

Merja Karppinen

CULTURAL PATTERNS OF KNOWLEDGE CREATION

FINNS AND JAPANESE AS ENGINEERS AND POETS

HELSINKI SCHOOL OF ECONOMICS

ACTA UNIVERSITATIS OECONOMICAE HELSINGIENSIS

A-271

TABLE OF CONTENTS

Abstract

Acknowledgements

1 INTRODUCTION.....	1
1.1 Background of the Study.....	1
Form of Presentation.....	3
Background of the Researcher.....	5
Links with Previous Studies and the Contribution of this Study.....	7
Limitations.....	14
Outline.....	15
2 RESEARCH DESIGN.....	18
2.1 The Hermeneutic Spiral.....	18
2.2 Pre-understanding of the Phenomena.....	22
Research Orientation.....	25
2.3 Research Methodology.....	28
Research Questions and the Aim of the Study.....	30
Research Data.....	33
Reliability and Validity.....	38
2.4 The Concept of Culture in This Study.....	40
Characteristics of Culture.....	42
Culture as Software.....	44
3 A THEORETICAL ANALYSIS OF KNOWLEDGE CREATION.....	45
3.1 Nonaka's Theory of Knowledge Creation.....	45
3.2 Definitions of Tacit and Explicit Knowledge.....	49
The Dictionary Meaning of Tacit and Explicit.....	52
Polanyi's Concept of Tacit.....	53
if\$(1990): BUTFKJ Articuable and Beif&S Tacit ftIH Knowledge.....	55
From Articuable to Articulated and to Explicit Knowledge.....	56
Nonaka and Takeuchi (1995): Tacit and Explicit Knowledge.....	58
Polanyi and Jung as Contemporaries.....	59
Descartes' Error.....	62
3.3 Knowledge Creation on the Individual Level.....	64
Feeling: within tacit knowledge.....	65
Intuition: from tacit to explicit knowledge.....	67
Thinking: combining explicit knowledge.....	69
Sensation: from explicit to tacit knowledge.....	70
Cultural Differences in the Individual Knowledge-creation Process.....	72
Dreaming and Meditation as Ways of Knowing.....	74

3.4 Knowledge Creation as a Communication Process.....	76
Conscious and Unconscious Knowledge on the Group Level.....	80
Knowledge and Communication.....	84
The SECI Model and Communication.....	86
3.5 Socialization: Empathizing and the Collective Unconscious.....	89
Orientation to the Self and the Other.....	93
Facets of Individualism and Collectivism.....	98
3.6 Externalization and Combination: Communicating Knowledge.....	101
Communication Orientations.....	105
Cultural Differences in Verbal and Nonverbal Communication.....	111
Dimensions of High and Low Context Communication.....	115
The Two-dimensional Model of the Contextuality of Communication.....	117
3.7 Internalization: the Capacity to Learn.....	118
Transparency of Knowledge in Communication.....	120
The Development of Sensory Perception.....	123
Receptivity in Perception.....	131
4 LANGUAGE AND COGNITIVE CAPACITIES.....	134
4.1 The Development of Thought Processes.....	134
Literacy and Cognition.....	140
The Culture-Cognition Model.....	142
Language as a Vocal System.....	144
4.2 Cognitive Capacities and Writing Systems.....	153
Emergence of Writing.....	154
Script Directionality.....	157
Types of Script.....	163
4.3 Literacy and Knowledge Processing.....	178
Language and Ways of Knowing.....	179
Language in the Knowledge-conversion Process.....	183
<i>Kanji</i> as a Conceptual Network.....	197
Achieving Literacy as a Learning Process.....	205
4.4 The Literary Tradition as Collective Memory.....	213
5 KNOWLEDGE CREATION BY ENGINEERS AND POETS.....	221
5.1 Finns as Engineers and Japanese as Poets.....	221
5.2 Concepts of Tacit and Explicit Knowledge in Finnish and Japanese.....	230
Hiljainen and Eksplisiittinen Tieto.....	230
\$T\vt\gt\wedge,JBSlft*\nandfli!l8l8*n.....	234
Luft's Johari Window in Finland and Japan.....	241
5.3 Socialization by Engineers and Poets.....	243
Tacit Knowledge in Finland and Japan.....	243
The Self in the Cross-cultural Perspective.....	245
Autonomous Engineers.....	251
Interdependent Poets.....	255
A Comparison of the Concept of the Self in Finland and Japan.....	257
The Finnish-Japanese Business Community.....	261

5.4 Externalization by Engineers and Poets.....	262
Converting Tacit Knowledge in to Explicit Knowledge.....	263
Metaphors in Knowledge Creation.....	265
Linear Logic vs. Associative Logic.....	269
Language Skills.....	271
5.5 Combination by Engineers and Poets.....	275
From Explicit Knowledge to Explicit Knowledge.....	275
Verbal and Nonverbal Communication.....	276
Cultural Mediators in International Business.....	281
5.6 Internalization by Engineers and Poets.....	282
The Conversion of Explicit Knowledge into Tacit Knowledge.....	283
The Development of Sensory Perception in Finland and Japan.....	284
Learning with the Body.....	287
Intuition.....	288
Learning Intent in Finland and Japan.....	289
Language and Receptivity.....	291
Access to Knowledge.....	294
6 CONCLUSIONS AND IMPLICATIONS.....	296
6.1 Conclusions.....	296
Language.....	297
Individual and Social Levels of Knowledge.....	301
Knowledge Creation as Communication.....	302
Receptivity in Knowledge Creation.....	303
6.2 Theoretical Contributions.....	305
6.3 Implications for Future Studies.....	307
APPENDIX 1: <i>Kanji</i> learned at Primary School in Japan.....	311
REFERENCES.....	313
