# CONTENTS

(<sup>S</sup> = Supplementary Section, <sup>O</sup> = Optional Section with Calculus)

ALTERNATIVE COURSE DESIGNS **xv**

PREFACE **xvii**

ACKNOWLEDGMENTS **xix**

## PART ONE

### MICROECONOMIC MODELS FOR PUBLIC POLICY ANALYSIS

#### Chapter 1

#### Introduction to Microeconomic Policy Analysis **3**

Policy Analysis and Resource Allocation **3**

The Diverse Economic Activities of Governments **6**

Policy-Making and the Roles of Microeconomic Policy Analysis **9**

Organization of the Book **15**

Conclusion **18**

#### Chapter 2

#### An Introduction to Modeling: Demand, Supply, and Benefit-Cost Reasoning **19**

Modeling: A Basic Tool of Microeconomic Policy Analysis **19**

Demand, Supply, and Benefit-Cost Reasoning **25**

*Monday Morning, 6:45 A.M.*

*Monday Morning, 9:00 A.M.*

Summary **33**

Discussion Questions **35**

#### Chapter 3

#### Utility Maximization, Efficiency, and Equity **36**

A Model of Individual Resource Allocation **37**

Efficiency **45**

*The General Concept*

*Efficiency with an Individualistic Interpretation*

*Efficiency in a Model of an Exchange Economy*

*A Geometric Representation of the Model*

*Relative Efficiency*

Equity **58**

*Equality of Outcome Is One Concept of Equity*

*Equality of Opportunity Is Another Concept of Equity*

*Integrating Equity-Efficiency Evaluation in a Social Welfare Function<sup>S</sup>*

Summary **66**

Exercises **68**

Appendix: Calculus Models of Consumer Exchange<sup>O</sup> **69**

## **PART TWO**

### **USING MODELS OF INDIVIDUAL CHOICE-MAKING IN POLICY ANALYSIS**

#### **Chapter 4**

#### **The Specification of Individual Choice Models for the Analysis of Welfare Programs**

**79**

Standard Argument: In-Kind Welfare Transfers Are Inefficient **81**

Responses to Income and Price Changes **85**

*Response to Income Changes*

*Response to Changes in a Good's Price*

*Response to Price Changes of Related Goods*

Choice Restrictions Imposed by Policy **94**

*Food Stamp Choice Restriction: The Maximum Allotment*

*Food Stamp Choice Restriction: The Resale Prohibition*

*Public Housing Choice Restrictions<sup>S</sup>*

*Income Maintenance and Work Efforts*

*The Labor-Leisure Choice*

*Work Disincentives of Current Welfare Programs*

*The Earned Income Tax Credit (EITC)*

Interdependent Preference Arguments: In-Kind Transfers May Be Efficient<sup>S</sup> **113**

Summary **118**

Exercises **120**

Appendix: The Mathematics of Income and Substitution Effects<sup>O</sup> **121**

#### **Chapter 5**

#### **The Analysis of Equity Standards: An Intergovernmental Grant Application**

**124**

Equity Objectives **124**

Intergovernmental Grants **135**

Design Features of a Grant Program **136**

*Income Effects and Nonmatching Grants*

*Price Effects and Matching Grants*

*The Role of Choice Restrictions*

*Alternative Specifications of Recipient Choice-Making*

Equity in School Finance **146**

*The Equity Defects Identified in Serrano*

*The Design of Wealth-Neutral Systems*

*Other Issues of School Finance Equity*

Summary **158**

Exercises **160**

Appendix: An Exercise in the Use of a Social Welfare Function as an Aid in  
Evaluating School Finance Policies<sup>○</sup> **162**

## **Chapter 6**

### **The Compensation Principle of Benefit-Cost Reasoning: Benefit Measures and Market Demands**

**169**

The Compensation Principle of Relative Efficiency **171**

*The Purpose of a Relative Efficiency Standard*

*The Hicks-Kaldor Compensation Principle*

*Controversy over the Use of the Compensation Principle*

Measuring Benefits and Costs: Market Statistics and Consumer Surplus **179**

An Illustrative Application: Model Specification for Consumer  
Protection Legislation<sup>§</sup> **193**

Problems with Measuring Individual Benefit<sup>§</sup> **197**

*Three Measures of Individual Welfare Change*

*Empirical Evidence: Large Differences among the Measures*

Summary **208**

Exercises **210**

Appendix: Duality, the Cobb-Douglas Expenditure Function, and Measures  
of Individual Welfare<sup>○</sup> **212**

## **Chapter 7**

### **Uncertainty and Public Policy**

**220**

Expected Value and Expected Utility **222**

Risk Control and Risk-Shifting Mechanisms **235**

*Risk-Pooling and Risk-Spreading*

*Policy Aspects of Risk-Shifting and Risk Control*

Alternative Models of Individual Behavior under Uncertainty **243**

*The Slumlord's Dilemma and Strategic Behavior*

*Bounded Rationality*

Moral Hazard and Medical Care Insurance **254**

Information Asymmetry and Hidden Action: The Savings and Loan Crisis  
of the 1980s and Involuntary Unemployment **260**

Summary **263**

Exercises **266**

Appendix: Evaluating the Costs of Uncertainty **267**

## **Chapter 8**

### **Allocation over Time and Indexation**

**278**

Intertemporal Allocation and Capital Markets **279**

*Individual Consumption Choice with Savings Opportunities*

*Individual Consumption Choice with Borrowing and Savings Opportunities*

*Individual Investment and Consumption Choices*  
*The Demand and Supply of Resources for Investment*  
*Individual Choices in Multiperiod Models*  
*Choosing a Discount Rate*

Uncertain Future Prices and Index Construction **299**

Summary **307**

Exercises **309**

Appendix: Discounting over Continuous Intervals<sup>o</sup> **310**

## **PART THREE**

### **POLICY ASPECTS OF PRODUCTION AND SUPPLY DECISIONS**

#### **Chapter 9**

#### **The Cost Side of Policy Analysis: Technical Limits, Productive Possibilities, and Cost Concepts**

**317**

Technical Possibilities and the Production Function **320**

*The Production Function Is a Summary of Technological Possibilities*  
*Efficiency, Not Productivity, Is the Objective*  
*Characterizing Different Production Functions*

Costs **335**

*Social Opportunity Cost and Benefit-Cost Analysis*  
*Accounting Cost and Private Opportunity Cost*  
*An Application in a Benefit-Cost Analysis*  
*Cost-Output Relations*  
*Joint Costs and Peak-Load Pricing<sup>s</sup>*

Summary **362**

Exercises **363**

Appendix: Duality—Some Mathematical Relations between Production  
and Cost Functions<sup>o</sup> **365**

#### **Chapter 10**

#### **Private Profit-Making Organizations: Objectives, Capabilities, and Policy Implications**

**373**

The Concept of a Firm **374**

The Private Profit-Maximizing Firm **377**

*Profit Maximization Requires that Marginal Revenue Equal Marginal Cost*  
*The Profit-Maximizing Monopolist*  
*Types of Monopolistic Price Discrimination*  
*Normative Consequences of Price Discrimination*  
*The Robinson-Patman Act and the Sherman Antitrust Act*  
*Predicting Price Discrimination*

Alternative Models of Organizational Objectives and Capabilities<sup>s</sup> **397**

*Objectives Other than Profit Maximization*

*Limited Maximization Capabilities*

Summary **411**

Exercises **414**

## **Chapter 11**

### **Public and Nonprofit Organizations: Objectives, Capabilities, and Policy Implications 417**

Nonprofit Organizations: Models of Hospital Resource Allocation **419**

Public Bureaus and Enterprises **429**

Empirical Prediction of Public Enterprise Behavior:

The Pricing Decisions of BART **432**

A Normative Model of Public Enterprise Pricing: The Efficient Fare Structure **440**

Summary **449**

Exercises **450**

Appendix: The Mathematics of Ramsey Pricing<sup>o</sup> **452**

## **PART FOUR**

### **COMPETITIVE MARKETS AND PUBLIC POLICY INTERVENTIONS**

## **Chapter 12**

### **Efficiency, Distribution, and General Competitive Analysis: Consequences of Taxation 461**

Economic Efficiency and General Competitive Equilibrium **462**

*Efficiency in an Economy with Production*

*Competitive Equilibrium in One Industry*

*The Twin Theorems Relating Competition and Efficiency*

General Competitive Analysis and Efficiency **481**

*Partial Equilibrium Analysis: The Excise Tax*

*General Equilibrium Analysis: Perfect Competition and the Excise Tax*

*Lump-Sum Taxes Are Efficient and Most Real Taxes Are Inefficient*

Summary **499**

Exercises **500**

Appendix: Derivation of the Competitive General Equilibrium Model **502**

## **Chapter 13**

### **The Control of Prices to Achieve Equity in Specific Markets 507**

Price Support for Agriculture **508**

Apartment Rent Control **514**

*Preview: Economic Justice and Economic Rent*

*Dissatisfaction with Market Pricing during Temporary Shortage of a Necessity*

*A Standard Explanation of the Inefficiency of Rent Control*  
*Rent Control as the Control of Long-Run Economic Rent*  
*The Relation between Rent Control and Capitalized Property Values*  
*The Supply Responses to Rent Control*  
*The Effects of Rent Control on Apartment Exchange*  
*Recent Issues of Rent Control*

A Windfall Profits Tax as Rent Control **542**

Summary **544**

Exercises **547**

## **Chapter 14**

### **Distributional Control with Rations and Vouchers**

**550**

Ration Coupons **551**

Vouchers and Ration-Vouchers **557**

Rationing Military Service **561**

*The Utility Value of Work*

*Conscription versus the All-Volunteer Military*

*Income Effects of Rationing Methods<sup>S</sup>*

Rationing Gasoline during a Shortage **572**

Other Rationing Policies **583**

Summary **586**

Exercises **588**

## **PART FIVE**

### **SOURCES OF MARKET FAILURE AND INSTITUTIONAL CHOICE**

## **Chapter 15**

### **Allocative Difficulties in Markets and Governments**

**593**

Market Failures **595**

*Limited Competition Owing to Scale and Scope Economies  
over the Relevant Range of Demand*

*Public Goods*

*Externalities*

*Imperfect Information*

*Second-Best Failures*

Government Failures **606**

*Direct Democracy*

*Representative Democracy*

*Public Producers*

Summary **613**

Exercises **615**

<b>Chapter 16</b>	
<b>The Problem of Public Goods</b>	<b>617</b>
The Efficient Level of a Public Good	617
The Problem of Demand Revelation	619
The Housing Survey Example	621
Mechanisms of Demand Revelation	623
The Public Television Example	626
Summary	631
Exercises	633
<b>Chapter 17</b>	
<b>Externalities and Policies to Internalize Them</b>	<b>635</b>
A Standard Critique of Air Pollution Control Efforts	637
The Coase Theorem	638
Efficient Organizational Design and the Degree of Centralized Decision-Making	641
Reconsidering Methods for the Control of Air Pollution	647
Summary	657
Exercise	658
<b>Chapter 18</b>	
<b>Industry Regulation</b>	<b>660</b>
Oligopoly and Natural Monopoly	661
Rate-of-Return Regulation	671
Franchise Bidding: The Case of Cable Television	677
Incentive Regulation	687
Summary	692
Exercise	695
<b>Chapter 19</b>	
<b>Policy Problems of Allocating Resources over Time</b>	<b>696</b>
Perfectly Competitive and Actual Capital Markets	698
The Social Rate of Discount	700
Education as a Capital Investment	702
<i>The Market Failures in Financing Higher Education Investments</i>	
<i>Income-Contingent Loan Plans for Financing Higher Education</i>	
The Allocation of Natural Resources	707
<i>Renewable Resources: Tree Models</i>	
<i>A Note on Investment Time and Interest Rates: Switching and Reswitching</i>	
<i>The Allocation of Exhaustible Resources Such as Oil</i>	
Summary	721
Exercises	723
