With Information Technology

Strategy.....	106
Introduction.....	106
Conceptualizing Information Technology.....	108
The "Productivity Paradox".....	108
The Efficiency and Effectiveness of Information Technology	
Applications.....	110
Critical Success Factors (CSF).....	111

The Strategic Role of IT Applications.....	113
Strategic Alignment.....	117
Routes to a Strategic Role for IT.....	122
Case Studies: Strategy and Decisions in Perspective.....	130
Questions for Reflection and Discussion.....	134
References.....	136

Chapter VI.

Performance Measurement Systems.....	140
Introduction.....	140
Building a Rapid Strategic Process.....	140
Strategic Performance Measurement and Monitoring.....	143
Implementing the BSC.....	149
Case Study: Strategy and Decisions in Perspective.....	153
Questions for Discussion and Reflection.....	155
References.....	156

Chapter VII.

Strategies For The New Economy And Dynamic Competitive

Environment.....	158
Introduction.....	158
Seeking to Understand the New Economy.....	159
The Electronic Markets.....	161
The Internet as a New Strategic Agent.....	163
The Appearance of Virtual Organizations.....	165
Virtual Chains of Production.....	168
Revolution or Evolution: That is the Question.....	175
Final Considerations and Perspectives.....	180
Case Studies: Strategy and Decisions in Perspective.....	181
Questions for Reflection and Discussion.....	185
References.....	186

Chapter VIII.

An Overview Of The Decision-Making Process In Organizations .

Introduction: Situations and Facts that Affect Organizations.....	189
Rational Concepts Adopted.....	196

Classification of Decision-Making Situations.....	198
Example: Selection of Used Cars.....	204
How Decision-Making Process is Analyzed in the Literature.....	206
Conclusions.....	207
Case Studies: Strategy and Decisions in Perspective.....	208
Questions for Reflection and Discussion.....	209
Exercises.....	210
References.....	211

Chapter IX.

The Structuring Of The Strategic-Decision-Making Process.....	213
Introduction: A Systematic Procedure for Structuring the Decision-Making Process.....	213
Building the Model.....	215
Basic Structures of Decisions Problems.....	219
Additional Problems That Must Be Considered in Structuring a Strategic-Decision-Model.....	232
Conclusions.....	235
Case Studies: Strategy and Decisions b Perspective.....	236
Questions for Reflection and Discussion.....	237
Exercises.....	238
References.....	239

Chapter X.

The Nature Of Strategic-Decision-Making Models.....	241
Decision with Multiple Criteria and Multiple Scenarios.....	241
Optimal Decisions.....	249
Multi-Criteria or Multi-Objectives Decision Analysis.....	256
Decision Based on Fuzzy Possibility Theory.....	261
Case Studies: Strategy and Decisions in Perspective.....	265
Conclusions.....	267
Questions for Reflection and Discussion.....	268
Exercises.....	268
References.....	270

Chapter XI.

The Role Of Simulation And Modern Business Games.....272
 Probabilistic or Stochastic Process..... 272
 Using Simulation to Compare Multiple-Stage Strategic Decisions. . . 273
 Business Game Simulates Competition Among Companies 279
 Continuous System Simulation 285
 Case Study: Strategy and Decisions in Perspective..... 288
 Conclusions..... 291
 Questions for Discussion and Reflection 292
 Exercises..... 293
 References..... 293

Chapter XII.

**Decision Based On Organizational Knowledge, Decision Support
Systems, Expert System And Business Intelligence.....295**
 Introduction..... 295
 The Framework for Strategic Decision Making..... 296
 Exploiting Solutions Using Expert Systems 298
 Fuzzy Expert System..... 300
 Decision Support Systems (DSS)..... 301
 Exploring New Organizational Knowledge Using Business
 Intelligence (BI) and Data Mining Techniques..... 309
 Market Basket Analysis: Mining Association Rules..... 313
 Comparing MIS, DSS, ES, and KDD..... 316
 Case Study: Strategy and Decisions in Perspective..... 317
 Conclusions..... 318
 Questions for Discussion and Reflection..... 319
 Exercises..... 319
 References..... 320

Chapter XIII.

Group Decision And Negotiation In Strategic-Decision-Making.... 322
 Introduction..... 322
 Individual and Group Behavioral Models..... 323
 Methodologies Used in Group-Decision-Making 327
 Decisions that Depend on the Behavior of Persons..... 333

The Impact of Psychological Types335
Negotiation Model.....338
The General Multi-Objective and Multiple-Decision Problem..... 339
Case Study: Strategy and Decisions in Perspective.....343
Conclusion: What Constitutes a Good Strategic Decision?.....346
Questions for Discussion and Reflection.....347
Exercises.....349
References.....349
