Stefan M. Wagner

## Economic Analyses of the European Patent System

With a foreword by Prof. Dietmar Harhoff, Ph.D.

Deutscher Universitäts-Verlag

## **Table of Contents**

1	Introduction							
	Bibliography							
2	Modeling Probabilities of Patent Oppositions in a Bayesian Semipara-							
	metric Regression Framework							
	2.1	- uction	9					
	2.2	Oppos	ition Mechanism of the European Patent Office	11				
		2.2.1	Institutional Background	11				
		<b>2</b> .2.2	Empirical Analysis of EPO Patent Opposition	12				
	2.3	Bayesi	an Semiparametric Binary Regression	15				
		2.3.1	Structural Assumptions	15				
		2.3.2	Bayesian Inference via Markov Chain Monte Carlo	18				
	2.4	Analys	sis of Patent Opposition at the EPO	20				
		2.4.1	Empirical Results for Metrical Covariates	22				
		2.4.2	Regression Results Based on Training Data	22				
		2.4.3	Model Validation	26				
	2.5 Conclusions and Outlook							
	Bibl	iograph	y	30				
3	The	The Duration of Patent Examination at the European Patent Office 33						
	3.1	Introduction						
	<b>3.2</b>	Institutional Background: Patent Applications at the European Patent Office 30						
	3.3	Theore	etical Background	38				
		3.3.1	Previous Studies and Normative Issues	38				
		3.3.2	Determinants of Decision-Making Lags at the European Patent Office	41				
	3.4	Data a	and Descriptive Statistics	42				
		3.4.1	Data Source	42				
		3.4.2	Variables	43				
		3.4.3	Descriptive Statistics	46				
	3.5	Surviv	al Analysis	56				
		3.5.1	Model Specification	56				
		3.5.2	Results	58				

Convention         4.3.2       The Patentability of Business Methods under the US Code         4.4       Analysis of European Business Method Patents         4.4.1       Research Design and Data Description         4.4.2       Applications and Applicants of Business Method Patents at the European Patent Office         4.4.3       Patent Characteristics         4.4.4       Post-Grant Opposition Procedures         4.5       Strategic Use of Business Method Patents: The Case of Franking Machine         4.5.1       Market Structure         4.5.2       Patent Strategies         4.5.3       Multivariate Analysis of Oppositions against Patent Grants         4.6       Conclusion         Bibliography       Bibliography         5       An Empirical Analysis of Make-or-Buy Decisions in Patenting         5.1       Introduction         5.2       Outsourcing of IP-Related Business Services         5.2.1       IP-Management in Corporations         5.2.2       Make-or-buy Decisions Concerning Patent Related Services         5.2.3       Legal Constraints to Vertical Integration         5.3       Theoretical Background and Hypotheses         5.4       Data and Descriptive Statistics         5.4.1       Data Source and Variables         5.4.2		3.6	Conch	nsion	66
