PART I	
Overview	1
1 Introduction	3
2 Social studies of technology, energy, systems and modern societies <i>David Hawkey and Janette Webb</i>	21
PART II	
Policy and politics for sustainable heat	45
3 European heat policies and practices <i>David Hawkey</i>	47
4 From optimisation to diversity: changing scenarios of heating for buildings in the UK <i>Mark Winskel</i>	68
5 Implementation of district heating policy in the UK <i>David Hawkey</i>	91

PART III

Cities and urban centres: resources, expertise and sustainability challenges 111

- 6 Business models for district heating networks: economics, finance and risk 113
David Hawkey and Janette Webb

- 7 Urban energy governance for sustainable heat in UK cities: expectations, practices and potential 137
Janette Webb

- 8 Assessing local government engagement in energy systems development in the UK and its likely trajectories 157
Margaret Tingey, David Hawkey and Janette Webb

PART IV

Affordable and sustainable warmth for housing 183

- 9 Paying for energy: understandings of home, well-being and affordable warmth 185
David McCrone

- 10 The surprising outcomes of UK energy and climate policy: zero carbon housing targets and the emerging opportunities for district heating 204
Heather Lovell

PART V

Conclusion 217

- 11 Solutions? Cities and carbon innovation: coordination for sustainable heat 219

- Index* 238
