# Detailed Contents

List of Figures	xix
List of Tables	xxv
<b>1 Market performance: possibilities and prescriptions</b>	<b>I</b>
1.1 Introduction	1
1.2 The concept of 'Pareto optimality'	1
1.3 Achieving efficiency: partial equilibrium	2
1.4 Achieving efficiency: general equilibrium	4
1.5 Equity and a social welfare function	8
1.6 'Willingness to pay' and 'deadweight loss'	10
1.7 Contestable markets versus perfect competition: how much competition is necessary?	12
1.8 'Pareto improvement' and 'potential Pareto improvement': can policy outcomes be compared?	13
1.9 'Second-best' theory: are 'first-best rules' always required?	15
1.10 Adjusting the focus: introducing new perspectives	17
1.11 Summary	19
Appendix I(a): Deriving Pareto optimal rules	20
Appendix I(b): Pareto optimal conditions in competitive markets	22
Appendix I(c): Consumer surplus: estimating the welfare effects associated with price changes	24
Appendix I(d): Second-best theory	30
References	34
<b>2 Externalities</b>	<b>37</b>
2.1 Introduction	37
2.2 Externalities: why are they a problem?	37
2.3 The Coase theorem	39
2.4 Public sector solutions to externality problems	44
2.5 Externalities and equity	47
2.6 Taxes versus regulation: a public choice application	50
2.7 Summary	55
Appendix 2(a): Externalities and Pareto optimality	55
Appendix 2(b): 'Goods specific externalities': in-kind versus cash transfer	57
References	60
<b>3 Public goods</b>	<b>63</b>
3.1 Introduction	63
3.2 What are public goods?	64

3.3	The general model for public goods	66
3.4	Pure and impure public goods	68
3.5	Free riding and public good provision	71
3.6	Public provision of pure public goods: the Clarke tax	78
3.7	Merit wants and merit goods	83
3.8	Summary	85
	Appendix 3(a): Pareto-optimal provision of a public good	86
	Appendix 3(b): Private provision of pure public goods.	87
	Appendix 3(c): The Lindahl process and the Clarke tax	92
	References	94
<b>4</b>	<b>Collective decision-making: searching for the 'public interest'</b>	<b>97</b>
4.1	Introduction	97
4.2	Why taxpayers vote	98
4.3	The design of voting rules	102
4.4	Some characteristics of the majority voting rule	105
4.5	Representative democracy: the role of politicians and political parties	111
4.6	Voting and the Leviathan hypothesis: will majority voting provide 'excessive' public expenditure?	113
4.7	Summary	118
	Appendix 4(a): The decision to vote	119
	References	120
<b>5</b>	<b>Rent-seeking, public provision and the 'return to the market'</b>	<b>124</b>
5.1	Introduction	124
5.2	Rent-seeking costs and the political process	125
5.3	Public sector provision	131
5.4	A positive case for public production	133
5.5	A negative case for public production	139
5.6	Prescriptions for and predictions about 'nationalized industries'	141
5.7	A return to the market	144
5.8	A new and old role for the state	150
5.9	Summary	157
	References	158
<b>6</b>	<b>Evaluation of public expenditure: cost-benefit analysis</b>	<b>162</b>
6.1	Introduction	162
6.2	What is cost-benefit analysis?	163
6.3	Cost-benefit analysis and externalities: real versus pecuniary impact	166
6.4	Cost-benefit analysis and consumer surplus: the evaluation of benefits	168
6.5	Shadow pricing: the deficiencies of market prices	171

6.6	Shadow pricing: creating prices.	173
6.7	Discounting and the cost of capital	181
6.8	Risk and uncertainty	188
6.9	Cost-benefit analysis and the potential Pareto improvement criterion	189
6.10	CBA: from a clean Ganges to the 2012 Olympics	193
6.11	Summary	196
	References	196
<b>7</b>	<b>Tax theory: the basic concepts</b>	<b>201</b>
7.1	Introduction	201
7.2	The excess burden of taxation: partial equilibrium analysis	201
7.3	The welfare costs of taxation: general equilibrium analysis	209
7.4	The welfare costs of income taxes	212
7.5	Partial equilibrium estimates: further considerations	214
7.6	Marginal cost of public funds and policy decisions	218
7.7	Tax incidence	219
7.8	Tax/subsidy capitalization	231
7.9	Summary	232
	References	234
<b>8</b>	<b>Tax evasion and the black economy</b>	<b>236</b>
8.1	Introduction	236
8.2	Evasion activities	237
8.3	Avoidance: loopholes versus policy weapons	238
8.4	Taxation and the informal economy	238
8.5	Evasion as crime	240
8.6	How much to evade and avoid	241
8.7	Criticisms of economic analysis of tax evasion	246
8.8	Appeal to an actor with wicjer concerns	249
8.9	Appeal to a behavioural actor	250
8.10	Policy to deal with tax evasion	252
8.11	Measuring the black economy	255
8.12	Some reported measures of tax evasion and the shadow economy	256
8.13	Econometric evidence on the determinants of the 'shadow' economy	259
8.14	Summary	260
	References	261
<b>9</b>	<b>Income (re)distribution</b>	<b>265</b>
9.1	Introduction	265
9.2	Overview of income distribution	266

9.3	Popular measures of inequality and poverty	269
9.4	Redistribute impact of-the budget	281
9.5	Fiscal measures and the 'less well off	287
9.6	Criticisms of and limits to redistribution	296
9.7	Summary	299
	References	300
<b>10</b>	<b>Central government</b>	<b>304</b>
10.1	Introduction	304
10.2	The basic concepts	304
10.3	Tax theory and tax practice	306
10.4	Tax reform	329
10.5	Summary	336
	References	337
<b>11</b>	<b>Public choice aspects of macroeconomic policies</b>	<b>340</b>
11.1	Introduction	340
11.2	Macro theories, policies and political incentives	341
11.3	Political business cycles (new political macroeconomics)	348
11.4	Macroeconomic policies and political incentives in 'Europe'	352
11.5	Inflation taxation and 'Europe'	354
11.6	Unemployment	355
11.7	UK macroeconomic policy post 1997	359
11.8	Public sector size and economic growth	361
11.9	Summary	363
	References	364
<b>12</b>	<b>Fiscal federalism</b>	<b>367</b>
12.1	Introduction	367
12.2	The welfare gains from multiple fiscal units: the decentralization theorem	367
12.3	The optimum size of local authorities: an application of the theory of clubs	369
12.4	The Tiebout hypothesis: 'voting with your feet'	372
12.5	Decentralization and accountability	376
12.6	Decentralization and 'Leviathan'	377
12.7	Intergovernmental grants	378
12.8	A 'public choice' critique of intergovernmental grants	384
12.9	Summary	394
	Appendix 12(a): 'Optimal' decentralization and majority voting	395
	References	396

<b>13</b>	<b>International issues in public finance</b>	<b>401</b>
13.1	Introduction	401
13.2	Public goods and free riding: the North Atlantic Treaty Organization	401
13.3	Global public goods	404
13.4	The taxation of international trade: why do countries rely on trade taxes? •	410
13.5	Trade taxes and public choice: pressure-group analysis and rent-seeking	414
13.6	Maximizing government revenue and smuggling	420
13.7	The harmonization of indirect taxes	421
13.8	Taxation of income from overseas: multinationals	424
13.9	Summary	426
	References	426
<b>14</b>	<b>Public sector failure and public expenditure growth</b>	<b>430</b>
14.1	Introduction	430
14.2	Non-market demand conditions	430
14.3	Non-market supply conditions	431
14.4	A typology of non-market failure to match market failure	432
14.5	Bureaucratic economics	432
14.6	Measuring the public sector: a debate within a debate	434
14.7	Wagner's law	436
14.8	'Public choice' versus public choice and other accounts of Wagner's law	437
14.9	Welfare states as sources of difference	449
14.10	Between (social) welfare economics and public choice-political economy	453
14.11	Summary	453
	References	454
<b>15</b>	<b>Optimal taxation</b>	<b>457</b>
15.1	-Introduction	457
15.2	Optimal commodity taxes	458
15.3	Optimal income tax	462
15.4	A critique of 'normative optimal taxation'	469
15.5	'Positive'optimal taxation	471
15.6	'Positive'optimal taxation: empirical evidence	477
15.7	Summary	478
	Appendix 15(a): The Ramsey rule: a diagrammatic approach	480
	Appendix 15(b): Taxpayer responses and time horizons	482
	References	484

16	Towards a 'new' public finance economics: experiments, behaviour, neuro-imaging and 'individual failure'	486
16.1	Introduction	486
16.2	From ' <i>homo economicus</i> ' to ' <i>homo realitug</i> '	486
16.3	A behavioural analysis of public policy: loss aversion and endowment effects	488
• 16.4	Prospect theory	492
16.5	A 'richer' behavioural analysis	494
16.6	The impact of tax policy	496
16.7	Behavioural analysis and the growth of government	501
16.8	Neuroeconomics: emotional and cognitive costs	503
16.9	Happiness: the 'new' maximand?	504
16.10	Summary	508
	References	509
	Author Index	514
	Subject Index	520
