Predictability of corporate failure

Models for prediction of corporate failure and for evaluation of debt capacity

PROEFSCHRIFT

TER VERKRIJGING VAN DE GRAAD VAN DOCTOR IN DE ECONOMISCHE WETENSCHAPPEN AAN DE ERASMUS UNIVERSITEIT ROTTERDAM, OP GEZAG VAN DE RECTOR MAGNIFICUS PROF. DR. B. LEIJNSE EN VOLGENS BESLUIT VAN HET COLLEGE VAN DEKANEN. DE OPENBARE VERDEDIGING ZAL PLAATSVINDEN OP DONDERDAG 12 OKTOBER 1978, DES NAMIDDAGS TE 4 UUR

DOOR

RUDI ANTON IGNATIUS VAN FREDERIKSLUST
geboren te Paramaribo

Contents

1. INTRODUCTION.

1.0 Introduction 1
1.1 The Concept of Failure 1
1.2 Aim and Outline of the Study 1

2. RECENT STUDIES.

2.0 Introduction 5
2.1 Discriminant Analysis and the Prediction of Corporate Failure 5
2.2 Usual Foundations for the Choice of used Ratios - - - - 9
2.3 A Univariate Model 12
2.4 Multivariate Models 14
2.5 Evaluation 20

3. A FAILURE PREDICTION MODEL WITH FINANCIAL RATIOS AS PREDICTION VARIABLES.

3.0 Introduction 23
3.1 Donaldson's Approach 23
3.2 A Definition of Failure in Terms of Cash Flow Concepts 26
3.3 Choice of a Failure Prediction Model 29
3.4 Identification of Prediction Variables of the Failure Prediction Model 34

4. THE FAILURE PREDICTION MODEL WITH THE LEVELS OF RATIOS AS PREDICTION VARIABLES.

4.0 Introduction 39
4.1 Sample Design and Data 39
4.1.1 On the Sample Design 39
4.1.2 Sample Data 43

4.2 The Prediction Equations 44
4.2.0 Introduction 44
4.2.1 The Prediction Equation for the latest Year before Failure 45
4.2.2 The Prediction Equations for earlier Years before Failure 50

5. A FAILURE PREDICTION MODEL WITH THE DEVELOPMENTS OF RATIOS OVER TIME AS PREDICTION VARIABLES.
5.0 Introduction 54
5.1 The Variables of the Model 54

6. THE FITTED FAILURE PREDICTION MODEL WITH THE DEVELOPMENTS OF RATIOS OVER TIME AS PREDICTION VARIABLES.
6.0 Introduction 58
6.1 Sample Data 58
6.2 The Prediction Equations 58
6.2.0 Introduction 58
6.2.1 The Prediction Equation for the latest Year before Failure 59
6.2.2 The Prediction Equations for earlier Years before Failure 62
6.3 Comparison of the Prediction Quality of the Level-variables Model with the Level- and Trend-variables Model 68

7. PRACTICAL USE OF FAILURE PREDICTION MODELS IN LENDING DECISIONS.
7.0 Introduction 71
7.1 Subjective Expectations 71
7.2 Bayes' Theorem 72
7.3 Lending Decisions 76

8. VALUE OF INFORMATION FROM A FAILURE PREDICTION MODEL.
8.0 Introduction 84
8.1 Value of Information 84
8.2 The Relationship between the expected Loss of Three Lending Decision Models 88
8.3 Application of Two Discriminant Models in Lending Decisions 94

9. SUMMARY AND CONCLUSIONS 101

APPENDIX 1: Sample Listing 108

APPENDIX 2: Prediction Performance of the Model in later Years. . 109

APPENDIX 3: Secondary Sample Listing 111
