Contents

<i>List of Contributors</i>	vii
<i>Preface</i>	ix
PART I INTRODUCTION	
1. Integrated Management of Water Resources: Concepts, Approaches and Challenges <i>Anthony J. Jakeman,, Carlo Giupponi, Derek Karssenber, Matt P. Hare, Anita Fassio and Rebecca A. Letcher</i>	3
PART II NEW CHALLENGES FOR WATER MANAGEMENT	
2. Policy Setting for Sustainable Water Management: GATS Rules and Water Management Systems <i>Gerard Mondello</i>	27
3. Water Policies and the Integrated Management of Surface Waters: An Ecological Approach <i>Pier Francesco Ghetti and Carlo Giupponi</i>	Al
PART III SUPPORTING DECISION MAKING	
4. Sustainable Water Management and Decision Making <i>Carlo Giupponi, Anita Fassio, Jacobo Feds Vazquez and Jaroslav Mysiak</i>	71
5. Multi-Criteria Decision Making in Water Resources Management <i>Jacobo Feds Vazquez and Paolo Rosato</i>	98
6. Software Support for Multi-Criteria Decision Making <i>Marjan van Herwijnen and Ron Janssen</i>	131
PART IV PARTICIPATION	
7.. Participation for Sustainable Water Management <i>ErikMostert</i>	153

8. Methods for Stakeholder Participation in Water Management
Matt P. Hare, Olivier Barreteau, M. Bruce Beck, Rebecca A. Letcher, Erik Mostert, J. David Tabara, Dagmar Ridder, Valerie Cogan and Claudia Pahl-Wostl 177

PART V INTEGRATED MODELLING FOR IWRM

9. Software Tools for Hydrological Modelling
Derek Karssenber, Karin Pfejfer and Marc Vissers 235
10. Integrated Modelling: Construction, Selection, Uncertainty
Anthony J. Jakeman, John P. Norton, Rebecca A. Letcher and Holger Maier 263
11. Typology of Models and Methods of Integration
Rebecca A. Letcher and John Bromley 287
12. Software and Software Systems: Platforms and Issues for IWRM Problems
Andrea E. Rizzoli and Robert M. Argent 324
- Index* 347
