# Asset Prices, Booms and Recessions

Financial Market,  
Economic Activity  
and the Macroeconomy

With 33 Figures  
and 22 Tables

# Contents

<b>Introduction</b>	1
<b>Part I. Money, Bonds and Economic Activity</b>	
<b>1 Money, Bonds and Interest Rates</b>	<b>9</b>
1.1 Introduction	9
1.2 Some Basics	9
1.3 Macroeconomic Theories of the Interest Rate	10
1.4 Monetary Policy and Interest Rates	13
1.5 Monetary Policy and Asset Prices	14
1.6 Conclusions	15
<b>2 Term Structure of Interest Rates</b>	<b>17</b>
2.1 Introduction	17
2.2 Definitions and Theories	17
2.3 Empirical Tests on the Term Structure	19
2.4 Conclusions	24
<b>Part II. The Credit Market and Economic Activity</b>	
<b>3 Theories on Credit Market, Credit Risk and Economic Activity</b>	<b>27</b>
3.1 Introduction	27
3.2 Perfect Capital Markets: Infinite Horizon and Two Period Models ..	27
3.2.1 Infinite Horizon Model	29
3.2.2 A Two Period Model	31
3.3 Imperfect Capital Markets: Some Basics	35
3.4 Imperfect Capital Markets: Microtheory	37
3.5 Imperfect Capital Markets: Macrotheory	40
3.6 Imperfect Capital Markets: The Micro-Macro Link	42
3.7 Conclusions	48

<b>4</b>	<b>Empirical Tests on Credit Market and Economic Activity</b>	49
4.1	Introduction	49
4.2	Bankruptcy Risk and Economic Activity	49
4.2.1	Introduction: Measurement Problems	49
4.2.2	Some Empirical Results	52
4.2.3	Conclusions	53
4.3	Liquidity and Economic Activity in a Threshold Model	55
4.3.1	Introduction	55
4.3.2	A Simple Model	58
4.3.3	Conclusions	62
4.4	Estimations of Credit Risk and Sustainable Debt	63
4.4.1	Introduction	63
4.4.2	The Dynamic Model	65
4.4.3	Estimating the Parameters	68
4.4.4	Testing Sustainability of Debt	71
4.5	Conclusions	75

**Part III. The Stock Market and Economic Activity**

<b>5</b>	<b>Approaches to Stock Market and Economic Activity</b>	79
5.1	Introduction	79
5.2	The Intertemporal Approach	80
5.3	The Excess Volatility Theory	82
5.4	Heterogenous Agents Models	84
5.5	The VAR Methodology	85
5.6	Regime Change Models	87
5.7	Conclusions	88
<b>6</b>	<b>Macro Factors and the Stock Market</b>	89
6.1	Introduction	89
6.2	A Dynamic Macro Model	90
6.3	Empirical Results	93
6.4	Conclusions	95
<b>7</b>	<b>New Technology and the Stock Market</b>	97
7.1	Introduction	97
7.2	Some Facts	97
7.3	The Model	99
7.4	Conclusions	102

**Part IV. Asset Pricing and Economic Activity**

<b>8</b>	<b>Portfolio Theory: CAPM and Extensions</b>	<b>105</b>
8.1	Introduction	105
8.2	Portfolio Theory and CAPM: Simple Form	105
8.3	Portfolio Theory and CAPM: Generalizations	110
8.4	Conclusions	111
<b>9</b>	<b>Consumption Based Asset Pricing Models</b>	<b>113</b>
9.1	Introduction	113
9.2	Present Value Approach	113
9.3	Asset Pricing with a Stochastic Discount Factor	114
9.4	Derivation of some Euler Equations	117
9.4.1	Continuous Time Euler Equation	117
9.4.2	Discrete Time Euler Equation: 2-Period Model	119
9.4.3	Discrete Time Euler Equation: n-Period Model	119
9.5	Consumption, Risky Assets and the Euler Equation	120
9.6	Conclusions	124
<b>10</b>	<b>Production Based Asset Pricing Models</b>	<b>125</b>
10.1	Introduction	125
10.2	Stylized Facts	127
10.3	The Baseline RBC Model	128
10.4	Asset Market Restrictions	129
10.5	Conclusions	131

**Part V. Foreign Exchange Market, Financial Instability and Economic Activity**

<b>11</b>	<b>Balance Sheets and Financial Instability</b>	<b>135</b>
11.1	Introduction	135
11.2	The Economy-wide Balance Sheets	136
11.3	Households' Holding of Financial Assets	137
11.4	Shocks and Financial Market Reactions	139
11.5	Conclusions	140
<b>12</b>	<b>Exchange Rate Volatility and Financial Crisis</b>	<b>141</b>
12.1	Introduction	141
12.2	Stylized Facts	142
12.3	The Standard Exchange Rate Overshooting Model	143
12.4	Exchange Rates, Balance Sheets and Multiple Equilibria	147
12.5	Imperfect Capital Markets, Exchange Rates and Multiple Equilibria	149
12.6	Exchange Rates, Endogenous Credit Cost and Multiple Equilibria ..	153
12.7	Conclusions	156

<b>13 Some Policy Conclusions</b>	<b>157</b>
