mind+machine

A Decision Model for **Optimizing** and **Implementing Analytics**

Marc Vollenweider

WILEY

CONTENTS

Preface *xi*

Acknowledgments *xvii*

List of Use Cases *xix*

Part I: The Top 12 Fallacies about Mind+Machine 1

Fallacy #1: Big Data Solves Everything 3

Fallacy #2: More Data Means More Insight 17

Fallacy #3: First, We Need a Data Lake and Tools 26

Fallacy #4: Analytics Is Just an Analytics Challenge: Part I: The Last Mile 31

Fallacy #5: Analytics Is Just an Analytics Challenge: Part II: The Organization 36

Fallacy #6: Reorganizations Won't Hurt Analytics 40

Fallacy #7: Knowledge Management Is Easy—We Just Need Some Wikis 45

Fallacy #8: Intelligent Machines Can Solve Any Analytic Problem 49

Fallacy #9: Everything Must Be Done In-House! 61

Fallacy #10: We Need More, Larger, and Fancier Reports 66

Fallacy #11: Analytics Investment Means Great ROI 72

Fallacy #12: Analytics Is a Rational Process 78

Part I: Conclusion 82

Part II: 13 Trends Creating Massive Opportunities for Mind+Machine 85

Trend #1: The Asteroid Impact of Cloud and Mobile 87

Trend #2: The Yin and Yang of the Internet of Things 96

Trend #3:	One-to-One Marketing	105
Trend #4:	Regulatory Flooding of the Ring of Knowledge	111
	The European Union and Privacy Rules: The General Data Protection Regulation and the EU-US Privacy Shield	114
	The Teeth of the General Data Protection Regulation	115
	Privacy Impacting the Ring of Knowledge	120
	The Nine Questions You Need to Ask Your CIO Regarding Personal Data	121
Trend #5:	The Seismic Shift to Pay-as-You-Go or Output-Based Commercial Models	123
Trend #6:	The Hidden Treasures of Multiple-Client Utilities	133
Trend #7:	The Race for Data Assets, Alternative Data, and Smart Data	136
Trend #8:	Marketplaces and the Sharing Economy Finally Arriving in Data and Analytics	144
Trend #9:	Knowledge Management 2.0—Still an Elusive Vision?	147
Trend #10:	Workflow Platforms and Process Automation for Analytics Use Cases	156
Trend #11:	2015-2025: The Rise of the Mind-Machine Interface	164
Trend #12:	Agile, Agile, Agile	172
Trend #13:	(Mind+Machine)^2 = Global Partnering Equals More Than 1+1	177
	Era 1: Pure Geographic Cost Arbitrage (2000-2005)	178
	Era 2: Globalizing Outsourcing (2005-2015)	180
	Era 3: Process Reengineering (2007-2015) and Specialization	184
	Era 4: Hybrid On-Site, Near-Shore, and Far-Shore Outsourcing (2010-)	184
	Era 5: Mind+Machine in Outsourcing (2010-)	185
	Pricing and Performance Benchmarks	190
	The Future of Outsourcing in Knowledge-Intensive Processes	194
	Part II: Conclusion	196

Part III: How to Implement the Mind+Machine Approach 197

The Analytics Use Case Methodology: A Change in Mind-Set 198

Perspective #1: Focus on the Business Issue and the Client Benefits 207

Perspective #2: Map Out the Ring of Knowledge 214

Perspective #3: Choose Data Wisely Based on the Issue Tree 218

Perspective #4: The Efficient Frontier Where Machines Support Minds 226

Perspective #5: The Right Mix of Minds Means a World of Good Options 232

Perspective #6: The Right Workflow: Flexible Platforms Embedded in the Process 241

Perspective #7: Serving the End Users Well: Figuring Out the Last Mile 245

Perspective #8: The Right User Interaction: The Art of User Experience 250

Perspective #9: Integrated Knowledge Management Means Speed and Savings 257

Perspective #10: The Commercial Model: Pay-as-You-Go or Per-Unit Pricing 264

Perspective #11: Intellectual Property: Knowledge Objects for Mind+Machine 266

Perspective #12: Create an Audit Trail and Manage Risk 269

Perspective #13: The Right Psychology: Getting the Minds to Work Together 271

Perspective #14: The Governance of Use Case Portfolios: Control and ROI 274

Perspective #15: Trading and Sharing Use Cases, Even across Company Boundaries 279

Part III: Conclusion 281
