STRUCTURAL EQUATION MODELING WITH EQS

Basic Concepts, Applications, and Programming

Second Edition

Barbara M. Byrne
University of Ottawa

LEA
LAWRENCE ERLBAUM ASSOCIATES, PUBLISHERS
2006 Mahwah, New Jersey London

Contents

Preface and Acknowledgments ix

I: INTRODUCTION

1 Structural Equation Models: The Basics 3

Basic Concepts *4*
The General Structural Equation Model *9*
The General EQS Structural Equation Model *14*

2 Using the EQS Program 18

Components of the EQS Input File *19*
The Concept of Model Identification *30*
Creating the EQS Input File *37*
Building an Input File Manually *36*
Building an Input File Interactively Using BUILD_EQS *38*
Building an Input File Graphically Using the DIAGRAMMER *48*
The EQS Output File in General *71*
EQS Error Messages *73*
Overview of Remaining Chapters *74*

II: SINGLE-GROUP ANALYSES

3 Application 1: Testing for the Factorial Validity of a Theoretical Construct (First-Order CFA Model) 77

The Hypothesized Model *78*
The EQS Input File *82*
The EQS Output File *86*
Model Specification and Analysis Summary *87*
Model Assessment *89*
Model Misspecification *108*
Post Hoc Analyses *112*

4 Application 2: Testing for the Factorial Validity of Scores From a Measuring Instrument (First-Order CFA Model) 118

The Hypothesized Model *119*
The EQS Input File *127*
The EQS Output File *129*
Post Hoc Analyses *137*

5 Application 3: Testing for the Factorial Validity of Scores From a Measuring Instrument (Second-Order CFA Model) 158

The Hypothesized Model *159*
Analysis of Categorical Data *163*
Categorical Variables Analyzed as Continuous Variables *163*
Categorical Variables Analyzed as Categorical Variables *164*
Analyses Based on Data Regarded as Categorical *167*
The EQS Input File *167*
The EQS Output File *170*
Post Hoc Analyses *176*
Analyses Based on Data Regarded as Continuous *179*
The EQS Output File *179*

6 Application 4: Testing for the Validity of a Causal Structure 186

The Hypothesized Model *186*
Formulation of Indicator Variables *188*
Confirmatory Factor Analyses *189*
The EQS Input File *191*
The EQS Output File *199*
Post Hoc Analyses *205*

III: MULTIPLE-GROUP ANALYSES

7 Application 5: Testing for the Factorial Invariance of a Measuring Instrument 225

Testing for Multigroup Invariance *226*
Testing for Invariance Across Independent Samples *228*
The Hypothesized Model *228*
The EQS Input File *234*
The EQS Output File *237*
Other Considerations in Testing for Multiple Group Invariance *245*

8 Application 6: Testing for the Invariance of a Causal Structure 250

Cross-Validation in SEM *250*
Testing for Invariance Across Calibration/Validation Samples *252*
The Hypothesized Model *253*

The EQS Input File *253*
The EQS Output File *259*

9 Application 7: Testing for Latent Mean Differences (First-Order CFA Model) 261

Basic Concepts Underlying Tests of Latent Mean Structures *262*
Modeling Mean Structures in EQS *263*
Testing for Latent Mean Differences of a First-Order CFA Model *267*
The Strategy *267*
The Hypothesized Model *267*
The EQS Input File *274*
The EQS Output File *277*

10 Application 8: Testing for Latent Mean Differences (Second-Order CFA Model) 293

Testing for Latent Mean Differences of a Second-Order Model *294*
The Strategy *294*
The Hypothesized Model *294*

IV: OTHER IMPORTANT TOPICS

11 Application 9: Testing for Construct Validity: The Multitrait–Multimethod Model 325

The General CFA Approach to MTMM Analyses *330*
The Hypothesized Model *330*
The EQS Input File *332*
The EQS Output File *332*
The Correlated Uniqueness Approach to MTMM Analyses *344*
The Hypothesized Model *346*
The EQS Input File *348*
The EQS Output File *348*

12 Application 10: Testing for Change Over Time: The Latent Growth Curve Model 352

Measuring Change in Individual Growth Over Time:
The General Notion *354*
The Hypothesized Model *354*
Modeling Intraindividual Change *354*
Modeling Inter-individual Differences in Change *358*
Testing for Inter-individual Differences in Change *359*
The EQS Input File *362*
The EQS Output File *362*
Gender as a Time-Invariant Predictor of Change *370*

The EQS Input File *373*
The EQS Output File *373*

13 Application 11: Testing for Within- and Between-Level Variance: The Multilevel Model **376**

Overview of Multilevel Modeling *377*
Single-Level Analyses of Hierarchically Structured Data: Related Problems *377*
Multiple Level Analyses of Hierarchically Structured Data: Multilevel Modeling *378*
The Hypothesized Model *379*
The EQS Input File *391*
The EQS Output File *396*
