

Antti Ruotoistenmaki

CONDITION DATA IN ROAD MAINTENANCE MANAGEMENT

HELSINKI SCHOOL OF ECONOMICS

ACTA UNIVERSITATIS OECONOMICAE HELSINGIENSIS

A-316

Table of Contents

PART I

1 Introduction and Objectives.....	3
1.1 Motivation.....	3
1.2 Measurements and indicators.....	5
1.3 Objectives.....	7
1.4 The structure of the presentation.....	7
2 Problem setting.....	8
3 Distribution and transformation of road condition data.....	12
3.1 Measurement series of road condition indicators.....	12
3.2 Distribution of road condition indicators.....	13
3.3 Transformation of road condition measurement series.....	15
3.4 Recommendations for the transformation of road condition data.....	19
4 Summary of individual papers.....	20
4.1 Accuracy of road condition data.....	20
4.2 Collecting road condition data.....	21
4.3 Presenting road condition data.....	23
4.4 Using road condition data to assess maintenance funding needs.....	24
5 Conclusions.....	26
5.1 Summary.....	26
5.2 Contribution of this study.....	26
5.3 Limitations of this study.....	29
5.4 Suggestions for further work.....	29
6 References.....	31

PART II

Essay One

Ruotoistenmaki, A., Seppala, T. & Kanto, A.: **Comparison of modelling and measurement accuracy of road condition data**

Reprinted from Journal of Transportation Engineering, Volume 132, Issue 9, pp. 715-721, Sept 2006, copyright (2006), with permission from ASCE.

Essay Two

Seppala, T., Ruotoistenmaki, A. & Thomas, F.: **Optimal selection and routing of road surface measurements**

In Helsinki School of Economics Working Papers, VV-424, October 2007.

Essay Three

Ruotoistenmaki, A. & Seppala T.: **Road condition rating based on factor analysis of road condition measurements**

Reprinted from Transport Policy, Volume 14, Issue 5, pp. 410-420, Sept 2007, copyright (2007), with permission from Elsevier.

Essay Four

Ruotoistenmaki, A.: **Road maintenance management system - a simplified approach**

In Helsinki School of Economics Working Papers, W-425, October 2007.
