

## Harri Toivonen

## MODELING, VALUATION AND RISK MANAGEMENT OF COMMODITY DERIVATIVES

HELSINKI SCHOOL OF ECONOMICS

ACTA UNIVERSITATIS OECONOMICAE HELSINGIENSIS

A-262

## **Table of Contents**

Table of Contents					
	1	Introd	uction to Commodity Derivatives Markets	12	
	2	Histor	y of Commodity Derivatives Markets	13	
		2.1	Origins of Commodity Markets	13	
		2.2	Organized Commodity Derivatives Markets	14	
	3	Theory	y of Commodity Derivatives Markets	17	
		3.1	Theory of Normal Backwardation and Risk Pre-		
			mium Hypothesis	18	
		3.2	Cost of Carry, Convenience Yield and Theory of		
			Storage	19	
		3.3	Terms Structure of Futures and Forward Prices	22	
	4	Thesis		24	
		4.1	Review of Literature on the Dynamics of Commod-		
			ity Forward Prices	24	
		4.2	Review of Literature on the Samuelson Hypothesis		
			in Commodity Markets	26	
		4.3	Review of Literature on the Volatility of Commod-		
			ity Prices	27	
		4.4	Review of Literature on Hedging Long-Term Com-		
			modity Price Risk with Short-Term Futures	30	
		4.5	Review of Literature on Pricing Quanto Commod-		
			ity Swaptions	32	
		4.6	Summary of the Four Essays	32	
		4.7	Contribution of the Thesis	36	
1	Мо	deling	Term Structure of Commodity Prices	44	
	1	Introd	luction	45	
	<b>2</b>	Gener	al Framework	49	
	3	Model		-50	

		3.1	Spot Price and Convenience Yield Model	51
		<b>3.2</b>	Long-Term Equilibrium Price Model	53
	4	Kalma	an Filter and State Space Form	<b>í</b> 5
		4.1	Kalman Filter	55
		4.2	State Space Form	55
	5	Samue	elson Hypothesis	58
	6	Data		31
		6.1	Market Data	31
		6.2	Inventory Data	36
	7	Estim	ation and Results	<b>37</b>
		7.1	Samuelson Hypothesis	77
		7.2	Theory of Storage	32
	8	Conch	usions	36
2	Vol	atility	of Long-Term Commodity Forward Prices	)3
	1	Introd	luction	94
	2	Mode	ls of Volatility	97
		<b>2.1</b>	GARCH Models	00
		2.2	Stochastic Volatility Models 10	$\partial 2$
	3	Estim	ated Models $\ldots \ldots $	03
		3.1	BEKK GARCH	03
		3.2	Constant Conditional Correlation GARCH 1	04
		3.3	Dynamic Conditional Correlation GARCH 1	04
		<b>3.4</b>	Exponentially Weighted Moving Average Model 1	05
		3.5	Random Walk	06
		3.6	Simple Regression	06
		<b>3.7</b>	Multivariate Stochastic Volatility	06
	4	Data		07
		4.1	Market Data	07
		4.2	Inventory Data	09
	5	Meth	odology	10
		5.1	Measures of Volatility and Forecast Criteria 1	10
		5.2	Forecast Encompassing	14
		5.3	Time Integration	15
	6	Estin	$\operatorname{nation}$	16
	7	$\mathbf{Resul}$	ts	17
		7.1	Results for Models of Volatility	17
		7.2	Results for Theory of Storage	23
	8	Conc	lusions	25

3	Hed	Hedging Long-Term Commodity Price Risk									
	1										
	2	Literature Review	137								
	3	3 Models for Hedging									
		3.1 Time-Series Based Hedging	141								
		3.2 Model-Based Hedging	146								
	4 Hedging Performance										
		4.1 Measuring Hedging Effectiveness	148								
		4.2 Hedging Horizon	151								
	5	Data and Estimation	151								
	6	Results	154								
	7	Conclusions	160								
4	Pricing Quanto Commodity Swaptions										
	1	Introduction	167								
	<b>2</b>	Basic Definitions	169								
	3	Underlying Assumptions	171								
	4	Pricing Formulas	172								
	5	Conclusions	175
