|  |      |
|--|------|
| <i>List of figures</i>   | x    |
| <i>List of tables</i>  | xiii |
| <i>Preface</i>   | xv   |
| <i>List of abbreviations and acronyms</i>  | xvi  |
| <b>1 Introduction</b>  | 1    |
| 1.1 A new and fast-growing industry  | 1    |
| 1.2 Business strategies for firms  | 5    |
| 1.3 Radio spectrum availability as a key determinant for market structure                  | 6    |
| <b>2 Stylised features of the mobile telecommunications industry</b>                       | 9    |
| 2.1 Introduction   | 9    |
| 2.2 Some technology history  | 10   |
| 2.3 Characteristics of alternative cellular systems  | 22   |
| 2.4 Subscriber trends  | 33   |
| 2.5 Evolution of mobile telecommunications revenues  | 37   |
| 2.6 Trends in cost   | 46   |
| 2.7 Regulation   | 51   |
| 2.8 Conclusion   | 63   |
| <b>3 The evolution of national markets for cellular mobile telecommunications services</b> | 65   |
| 3.1 Introduction   | 65   |
| 3.2 The analytical framework   | 66   |
| 3.3 Empirical evidence for the policy matrix   | 69   |
| 3.4 Country studies  | 71   |
| 3.5 Conclusion   | 143  |
| <b>4 The determinants of the diffusion of cellular mobile telecommunications services</b>  | 144  |
| 4.1 Introduction   | 144  |

|                 |   |            |
|-----------------|---|------------|
| 4.2             | Preliminary considerations on diffusion and market structure                  | 144        |
| 4.3             | The econometric model   | 151        |
| 4.4             | Empirical results   | 158        |
| 4.5             | Conclusion  | 169        |
| <b>5</b>        | <b>Market conduct and pricing issues in mobile markets</b>                    | <b>171</b> |
| 5.1             | Introduction  | 171        |
| 5.2             | Theoretical considerations on market conduct                                  | 172        |
| 5.3             | Product differentiation strategies in mobile telecommunications               | 177        |
| 5.4             | Empirical research on market behaviour  | 182        |
| 5.5             | Theoretical foundations for pricing in mobile telecommunications              | 184        |
| 5.6             | Welfare analysis of charging regimes  | 191        |
| 5.7             | Mobile telecommunications pricing, by type of service                         | 194        |
| 5.8             | Price trends in mobile telecommunications                                     | 203        |
| 5.9             | Conclusion  | 221        |
| <b>6</b>        | <b>Issues in radio spectrum management</b>                                    | <b>223</b> |
| 6.1             | Introduction  | 223        |
| 6.2             | International spectrum allocation   | 223        |
| 6.3             | National spectrum assignment  | 225        |
| 6.4             | Spectrum assignment in practice   | 232        |
| 6.5             | 3G auctions in Europe   | 243        |
| 6.6             | Discussion of the experience of European 3G auctions                          | 258        |
| 6.7             | Administrative procedures for European 3G spectrum licences                   | 260        |
| 6.8             | Conclusion  | 265        |
| <b>7</b>        | <b>The evolution of market structure in mobile telecommunications markets</b> | <b>266</b> |
| 7.1             | Introduction  | 266        |
| 7.2             | The theoretical framework   | 268        |
| 7.3             | The profitability of the mobile telecommunications sector in Europe           | 274        |
| 7.4             | The design of market structure for 3G markets in Europe                       | 278        |
| 7.5             | The aftermath of 3G licensing   | 282        |
| 7.6             | Conclusion  | 285        |
| <i>Appendix</i> |   | 288        |
| A1              | Radio spectrum as a scarce resource   | 288        |
