Koji Okuguchi • Ferenc Szidarovszky

The Theory of Oligopoly with Multi-Product Firms

Second, Revised
and Enlarged Edition

With 9 Figures

Springer

Table of Contents

Preface v

1 Introduction 1

2 Oligopoly Games and Their Extensions 3

2.1 The Cournot Model 3
2.2 Models with Product Differentiation 7
2.3 Multiproduct Models 8
2.4 Group Equilibrium Problems 10
2.5 Rent Seeking Models 12
2.6 Labor-Managed Oligopoly 14
2.7 Oligopsony 14
2.8 Two-Stage and Multi-Stage Oligopolies 15
2.9 A Hierarchical Model 17
2.10 Supplementary Notes and Discussions 18

3 **Existence and Uniqueness Results** 21
3.1 Existence Results for Multiproduct Oligopoly 21
3.2 Relation of Equilibrium Problems to Fixed Point and Nonlinear Complementarity Problems 26
3.3 Uniqueness and Properties of Equilibria in the Classical Game 33
3.4 Linear Oligopoly Models 39
3.5 Numerical Methods for Finding Cournot-Nash Equilibria 43
3.6 Existence of Equilibrium in Rent Seeking Games 47
3.7 Existence of Equilibrium in Labor-Managed Oligopolies 51
3.8 Existence of Equilibrium in Oligopsony 55
3.9 Supplementary Notes and Discussions 60

4 Dynamic Oligopoly with Discrete Time Scale 63
4.1 Cournot Expectations 64
4.2 Adaptive Expectations 73
4.3 Sequential Adjustment Processes 90
4.4 Extrapolative Expectations 97

4.5 Oligopoly with Market Saturation 103
4.6 Quasioptimal Output Selections 114
4.7 Production Adjustment Costs 121
4.8 Dynamic Rent Seeking Oligopolies 127
4.9 Dynamic Labor-Managed Oligopolies 133
4.10 Dynamic Oligopsonies 137
4.11 Supplementary Notes and Discussions 142

5 Dynamic Oligopoly with Continuous Time Scale 145
5.1 Classical Results 146
5.2 Adaptive Expectations 151
5.3 Extrapolative Expectations 163
5.4 Oligopoly with Market Saturation 166
5.5 Production Adjustment Costs 169
5.6 Dynamic Rent Seeking Oligopolies 170
5.7 Dynamic Labor-Managed Oligopolies 172
5.8 Dynamic Oligopsonies 174
5.9 Supplementary Notes and Discussions 176

6 Extensions and Generalizations 179
6.1 Quadratic Games Under Discrete Time Scale 179
6.2 Quadratic Games Under Continuous Time Scale 193
6.3 Nonlinear Oligopolies Under DiscreteTime Scale 196
6.4 Nonlinear Oligopolies Under Continuous Time Scale 210
6.5 Supplementary Notes and Discussions 229

7 Applications 231
7.1 Network Oligopolies 231
7.2 Taxation 234
7.3 Water Resources Applications 240
7.4 An Oligopoly Model of Commercial Fishing 242
7.5 Controllability in Oligopolies 250
7.6 Supplementary Notes and Discussions 254
