CONTENTS

Preface	iii		
CHAPTER 1 Introduction	1		
1.1 Microeconomics: The Allocation of Scarce Resources	1		
Trade-offs	2		
Who Makes the Decisions	2		
APPLICATION: <i>Oregon Decides Which Medical Treatments to Provide</i>	2		
Prices Determine Allocations	3		
APPLICATION: <i>Tax on Fast-Food Containers</i>	4		
1.2 Models	4		
APPLICATION: <i>Income Threshold Model and China</i>	5		
Simplifications by Assumption	5		
Testing Theories	6		
Positive Versus Normative	7		
1.3 Uses of Microeconomic Models	9		
Uses of Microeconomics by Individuals and Governments	9		
APPLICATION: <i>Putting Saturn in Orbit</i>	10		
Summary	13		
Part One SUPPLY AND DEMAND			
CHAPTER 2 Supply and Demand	14		
2.1 Demand	15		
The Demand Curve	16		
The Demand Function	19		
Summing Demand Curves	21		
APPLICATION: <i>Aggregating the Demand for Cling Peaches</i>	22		
2.2 Supply	22		
The Supply Curve	23		
The Supply Function	26		
Summing Supply Curves	26		
Effects of Government Import Policies on Supply Curves	27		
SOLVED PROBLEM 2.1	28		
2.3 Market Equilibrium	29		
Using a Graph to Determine the Equilibrium	30		
Using Math to Determine the Equilibrium	30		
Market Forces Drive the Market to Equilibrium	31		
2.4 Shocking the Equilibrium	32		
Effects of a Shift in the Demand Curve	32		
Effects of a Shift in the Supply Curve	34		
SOLVED PROBLEM 2.2	34		
2.5 Effects of Government Interventions	35		
Policies That Shift Supply Curves	36		
SOLVED PROBLEM 2.3	37		
APPLICATION: <i>American Steel Quotas</i>	38		
Policies That Cause Demands to Differ from Supply	39		
APPLICATION: <i>Gas Lines</i>	41		
APPLICATION: <i>Minimum Wage Law in Puerto Rico</i>	44		
Why Supply Need Not Equal Demand	44		
2.6 When to Use the Supply-and-Demand Model	45		
Summary	47		
Problems	47		
Math Problems	48		
CHAPTER 3 Applying the Supply-and-Demand Model	50		
3.1 How Shapes of Demand and Supply Curves Matter	51		
3.2 Sensitivity of Quantity Demanded to Price	53		
Price Elasticity of Demand	53		
Elasticity Along the Demand Curve	55		
Other Demand Elasticities	58		
APPLICATION: <i>Demanding Rail Safety</i>	60		
3.3 Sensitivity of Quantity Supplied to Price	61		
The Elasticity of Supply	61		
Elasticity Along the Supply Curve	63		
3.4 Long Run Versus Short Run	63		
Demand Elasticities over Time	64		
Supply Elasticities over Time	64		
3.5 Effects of a Sales Tax	65		
Two Types of Sales Tax	65		
Equilibrium Effects of a Specific Tax	65		
APPLICATION: <i>Discouraging Smoking</i>	67		
Tax Incidence of a Specific Tax	69		
SOLVED PROBLEM 3.1	70		
APPLICATION: <i>Gasoline Taxes as a Revenue Source</i>	72		
Equilibrium Is the Same No Matter Who Is Taxed	73		
Ad Valorem and Specific Taxes Have Similar Effects	74		
SOLVED PROBLEM 3.2	75		
APPLICATION: <i>Incidence of Federal Ad Valorem Taxes</i>	77		
Summary	78		
Problems	79		
Math Problems	79		
Part Two CONSUMER THEORY			
CHAPTER 4 Consumer Choice	80		
4.1 Preferences	81		
Properties of Consumer Preferences	82		
Preference Maps	83		
SOLVED PROBLEM 4.1	86		
APPLICATION: <i>Indifference Curves Between Food and Clothing</i>	90		

4.2	Utility	91	SOLVED PROBLEM 5.3	148
	Utility Function	92	APPLICATION: <i>Leisure-Income Choices of Textile Workers</i>	149
	Ordinal Preferences	93	Shape of the Labor Supply Curve	151
	Utility and Indifference Curves	93	APPLICATION: <i>Estimated Labor Supply Curves</i>	152
	Utility and Marginal Utility	94	Income Tax Rates and Labor Supply	152
	Utility and Marginal Rates of Substitution	94	APPLICATION: <i>Effects of Tax Cuts</i>	155
4.3	Budget Constraint	96	Summary	155
	Slope of the Budget Constraint	97	Problems	156
	Purchasing Fractional Quantities	99	Math Problems	157
	Effect of a Change in Price on Consumption	99		
	Effect of a Change in Income on Consumption	100		
	SOLVED PROBLEM 4.2	100		
4.4	Consumer's Constrained Choice	101	Part Three THEORY OF THE FIRM	
	The Consumer's Optimum Bundle	102	CHAPTER 6 Firms and Production 158	
	SOLVED PROBLEM 4.3	104	6.1	The Ownership and Management of Firms 160
	APPLICATION: <i>Substitution Effects in Canada</i>	106		Ownership of Firms 160
	Optimal Bundles Are on Convex Sections of Indifference Curves	107		The Management of Firms 161
	Buy Where More Is Better	108		What Owners Want 161
	SOLVED PROBLEM 4.4	108	6.2	Production 162
	Food Stamps	110		Production Functions 162
	APPLICATION: <i>Food Stamp Experiments</i>	112		Time and the Variability of Inputs 163
	Summary	113	6.3	Short-Run Production: One Variable and One Fixed Input 164
	Problems	114		Total Product 164
	Math Problems	115		Marginal Product of Labor 165
				Average Product of Labor 166
				Graphing the Product Curves 166
				Law of Diminishing Marginal Returns 169
				APPLICATION: <i>Malthus and Mass Starvation</i> 170
CHAPTER 5 Applying Consumer Theory		116	6.4	Long-Run Production: Two Variable Inputs 171
5.1	Deriving Demand Curves	117		Isoquants 172
5.2	How Income Changes Shift Demand Curves	120		APPLICATION: <i>A Semiconductor Integrated Circuit Isoquant</i> 176
	A Rise in Income Shifts the Demand Curve	120		Substituting Inputs 178
	SOLVED PROBLEM 5.1	122		SOLVED PROBLEM 6.1 180
	Consumer Theory and Income Elasticities	124	6.5	Returns to Scale 181
	APPLICATION: <i>Income Elasticities of Demand for Cars</i>	127		Constant, Increasing, and Decreasing Returns to Scale 181
5.3	Effects of a Price Change	129		SOLVED PROBLEM 6.2 183
	Income and Substitution Effects with a Normal Good	130		APPLICATION: <i>Returns to Scale in Manufacturing</i> 183
	Income and Substitution Effects with an Inferior Good	132		Varying Returns to Scale 186
	APPLICATION: <i>International Comparison of Substitution and Income Effects</i>	135	6.6	Productivity and Technical Change 187
	SOLVED PROBLEM 5.2	136		Relative Productivity 187
5.4	Cost-of-Living Adjustments	137		APPLICATION: <i>German Versus British Productivity</i> 188
	Inflation Indexes	137		Innovations 189
	Effects of Inflation Adjustments	139		APPLICATION: <i>Nonneutral Technical Change in Pin Manufacturing</i> 190
	APPLICATION: <i>The Total CPI Bias</i>	143		APPLICATION: <i>Automobile Manufacturing Innovations</i> 191
5.5	Deriving Labor Supply Curves	144		Summary 192
	Labor-Leisure Choice	144		Problems 192
	Income and Substitution Effects	145		Math Problems 193

CHAPTER 7	Costs	195	8.3	Competition in the Short Run	251
7.1	Measuring Costs	196		SR Competitive Profit Maximization	251
	Economic Cost	196		SOLVED PROBLEM 8.1	254
	APPLICATION: Opportunity Cost of Waiting Time	197		SOLVED PROBLEM 8.2	257
	Capital Costs	197		SR Firm Supply Curve	257
	APPLICATION: Swarthmore College's Cost of Capital	199		SR Market Supply Curve	260
7.2	Short-Run Costs	199		SR Competitive Equilibrium	262
	SR Cost Measures	199	8.4	Competition in the Long Run	265
	SR Cost Curves	201		LR Competitive Profit Maximization	265
	Production Functions and the Shapes of Cost Curves	204		LR Firm Supply Curve	265
	APPLICATION: SR Cost Curves of a Printing Firm	207		LR Market Supply Curve	266
	Effects of Taxes on Costs	207		APPLICATION: Threat of Entry in Shipping Curve of Cotton	268
	SOLVED PROBLEM 7.1	209		APPLICATION: Slope of LR Market Supply Curves	271
	SR Cost Summary	211		LR Competitive Equilibrium	275
7.3	Long-Run Costs	212		SOLVED PROBLEM 8.3	276
	Input Choice	212	8.5	Zero Profit for Competitive Firms in the Long Run	279
	APPLICATION: Rice Milling in Java	218		Zero LR Profit with Free Entry	279
	SOLVED PROBLEM 7.2	221		Zero LR Profit When Entry Is Limited	280
	How LR Cost Varies with Output	221		Competitive Firms' Need to Maximize Profit	282
	SOLVED PROBLEM 7.3	223		Summary	282
	The Shape of LR Cost Curves	224		Problems	283
	APPLICATION: Average Cost of Cement Firms	227		Math Problems	284
	Estimating Cost Curves Versus Introspection	228			
7.4	Lower Costs in the Long Run	229		CHAPTER 9	Applying the Competitive Model
	LR Average Cost as the Envelope of SR Average Cost Curves	229		9.1	Consumer Welfare
	APPLICATION: LR Cost Curves in Printing and Oil Pipelines	230			Measuring Consumer Welfare Using a Demand Curve
	APPLICATION: Choosing an Ink-Jet or a Laser Printer	232			286
	SR and LR Expansion Paths	233			APPLICATION: Consumer Surplus from Television
	How Learning by Doing Lowers Costs	235			289
	APPLICATION: Learning by Doing in Computer Chips	235			Effect of a Price Change on Consumer Surplus
7.5	Cost of Producing Multiple Goods	237			290
	Summary	240			SOLVED PROBLEM 9.1
	Problems	240		9.2	Producer Welfare
	Math Problems	241			Measuring Producer Surplus Using a Supply Curve
					294
					Using Producer Surplus
					296
					SOLVED PROBLEM 9.2
					296
				9.3	Competition Maximizes Welfare
					Producing Less Than the Competitive Output Lowers Welfare
					298
					Producing More Than the Competitive Output Lowers Welfare
					300
					APPLICATION: Deadweight Loss of Christmas Presents
					301
				9.4	Policies That Shift Supply Curves
					Restricting the Number of Firms
					302
					APPLICATION: Taxicab Medallions
					303
					Excluding Certain Groups from Owning Firms
					306

Part Four PERFECT COMPETITION

CHAPTER 8 Competitive Firms and Markets

8.1	Competition	243
	Price Taking	243
	Why the Firm's Demand Curve Is Horizontal	243
	Why We Study Competition	245
8.2	Profit Maximization	245
	Profit	246
	APPLICATION: Breaking Even on Christmas Trees	247
	Two Steps to Maximizing Profit	248

	APPLICATION: <i>Discriminating Against Groups</i>	307	Efficiency	359
	Raising Entry and Exit Costs	308	Equity	361
	APPLICATION: <i>Job Termination Laws</i>	310	Efficiency Versus Equity	365
9.5	Policies That Create a Wedge Between Supply and Demand	310	Summary	366
	Welfare Effects of a Sales Tax	310	Problems	367
	Welfare Effects of a Price Floor	312	Math Problems	368
	SOLVED PROBLEM 9.3	314		
	APPLICATION: <i>International Cost of Agricultural Subsidies</i>	317		
	Welfare Effects of a Price Ceiling	318		
	SOLVED PROBLEM 9.4	318		
9.6	Comparing Both Types of Policies: Imports	319		
	Free Trade Versus a Ban on Imports	320		
	Free Trade Versus a Tariff	322		
	Free Trade Versus a Quota	324		
	APPLICATION: <i>Japanese Nontariff Barriers</i>	325		
	Rent Seeking	325		
	Summary	327		
	Problems	328		
	Math Problems	329		
CHAPTER 10 General Equilibrium and Economic Welfare		330		
10.1	General Equilibrium	331		
	Feedback Between Competitive Markets	332		
	APPLICATION: <i>Sin Taxes</i>	335		
	Minimum Wages with Incomplete Coverage	336		
	APPLICATION: <i>U.S. Minimum Wage Laws and Teenagers</i>	338		
	SOLVED PROBLEM 10.1	339		
10.2	Trading Between Two People	341		
	Endowments	341		
	Mutually Beneficial Trades	342		
	SOLVED PROBLEM 10.2	345		
	Bargaining Ability	345		
10.3	Competitive Exchange	346		
	Competitive Equilibrium	346		
	Competition Is Efficient	348		
	Any Efficient Allocation Is Obtainable by Using Competition	349		
10.4	Production and Trading	349		
	Comparative Advantage	350		
	SOLVED PROBLEM 10.3	352		
	Efficient Product Mix	354		
	Competition	355		
	APPLICATION: <i>Auto Trade Barriers</i>	357		
10.5	Efficiency and Equity	358		
	Role of the Government	358		
	APPLICATION: <i>Distribution of Wealth in the United States</i>	359		
Part Five MARKET POWER AND MARKET STRUCTURE				
CHAPTER 11 Monopoly				369
11.1	Monopoly Profit Maximization	370		
	Marginal Revenue	370		
	A Monopoly Chooses Price or Quantity	374		
	Graphical Approach	375		
	Mathematical Approach	378		
	APPLICATION: <i>Toying with Profits and Losses</i>	378		
11.2	Market Power	380		
	Market Power and the Shape of the Demand Curve	380		
	Lerner Index	381		
	APPLICATION: <i>Humana Hospitals</i>	382		
	Causes of Market Power	382		
	APPLICATION: <i>Airport Monopolies</i>	384		
11.3	Effects of a Shift of the Demand Curve	385		
11.4	Welfare Effects of Monopoly	386		
	Graphing the Welfare Loss	386		
	APPLICATION: <i>Deadweight Loss of the U.S. Postal Service</i>	388		
	SOLVED PROBLEM 11.1	390		
	Welfare Effects of Ad Valorem Versus Specific Taxes	391		
11.5	Cost Advantages That Create Monopolies	393		
	Sources of Cost Advantages	393		
	Natural Monopoly	394		
	SOLVED PROBLEM 11.2	396		
	APPLICATION: <i>Electric Power Utilities</i>	396		
11.6	Government Actions That Create Monopolies	397		
	Barriers to Entry	397		
	Patents	398		
	APPLICATION: <i>A Drug Patent</i>	399		
11.7	Government Actions That Reduce Market Power	403		
	Regulating Monopolies	403		
	SOLVED PROBLEM 11.3	405		
	Increasing Competition	409		
	APPLICATION: <i>Ending the Monopoly in Telephone Service</i>	409		
	Dominant Firm and Competitive Fringe	410		
	Summary	412		

Problems	412	Summary	457
Math Problems	413	Problems	458
		Math Problems	459
CHAPTER 12 Oligopoly and Monopolistic Competition		CHAPTER 13 Pricing	
12.1 Market Structures	414	13.1 Price Setting	460
12.2 Game Theory	415	Bertrand Equilibrium with Identical Products	461
A Single-Period, Two-Firm, Quantity-Setting Game	417	Bertrand Equilibrium with Differentiated Products	464
Why Firms Do Not Cooperate in a Single-Period Game	419	SOLVED PROBLEM 13.1	467
Collusion in Repeated Games	420	Differentiating Products	468
APPLICATION: Oligopoly Competition among Governments	421	APPLICATION: Toothbrushes	468
		APPLICATION: Designer Glasses	469
12.3 Cooperative Oligopoly Models	422	APPLICATION: Welfare Gain from New Cereals	470
Laws Against Cartels	422	13.2 Why and How Firms Price Discriminate	470
APPLICATION: Tacit Collusion in Long-Distance Service	423	Why Price Discrimination Pays	470
Why Cartels Form	424	APPLICATION: Disneyland Prices	472
Why Cartels Fail	426	Who Can Price Discriminate	473
Maintaining Cartels	426	Preventing Resales	474
APPLICATION: Bad Bakers	427	Not All Price Differences Are Price Discrimination	475
APPLICATION: A Government-Created Cartel	428	Types of Price Discrimination	475
Entry and Cartel Success	429	13.3 Perfect Price Discrimination	475
APPLICATION: Bail Bonds	430	How a Firm Perfectly Price Discriminates	476
Mergers	430	Perfect Price Discrimination Is Efficient but Hurts Consumers	477
APPLICATION: Airline Mergers	430	APPLICATION: Tagamet Revisited	480
		SOLVED PROBLEM 13.2	480
12.4 Cournot Model of Noncooperative Oligopoly	431	Transaction Costs and Perfect Price Discrimination	482
A Cournot Model of an Airline Market	431	13.4 Quantity Discrimination	483
Comparing the Cournot and Cartel Models	436	APPLICATION: Block Pricing by Water Utilities	485
The Cournot Equilibrium Varies with the Number of Firms	438	13.5 Multimarket Price Discrimination	486
APPLICATION: Appliances	440	Multimarket Price Discrimination with Two Groups	486
		SOLVED PROBLEM 13.3	488
12.5 Stackelberg Model of Noncooperative Behavior	440	APPLICATION: Generics and Brand-Name Loyalty	489
Stackelberg Game Tree	441	Identifying Groups	491
Stackelberg Graphical Model	443	APPLICATION: Getting Consumers to Identify Themselves	491
Why Moving Sequentially Is Essential	443	Welfare Effects of Multimarket Price Discrimination	493
Strategic Trade Policy	445	APPLICATION: Taking Women to the Cleaners	494
APPLICATION: Airbus and Boeing	449	13.6 Two-Part Tariffs	494
SOLVED PROBLEM 12.1	450	A Two-Part Tariff with Identical Consumers	495
12.6 Comparison of Collusive, Cournot, Stackelberg, and Competitive Equilibria	451	A Two-Part Tariff with Nonidentical Consumers	496
		APPLICATION: Warehouse Stores	498
12.7 Monopolistic Competition	452	13.7 Tie-in Sales	499
Monopolistically Competitive Equilibrium	453	Requirement Tie-in Sales	499
Fixed Costs and the Number of Firms	454	APPLICATION: IBM	499
SOLVED PROBLEM 12.2	456		
APPLICATION: Entry and Airline Prices	456		

Bundling	500	Long-Run Factor Demand	553
Summary	502	Factor-Market Demand	554
Problems	503	Competitive Factor-Market Equilibrium	557
Math Problems	504		
CHAPTER 14 Strategy	505		
14.1 Preventing Entry: Simultaneous Decisions	506	15.2 Effect of Monopolies on Factor Markets	557
Room for Two Firms	507	Market Structure and Factor Demands	557
Room for Only One Firm	508	A Model of Market Power in Input and Output Markets	558
Summary of the Simultaneous Decision Entry Game	509	APPLICATION: Record Prices	561
SOLVED PROBLEM 14.1	509	APPLICATION: Union Monopoly Power	563
14.2 Preventing Entry: Sequential Decisions	510	SOLVED PROBLEM 15.2	565
To Act or Not to Act?	511	15.3 Monopsony	566
APPLICATION: Government Deterrence	513	Monopsony Profit Maximization	566
Commitment and Entry Prevention	514	APPLICATION: Monopsony Wage Setting	569
SOLVED PROBLEM 14.2	518	Welfare Effects of Monopsony	569
Commitment and Fixed Costs	518	SOLVED PROBLEM 15.3	570
SOLVED PROBLEM 14.3	524	Monopsony Price Discrimination	572
14.3 Creating and Using Cost Advantages	525	APPLICATION: Monopsony Price Discrimination	572
Lowering Marginal Cost but Raising Total Cost	525	15.4 Vertical Integration	573
Learning by Doing	527	Stages of Production	573
Raising Rivals' Costs	527	Degree of Vertical Integration	574
APPLICATION: Buttering Up Legislatures	528	APPLICATION: Outsourcing	575
APPLICATION: Preventing Customers from Switching	530	Produce or Buy	576
Raising All Firms' Costs	530	APPLICATION: Vertical Integration of Auto Manufacturers	576
Advantages and Disadvantages to Moving First	531	APPLICATION: Aluminum	578
Summary on Preventing Entry	532	APPLICATION: Cutting Off Oxygen	580
APPLICATION: Evidence on Strategic Entry Deterrence	532	Summary	581
14.4 Advertising	534	Problems	581
Promotional Activities	534	Math Problems	582
Monopoly Advertising	534		
APPLICATION: Smoking Gun Evidence?	535	CHAPTER 16 Interest Rates, Investments, and Capital Markets	583
APPLICATION: O. J. Trial Effect	537	16.1 Comparing Money Today to Money in the Future	584
Strategic Advertising	539	Interest Rates	584
APPLICATION: Pink Toothbrush	539	APPLICATION: Usury	585
APPLICATION: Secret Ingredients	539	Interest Rates Connect the Present and Future	588
Summary	542	APPLICATION: Power of Compounding	589
Problems	542	Stream of Payments	590
Math Problems	544	SOLVED PROBLEM 16.1	592
		APPLICATION: Saving for Retirement	593
		Inflation and Discounting	594
		APPLICATION: Winning the Lottery	596
		16.2 Choices over Time	597
		APPLICATION: Comparing Two Contracts	597
		Investing	598
		SOLVED PROBLEM 16.2	600
		SOLVED PROBLEM 16.3	601
		Rate of Return on Bonds	601
		Durability	602
		APPLICATION: Durability of Phone Poles	602
Part Six FACTOR MARKETS			
CHAPTER 15 Factor Markets and Vertical Integration	545		
15.1 Competitive Factor Market	546		
Short-Run Factor Demand of a Firm	546		
SOLVED PROBLEM 15.1	551		
APPLICATION: Thread Mill	551		

	SOLVED PROBLEM 16.4	604		APPLICATION: <i>Loans, Defaults, and Usury Laws</i>	651
	Human Capital	605		Summary	652
16.3	Exhaustible Resources	607		Problems	653
	When to Sell an Exhaustible Resource	607		Math Problems	654
	Price of a Scarce Exhaustible Resource	608			
	APPLICATION: <i>Redwood Trees</i>	611	CHAPTER 18	<i>Externalities, Commons, and Public Goods</i>	655
	Why Price May Be Constant or Fall	613			
16.4	Capital Markets, Interest Rates, and Investments	614	18.1	Externalities	656
	Increased Savings Encourages More Investment	615		APPLICATION: <i>Michael Jordan's Positive Externalities</i>	657
	Increased Government Demand Discourages Private Investment	616	18.2	The Inefficiency of Competition with Externalities	657
	APPLICATION: <i>Taking from Future Generations</i>	617		Supply-and-Demand Analysis	658
	Summary	618		SOLVED PROBLEM 18.1	663
	Problems	618		APPLICATION: <i>Taxes on Fuels</i>	663
	Math Problems	618		Cost-Benefit Analysis	664
				APPLICATION: <i>Emissions Standard for Ozone</i>	665
Part Seven UNCERTAINTY, MISSING MARKETS, AND LIMITED INFORMATION			18.3	Market Structure and Externalities	669
CHAPTER 17 Uncertainty				Monopoly and Externalities	669
17.1	Degree of Risk	621		Monopoly Versus Competitive Welfare with Externalities	669
	Probability	621		SOLVED PROBLEM 18.2	671
	Expected Value	623		Taxing Externalities in Noncompetitive Markets	671
	SOLVED PROBLEM 17.1	624	18.4	Allocating Property Rights to Reduce Externalities	672
	Variance and Standard Deviation	624		Coase Theorem	672
17.2	Decisionmaking under Uncertainty	626		Markets for Pollution	675
	Expected Utility	627		APPLICATION: <i>Sulfur Dioxide Market</i>	676
	Risk Averse	628	18.5	Common Property	677
	SOLVED PROBLEM 17.2	630		Overuse of Common Property	677
	Risk Neutral	631		APPLICATION: <i>Extensive Overfishing</i>	679
	Risk Preferring	631		Solving the Commons Problem	680
	APPLICATION: <i>Gambling</i>	633		APPLICATION: <i>For Whom the Bridge Tolls</i>	680
				APPLICATION: <i>Claiming Lobster Fisheries</i>	681
17.3	Avoiding Risk	637	18.6	Public Goods	682
	Just Say No	637		Types of Goods	682
	Obtain Information	637		Markets for Public Goods	683
	APPLICATION: <i>Bond Ratings</i>	638		Reducing Free Riding	686
	Diversify	638		APPLICATION: <i>Free Riding on Water</i>	687
	APPLICATION: <i>Checking Correlations</i>	640		Valuing Public Goods	688
	APPLICATION: <i>Laws Limiting Diversification</i>	641		Summary	690
	Insure	641		Problems	690
	SOLVED PROBLEM 17.3	642		Math Problems	691
	APPLICATION: <i>Flight Insurance</i>	644	CHAPTER 19	<i>Asymmetric Information</i>	692
	APPLICATION: <i>Natural Disasters</i>	645			
17.4	Investing under Uncertainty	646	19.1	Problems Due to Asymmetric Information	693
	Investing Depends on Attitudes Toward Risk	646			
	APPLICATION: <i>Premium for a Riskier Investment</i>	648	19.2	Responses to Adverse Selection	694
	Investing with Uncertainty and Discounting	649		Controlling Opportunistic Behavior Through Universal Coverage	694
	Investing with Altered Probabilities	649		Equalizing Information	695
				APPLICATION: <i>Risky Occupations and Hobbies</i>	696

19.3	How Ignorance about Quality Drives Out High-Quality Goods	697	Contingent Contract Rewards Linked to a Firm's Success	749	
	Lemons Market with Fixed Quality	697	APPLICATION: <i>Australian Compensation</i>	750	
	SOLVED PROBLEM 19.1	700	20.5	Monitoring	750
	Lemons Market with Variable Quality	701	Bonding	752	
	Limiting Lemons	702	SOLVED PROBLEM 20.3	753	
	APPLICATION: <i>Recycling Lemons</i>	702	Deferred Payments	754	
	APPLICATION: <i>Wholesale Market for Cherries</i>	706	Efficiency Wages	755	
			APPLICATION: <i>Deferred Payments Versus Efficiency Wages in Fast-Food Restaurants</i>	757	
19.4	Price Discrimination Due to False Beliefs about Quality	706	After-the-Fact Monitoring	758	
	APPLICATION: <i>Multiple Brand Names</i>	707	APPLICATION: <i>Abusing Leased Cars</i>	759	
19.5	Market Power from Price Ignorance	708	APPLICATION: <i>Savings and Loans Moral Hazards</i>	760	
	Tourist-Trap Model	709	20.6	Checks on Principals	761
	SOLVED PROBLEM 19.2	711	APPLICATION: <i>Performance Termination Contracts</i>	762	
	Advertising and Prices	711	20.7	Contract Choice	765
	APPLICATION: <i>Advertising Lowers Prices</i>	712	Summary	766	
19.6	Problems Arising from Ignorance When Hiring	712	Problems	767	
	Information about Employment Risks	712	Math Problems	768	
	Cheap Talk	714			
	Education as a Signal	715	APPENDICES		
	SOLVED PROBLEM 19.3	717	APPENDIX 2A:	<i>Regressions</i>	A-1
	APPLICATION: <i>Wages Rise with Education</i>	720	APPENDIX 3A:	<i>Effects of a Specific Tax on Equilibrium</i>	A-3
	Screening by Employers	722	APPENDIX 4A:	<i>Utility and Indifference Curves</i>	A-4
	Summary	723	APPENDIX 4B:	<i>Maximizing Utility</i>	A-6
	Problems	724	APPENDIX 5A:	<i>Labor-Leisure Model</i>	A-8
	Math Problems	725	APPENDIX 5B:	<i>The Slutsky Equation</i>	A-9
			APPENDIX 6A:	<i>Cobb-Douglas Production Function</i>	A-10
CHAPTER 20	<i>Contracts and Moral Hazards</i>	726	APPENDIX 7A:	<i>Norwegian Printing Firm's SR Cost Curves</i>	A-11
20.1	Principal-Agent Problem	727	APPENDIX 7B:	<i>Minimizing Cost</i>	A-12
	A Model	727	APPENDIX 8A:	<i>A Competitive Firm's Demand Curve</i>	A-14
	Types of Contracts	728	APPENDIX 8B:	<i>Profit Maximization</i>	A-16
	Efficiency	729	APPENDIX 12A:	<i>Cournot Equilibrium</i>	A-17
20.2	Production Efficiency	730	APPENDIX 12B:	<i>Stackelberg Equilibrium</i>	A-20
	Efficient Contract	730	APPENDIX 13A:	<i>Perfect Price Discrimination</i>	A-20
	Full Information	731	APPENDIX 13B:	<i>Multimarket Price Discrimination</i>	A-21
	SOLVED PROBLEM 20.1	736	APPENDIX 14A:	<i>Profit-Maximizing Advertising and Production</i>	A-22
	Asymmetric Information	736	APPENDIX 15A:	<i>Factor Demands</i>	A-23
	APPLICATION: <i>Contracts and Productivity in Agriculture</i>	738	APPENDIX 15B:	<i>Monopsony</i>	A-24
			APPENDIX 18A:	<i>Welfare Effects of Pollution in a Competitive Market</i>	A-25
20.3	Trade-off Between Efficiency in Production and in Risk Bearing	739	Answers to Selected Problems	A-27	
	Contracts and Efficiency	739	Definitions	A-35	
	Choosing the Best Contract	742	References	A-41	
	APPLICATION: <i>Medical Partnerships</i>	743	Credits	A-48	
	SOLVED PROBLEM 20.2	744	Index	A-49	
20.4	Payments Linked to Production or Profit	746			
	Piece-Rate Hire Contracts	747			
	APPLICATION: <i>Pleased to Be Paid by the Piece</i>	747
