16	PETER MEYER-DOHM
18	PETER ZENCKE
20	Preamble
21	Introduction: L³ – Life-Long Learning – further training as a basic requirement
	W. GERTEIS
21	E.1 Introduction
24	E.2 The L ³ vision
24	E.3 Implementation concept for further vocational training
25	E.3.1 A service infrastructure for training
28	E.3.2 A platform for supporting didactic processes
30	E.4 The L ³ lighthouse project
30	E.4.1 Aims
31	E.4.2 Initial phases
32	E.4.3 Project architecture
35	E.4.4 Facts and figures from the L ³ project
36	E.5 Project implementation and results
37	E.5.1 General conditions and funding directives
38	E.5.2 A summary of experiences and results attained
44	E.5.3 Use and exploitation of L ³ results
45	E.6 Acknowledgements

46 **Part A: E-learning in the L³ project: from didactic model to practical application**

47 **Chapter 1: L³ – a didactic model as impulse generator**

Abstract

48 **1.1** Didactic requirements of learning environments: the web didactics approach of L³

N. MEDER

48 1.1.1 Introduction

48 1.1.2 The problem

50 1.1.3 Modularisation of the learning environment

52 1.1.4 The application of metadata on learning material units

64 1.1.5 Quality criteria for web-based learning environments

66 1.1.6 Conclusions on didactic knowledge organisation

67 **1.2** Integrating cooperative learning into the didactics approach of L³

M. WESSNER, T. HOLMER

67 1.2.1 Motivation: why cooperative learning?

68 1.2.2 Cooperative learning platforms

70 1.2.3 Status of technology and demands on the L³ cooperation platform

72 1.2.4 Points of cooperation

75 1.2.5 Problems and solutions using the composition of learning groups as an example

78 1.2.6 Summary

79 **1.3** Preview of further developments

M. WESSNER

81 **Chapter 2: Technical implementation of the learning platform in L³**

Abstract

82 **2.1** L³ system architecture

T. LEIDIG, T. HOLMER

82 2.1.1 Overview

82 2.1.2 Requirements

84 2.1.3 Technical solutions in L³

87 2.1.4 Learning and teaching on the L³ network

90 2.1.5 Summary

91 **2.2** From didactics to technology: dynamic course profiles

W. GERTEIS, M. ALTENHOFEN

91	2.2.1	L ³ course model
94	2.2.2	Related works
95	2.2.3	A formal approach
119	2.2.4	Tool support in L ³
123	2.2.5	Summary and subsequent work
124	2.3	Flexible reuse of learning objects W. THEILMANN, M. ALTENHOFEN
124	2.3.1	Introduction
125	2.3.2	Requirements of an e-learning authoring environment
128	2.3.3	An implicit versioning scheme
130	2.3.4	Effects on the authoring process
136	2.3.5	Discussion and related work
137	2.3.6	Summary
138	2.4	Tools for cooperative learning in L ³ T. HOLMER, M. WESSNER
138	2.4.1	Introduction
138	2.4.2	Computer-supported cooperative learning and the PoC concept
139	2.4.3	Implementing PoC concepts
140	2.4.4	Tools for spontaneous cooperation
143	2.4.5	Tools for intended cooperation
152	2.4.6	Software aspects of cooperation support
153	2.5	Audiovisual communication tools and system management C. POHL
153	2.5.1	Design and implementation
161	2.5.2	Evaluation results
162	2.5.3	Summary
163	2.6	A multimedia repository as a course depot for L ³ T. KLEINBERGER, S. HAUSBRANDT
136	2.6.1	Introduction
165	2.6.2	Functional requirements in L ³
165	2.6.3	Multimedia repository concept
171	2.6.4	Implementation strategy for L ³ tasks
172	2.6.5	Evaluation results
173	2.6.6	Summary
174	2.7	Network technology for TeleTeaching T. HAENSELMANN, D. FARIN, C. KUHMÜNCH, W. EFFELSBURG
174	2.7.1	Introduction
174	2.7.2	TeleTeaching scenarios

176	2.7.3	Network requirements of the scenarios
179	2.7.4	Available networks and their suitability for TeleTeaching
180	2.7.5	A multimedia gateway for dial-up connections
185	2.7.6	Summary
186	2.8	New basic communication services for multimedia learning environments K. WEHRLE, M. ZITTERBART
186	2.8.1	Overview
186	2.8.2	Introduction
187	2.8.3	Demands on communication services
190	2.8.4	Hierarchical group formation: reliable and scalable group communication
193	2.8.5	Quality support through differentiated services
201	2.8.6	Summary
203	2.9	Preview of future technical developments W. GERTEIS, T. LEIDIG, T. HOLMER
205	Chapter 3: Transfer of the didactics model onto L³ content production	
	Abstract	
206	3.1	Brief overview of content providers P. BECK-MORETTI, H. W. JUNG, R. ILLING, C. NEUHOFF, M. PROPHET, U. SCHOLTEN
206	3.1.1	digital spirit GmbH (www.digitalspirit.de)
206	3.1.2	ILT GmbH (www.ilt-training.de)
208	3.1.3	INGENATIC GmbH (www.ingenatic.com)
209	3.1.4	SmartForce PROKODA GmbH (www.prokoda.de)
211	3.1.5	Time4You GmbH (www.time4you.de)
212	3.2	Implementing L ³ -conform content – using PROKODA GmbH as an example M. PROPHET
212	3.2.1	Production
214	3.2.2	Media mix
216	3.2.3	Knowledge queries and online examinations
217	3.2.4	Evaluation results
218	3.3	New qualification concepts through L ³ -taking INGENATIC GmbH as an example I. ASTINOV, U. SCHOLTEN, V. TCHOUMATCHENKO, T. VASILEVA
218	3.3.1	The implementation concept of the L ³ approach in 4 stages
221	3.3.2	The business model as an accompanying task
222	3.3.3	Preparing content
225	3.3.4	Applying constructive knowledge transfer

228	3.3.5	Presentation of abstract information
232	3.3.6	Knowledge testing and online examinations
234	3.4	Synergy effects on general production scenarios from the L ³ approach H. W. JUNG, M. PROPHEET, U. SCHÖLTEN
234	3.4.1	Competency of didactic refining
236	3.5	Prospects of content creation according to the L ³ philosophy H. W. JUNG
237	Chapter 4: E-learning in practice: the L³ learning centers Abstract	
238	4.1	The L ³ learning centers: the practical environment within the L ³ infrastructure U.-D. EHERS
241	4.1.1	E-learning in the L ³ project learning centers
244	4.1.2	E-learning as an important core component in future learning centers
246	4.2	Learning center live! – the integration and operation of a multimedia learning center within an educational facility – as in Dresden K. DRESSLER, H. KÖHLER
246	4.2.1	The vocational training workshop in Dresden (BFW Dresden)
247	4.2.2	The learning center ethos
247	4.2.3	The technical concept
249	4.2.4	Organisation of the learning centers
250	4.2.5	The target groups
253	4.2.6	Learning content
253	4.2.7	The learning concept
255	4.2.8	Learner requirements – a field report
256	4.3	The technical structure of learning centers in the L ³ project, using the BFW in Oberhausen as an example K.-H. BRÜHL
256	4.3.1	Introduction
258	4.3.2	Equipment and furnishings
258	4.3.3	Technology
260	4.3.4	Administration
260	4.3.5	Development
261	4.3.6	Prospects

- 263** **4.4** Qualifications for self-qualification: a concept for promoting self-directed learning and experiences in the L³ project, using the CJD Maximiliansau as an example
F.-G. KUHN
- 263** 4.4.1 Integrating network-based learning into education and further training
- 263** 4.4.2 People want to learn self-directed learning!
- 267** 4.4.3 The self-learning circle works for any learner!
- 270** 4.4.4 Success factors for e-learning
- 274** 4.4.5 Need for further action
- 276** **4.5** E-learning in the L³ learning centers: a challenge and a chance for learners, using the BFW Dortmund as an example
C. HALSTENBERG, B. SCHEJA, E. VORHOLT
- 276** 4.5.1 E-learning at the BFW Dortmund
- 278** 4.5.2 Focussing on the learner – experiences with e-learning
- 284** 4.5.3 Practical examples
- 287** 4.5.4 Outlook and prospects: scenario – future learning in education and further training
- 289** **4.6** Qualifying to become a remote tutor: an overview of competencies and tasks
A. KLETTE-HAUG
- 290** 4.6.1 E-learning at the Internationaler Bund e. V.
- 290** 4.6.2 E-Learning requires qualified trainers
- 291** 4.6.3 The work of a remote tutor, knowledge and competencies
- 294** 4.6.4 Experiences in the deployment of the concept and prospects for the future
- 295** **4.7** E-learning as an interlinking of traditional and computer-supported learning phases at the DGB Bildungswerk
M. TILKE
- 296** 4.7.1 Environmental education – the AQU approach
- 297** 4.7.2 Preparing lecturers for the deployment of e-learning
- 298** 4.7.3 Blended learning in AQU environment education
- 304** 4.7.4 Results and outlook
- 306** **4.8** Multimedia qualification offers at the Freie Akademie e. V. Bonn for people with handicaps
N. REITZ
- 306** 4.8.1 Our target group: the sensory handicapped
- 307** 4.8.2 The focus of our investigation: blind sports
- 307** 4.8.3 Computers and the Internet for blind people
- 308** 4.8.4 EDP aids – input and output devices

310	4.8.5	Online learning for blind people	
312	4.8.6	A practical project: blended learning in horse-riding for the blind	
315	4.8.7	Summary and outlook	
316	4.9	Becoming a regional further training provider with e-learning, using the Mittweida learning center as an example	
		F. BARTHOLD	
316	4.9.1	Initial situation	
317	4.9.2	Aims and initial business model	
318	4.9.3	Set-up and development	
322	4.9.4	Current status	
322	4.9.5	Outlook	
323	4.10	Learning as an instrument of development policy: L ³ in the South African pilot projects DASSIE and ADP	
		N. HEITMANN	
323	4.10.1	L ³ in international contexts	
325	4.10.2	The technical infrastructure in South Africa	
330	4.10.3	The education system in South Africa	
335	4.10.4	Putting L ³ into practice: the DASSIE and ADP pilot projects	
337	4.10.5	Spillover effects of L ³ on society	
341	4.11	Learning centers of the future – conclusion and outlook	
		U.-D. EHLERS	
341	4.11.1	New areas of business for educational institutions	
341	4.11.2	Conclusion and future developments	X
345	Chapter 5: From e-learning to integrated e-learning services: interdisciplinary networks as the key to successful e-learning courses		
	U.-D. EHLERS, K. P. TREUMANN		
	Abstract		
346	5.1	L ³ – Internal and external learning	
347	5.2	Research design and objectives	
347	5.2.1	Research methodology	
350	5.2.2	Field of evaluation and operationalisation	
357	5.3	Findings	
360	5.3.1	Development of e-learning courses as an interdisciplinary service network	
370	5.3.2	The business model as an integrating prospect	
371	5.3.3	Quality as a comprehensive point of reference	

- 372 5.4 Sustainability of the L³ project developments
 372 5.4.1 Sustainability on the project partner level
 373 5.4.2 Sustainability on the programme level
 374 5.5 Five theses as conclusion and outlook

378 **Part B: Integrated e-learning services – a new strategic approach**

- 379 **Introduction: From CBT/WBT to integrated e-learning services**
 H. W. JUNG
- 380 **Introduction: Blended learning and its integration into human capital management (HCM) systems**
 H. W. JUNG, G. HEIDUCK
- 387 **Chapter 6: Quality as the key issue of e-learning services**
- 388 6.1 Quality development as a strategic point of reference for the provision of e-learning services
 U.-D. EHLERS, H. W. JUNG
- 389 6.2 Quality development in the crossfire of divergent requirements
 U.-D. EHLERS, H. W. JUNG
- 391 6.3 The status of research: quality in e-learning
 U.-D. EHLERS
- 393 6.3.1 Specific quality approaches to e-learning
 401 6.3.2 Generic quality systems for e-learning
- 406 6.4 Methodology of learner-oriented quality development
 U.-D. EHLERS, H. W. JUNG
- 406 6.4.1 Learner orientation as the central quality perspective
 408 6.4.2 Quality strategy for learner-oriented e-learning services: development and implementation concepts
- 416 6.5 Prospects for the development of integrated quality strategies for e-learning services
 U.-D. EHLERS, H. W. JUNG

419	Chapter 7: An economic model for the development and provision of e-learning services
	Abstract
420	7.1 Market potential and trends H. W. JUNG
420	7.1.1 General conditions of a potential analysis
420	7.1.2 Europe
422	7.1.3 Germany
422	7.2 Education policy aspects H. W. JUNG
422	7.2.1 'Lifelong learning' as a European Union guideline
423	7.2.2 Government policy as the driving force behind e-learning developments
424	7.2.3 Legal framework
425	7.3 Market participants and factors for success H. W. JUNG
425	7.3.1 Market participants
425	7.3.2 Factors for success
427	7.4 E-learning services as a combination of interlinked processes H. W. JUNG
428	7.4.1 Sub-process A – making contact
430	7.4.2 Sub-process B – identification of available services
432	7.4.3 Sub-process C – production
435	7.4.4 Sub-process D – learning process
435	7.4.5 Sub-process E – billing and accounting
437	7.4.6 Process controlling
438	7.5 Practice-oriented business model H. W. JUNG
438	7.5.1 Regulatory framework
439	7.5.2 Business model
441	7.5.3 The operating company – the central authority
443	7.5.4 Partnerships and strategic alliances
445	7.5.5 Business plan
449	7.5.6 Significant findings
449	7.6 Revenue management analysis M. GUTBROD, H. W. JUNG
451	7.6.1 Development status: costing of blended learning
452	7.6.2 Cost types in learning processes

457	7.6.3	Cost calculation
460	7.6.4	Benefit
463	7.6.5	New economic influencing factors
468	7.6.6	Accounting systems
469	7.7	Prospects and implementation of the economic model H. W. JUNG

472 **Part C: 10 theses on the future development of e-learning services**

U.-D. EHLERS, W. GERTEIS, T. HOLMER, H. W. JUNG

482 **Appendix**
