<b>About the Authors</b>	<b>xix</b>	
<b>Foreword by Sir Edward George</b>	<b>xxi</b>	
<b>Preface to the Second Edition</b>	<b>xxiii</b>	
<b>Acknowledgements</b>	<b>xxv</b>	
<b>Disclaimer</b>	<b>xxvii</b>	
<b>List of Abbreviations</b>	<b>xxix</b>	
<b>1</b>	<b>What Are Inflation-indexed Securities and Derivatives?</b>	<b>1</b>
1.1	A historical perspective	1
1.2	How indexed bonds work	4
1.3	The role of derivatives	7
<b>2</b>	<b>Security Design</b>	<b>9</b>
2.1	Choice of price index	9
2.1.1	Index matching	9
2.1.2	Index reliability and integrity	11
2.1.3	Other practical considerations	16
2.2	Cash flow structure	17
2.2.1	Capital Indexed Bond (CIB)	18
2.2.2	Interest Indexed Bond (IIB)	18
2.2.3	Current Pay Bond (CPB)	19
2.2.4	Indexed Annuity Bond (IAB)	21
2.2.5	Indexed Zero-Coupon Bond (IZCB)	22
2.2.6	Other types of indexed bonds	23
2.2.7	Cash flows of the different structures	23
2.2.8	Factors that influence the choice of security design	24

2.3	Application of the index to the cash flows	26
2.3.1	The problem of the indexation lag	26
2.3.2	Why indexation lags are necessary	27
2.3.3	How to minimise the indexation lag	28
2.3.4	Full or partial indexation?	29
2.4	The impact of tax regulations	31
2.4.1	Uncertainty of post-tax real yields	31
2.4.2	The effect of income accrual rules	33
2.5	Options on indexed bonds	34
2.5.1	Callable bonds	34
2.5.2	Puttable bonds	34
2.5.3	Convertible bonds	35
2.6	Method of issue	35
2.6.1	Pricing	36
2.6.2	Cost-effectiveness and market development	37
2.6.3	Consistency with other instruments	37
2.6.4	What happens in practice?	38
2.7	Summary	38
	<b>Appendices</b>	<b>39</b>
A2.1	Calculating the base annuity payment for Indexed Annuity Bonds (IABs)	39
A2.2	Barro's proposal for revising the inflation adjustment of payments on index-linked gilts	40
<b>3</b>	<b>Why Invest in Indexed Debt?</b>	<b>43</b>
3.1	Reducing inflation risk	43
3.2	Relative stability of returns	44
3.3	Performance relative to conventional bonds and equities	46
3.4	Total return opportunities	49
3.5	Duration and other cash flow considerations	51
3.6	Taxation	52
3.7	Liquidity	53
3.8	Other potential deterrents to investing in indexed bonds	55
3.9	Alternatives to indexed bonds	55
3.9.1	Treasury bills	55
3.9.2	Equities	56
3.9.3	Property	58
3.10	Summary	58
<b>4</b>	<b>Why Issue Indexed Bonds?</b>	<b>59</b>
4.1	Why governments issue indexed bonds	59
4.1.1	Reducing borrowing costs: the role of inflation expectations	59
4.1.2	Reducing borrowing costs: saving the inflation risk premium	61
4.1.3	Risk management	64

4.1.4	Inflation-indexed bonds and monetary policy	65
4.1.5	Maintaining long-term capital markets in difficult economic conditions	66
4.2	Why private corporations issue indexed bonds	66
4.3	The relative scarcity of index-linked bonds	67
4.4	Summary	71
<b>5</b>	<b>Inflation and Real Interest Rate Analysis</b>	<b>73</b>
5.1	Measures of real interest rates	74
5.1.1	Real gross redemption yields	75
5.1.2	Hedge ratios: the duration and "beta" of inflation-indexed bonds	77
5.1.3	The term structure of real interest rates	79
5.2	Measures of inflation expectations	80
5.2.1	Break-even inflation rates	81
5.2.2	The "inflation term structure"	82
5.2.3	The inflation risk premium and bond convexity	83
5.3	Analysis of real interest rates and inflation expectations	85
5.3.1	Real interest rates	85
5.3.2	Measures of inflation expectations	89
5.4	Summary	92
<b>6</b>	<b>Major International Indexed Bond Markets</b>	<b>93</b>
6.1	Australia	94
6.1.1	A brief history of indexation in Australia	94
6.1.2	The structure of the Commonwealth Treasury Indexed Bond (TIB) market	99
6.2	Canada	100
6.3	France	106
6.3.1	The history of indexation in France	106
6.3.2	The introduction of inflation-indexed OATs (Obligations assimilables du Tresor)	107
6.3.3	Indexation to pan-European inflation – OAT€/ bonds	113
6.4	Sweden	119
6.4.1	The formation of the Swedish government index-linked bond market	119
6.4.2	The development of the market toward international standards	120
6.4.3	Recent developments	124
6.5	United Kingdom	128
6.5.1	A brief history of the index-linked gilt market	128
6.5.2	The structure of the index-linked gilt market	136
6.5.3	The market for non-government index-linked bonds in the UK	138
6.6	United States of America	141
6.6.1	A brief history of indexation in the USA	141

6.6.2	The launch of the Treasury Inflation-Indexed Securities (TIIS) market	142
6.6.3	The expansion of the TIIS programme in the fiscal surplus years	148
6.6.4	Recent developments in the market for inflation-indexed securities in the USA	151
<b>Appendices</b>		<b>160</b>
A6.1	Cash flow calculations for Australian Capital Indexed Bonds (CIBs)	160
A6.1.1	Calculation of interest payments	160
A6.1.2	Calculation of the settlement price	161
A6.2	/ Cash flow calculations for Canadian Real Return Bonds (RRBs)	162
A6.2.1	Indexing process	162
A6.2.2	Calculation of interest payments	163
A6.2.3	Calculation of the redemption payment	163
A6.2.4	Calculation of the settlement price	163
A6.3	Cash flow calculations for French OAT/and OAT€/bonds	165
A6.3.1	Indexing process	165
A6.3.2	Calculation of interest payments	167
A6.3.3	Calculation of the redemption payment	167
A6.3.4	Calculation of the settlement price	167
A6.4	Cash flow calculations for Swedish index-linked Treasury bonds	168
A6.4.1	Indexing process	168
A6.4.2	Calculation of interest payments (for coupon-bearing bonds)	169
A6.4.3	Calculation of the redemption payment	169
A6.4.4	Calculation of the settlement price	169
A6.5	Cash flow calculations for UK Index-linked Gilts (IGs)	171
A6.5.1	Indexing process	171
A6.5.2	Calculation of interest payments	171
A6.5.3	Calculation of the redemption payment	172
A6.5.4	Calculation of accrued interest	173
A6.5.5	Calculation of real yields	174
A6.6	Cash flow calculations for US Treasury Inflation-Indexed Securities (TIIS)	176
A6.6.1	Indexing process	176
A6.6.2	Calculation of interest payments	177
A6.6.3	Calculation of the redemption payment	177
A6.6.4	Calculation of the settlement price	177
<b>7</b>	<b>Other Indexed Bond Markets</b>	<b>179</b>
7.1	Argentina	180
7.2	Austria	182
7.3	Bolivia	182

7.4	Brazil	182
7.4.1	1964-1986 Readjustable National Treasury Obligations (ORTNs)	182
7.4.2	1986-today National Treasury Obligations (OTNs), Treasury Bonds (BTNs) and National Treasury Notes (NTNs)	184
7.5	Chile	186
7.6	Colombia	188
7.7	Czech Republic	189
7.8	Denmark	191
7.9	Finland	193
7.10	Germany	194
7.11	Greece	194
7.12	Hungary	195
7.13	Iceland	198
7.14	India	201
7.15	Ireland	201
7.16	Israel	202
7.17	Italy	207
7.18	Japan	209
7.19	Kazakhstan	210
7.20	Mexico	210
7.21	Netherlands	212
7.22	New Zealand	212
7.23	Norway	215
7.24	Peru	216
7.25	Poland	216
7.26	Portugal	219
7.27	South Africa	219
7.28	Spain	224
7.29	Switzerland	225
7.30	Turkey	225

## Appendices

A7.1	Calculation of the settlement price for Colombian TES-UVR bonds	227
A7.1.1	Calculation of the settlement price	227
A7.1.2	Price calculation example	227
A7.2	Calculation of the settlement price for Icelandic Treasury Bonds	228
A7.2.1	Indexing process	228
A7.2.2	Calculation of the settlement price	229
A7.2.3	Price calculation example	229
A7.3	Calculation of real yields for Israeli inflation-indexed bonds	230
A7.3.1	Sagi and Galil bonds	230
A7.3.2	Kfir bonds	230

A7.4	Cash flow calculations for New Zealand Treasury inflation-indexed bonds	231
A7.4.1	Calculation of interest payments	231
A7.4.2	Calculation of the settlement price	232
A7.5	Exchange rates	233
<b>8</b>	<b>Inflation-linked Derivatives: Market Description</b>	<b>235</b>
8.1	Overview	235
8.1.1	Introduction	235
8.1.2	Why Inflation-linked (IL) derivatives?	236
8.1.3	The Inflation-linked (IL) derivatives markets in 2003	237
8.2	A brief history of Inflation-linked derivatives markets	239
8.2.1	Early history	239
8.2.2	The UK market	240
8.2.3	The French and Euro-zone markets	242
8.2.4	The Swedish market	244
8.2.5	Non-European markets	244
8.3	Inflation payers (issuers)	246
8.3.1	Standard derivative solutions for Inflation-linked (IL) issuers	247
8.3.2	Private Finance Initiative (PFI) projects in the UK	250
8.3.3	UK housing associations	253
8.3.4	Swap structures to mitigate credit exposure	254
8.4	Inflation receivers (investors)	255
8.4.1	The use of inflation swaps to hedge pension liabilities	255
8.4.2	Inflation-guaranteed and Inflation-linked (IL) retail products	255
8.5	Inflation options	258
8.5.1	Options embedded in bonds	258
8.5.2	Standalone inflation options in the Over The Counter (OTC) market	258
8.6	Future trends	259
8.6.1	Market standardisation	259
8.6.2	Pension reforms in Europe	259
8.6.3	The implications of changes to accounting standards	260
8.6.4	Further development of the inflation derivatives markets	260
	<b>Appendix</b>	
A8.1	Example swap and option structures	<b>262</b>
A8.1.1	Capital Indexed Bond (CIB)-style swaps	262
A8.1.2	Real annuity swaps	264
A8.1.3	Interest Indexed Bond (IIB)-style swaps	265
A8.1.4	Standard inter-dealer broker market structures	265
<b>9</b>	<b>Inflation-linked Derivatives: Pricing, Hedging and Other Technical Aspects</b>	<b>269</b>
9.1	Outline	269
9.2	Pricing approaches	269
9.2.1	What is meant by "pricing"?	269

9.2.2	Four levels of pricing	271
9.2.3	Level I	271
9.2.4	Level II	271
9.2.5	Level III	271
9.2.6	Level IV	272
9.3	Deriving a forward Consumer Price Index (CPI) curve for Level II and III markets	272
9.3.1	Piecewise linear continuous function in CPI space	273
9.3.2	Piecewise linear continuous function in inflation space	274
9.4	"Level I" markets in Europe: intraregional Euro-zone inflation spreads	275
9.5	Alternative approaches to the construction of inflation curves	277
9.6	Asset swaps – connecting swap and bond prices	279
9.7	Hedging a swapped new issue	281
9.7.1	A simple "interim" hedge	282
9.7.2	A more precise hedge	283
9.7.3	A portfolio hedge for net outright inflation risk	284
9.8	The evolution of the Euro-zone HICP swap market	285
9.8.1	Seven lessons from seven months of Euro-zone inflation swap data	286
9.9	Historical estimation of price index volatilities	288
9.10	Pricing inflation options	292
9.10.1	Zero percent zero-coupon floors	293
9.10.2	Year-on-year inflation floors	293
9.11	Summary	295
<b>10</b>	<b>Conclusion</b>	<b>297</b>
