

Main Currents in Cumulative Causation

The Dynamics of Growth
and Development

Phillip Toner

<i>List of Figures</i>	•	•	x	
<i>Preface</i>			xi	
<i>Acknowledgements</i>	•	*	••	xiii
<i>List of Abbreviations</i>			xiv	
1. Introduction			1	
1.1 Scope of the Study			1	
1.2 Why the Study is Warranted			4	
<i>Failure to Recognize the Principle of Circular and Cumulative Causation</i>	•	'	4	
<i>Recent Interest in the Notion of External Economies and 'Disequilibrium Growth'</i>			6	
1.3 Clarification of Key Terms			7	
<i>Increasing Returns</i>			8	
<i>Orthodox Conception of Increasing Returns</i>			8	
<i>Increasing Returns in Circular and Cumulative Causation</i>			11	
<i>Differences in the Treatment of Increasing Returns Within CC Theory</i>			12	
<i>External Economies</i>			14	
<i>Technological Externalities</i>			15	
<i>Pecuniary Externalities</i>			15	
<i>The Sources of Pecuniary Externalities</i>			16	
<i>Vertical and Horizontal Externalities</i>		,	18	
<i>Complementarities in Production and Consumption</i>			18	
1.4 The Role of Increasing Returns and Externalities in CC Theory			20	
1.5 Overview of the Study			21	

2. Allyn Young (1876-1929): Increasing Returns and Economic Progress	28
2.1 Introduction	28
2.2 Cumulative Causation in Context	28
<i>Marshall's Theory of Increasing Returns</i>	29
<i>The Cost Controversy and Allyn Young</i>	33
2.3 Increasing Returns and Economic Progress	38
2.4 The Mechanisms of Increasing Returns	39
<i>Roundabout Production Methods</i>	39
<i>Specialization of Production Across Industries</i>	40
2.5 The Circular and Cumulative Nature of Increasing Returns	43
2.6 Complementarities in Consumption and Production	46
2.7 Increasing Returns and Technological Change	49
2.8 The Appropriate Level of Analysis	51
2.9 External Economies and Economic Planning	52
2.10 Criticisms of Young's Growth Model	53
<i>Effective Demand</i>	53
<i>Problems in Young's Treatment of Increasing Returns</i>	55
2.11 Summary of Young's Growth Model	58
2.12 Conclusion	60
3. Paul. N. Rosenstein-Rodan (1902-1985): From Circular Causation to Balanced Growth	62
3.1 Introduction	62
3.2 The Critique of Equilibrium Economics	64
<i>Indivisibilities</i>	64
<i>Complementarities in the Use of Capital</i>	66
<i>Indivisibilities and Risk</i>	66
<i>Complementarities in Consumption</i>	67
<i>Technological Externalities</i>	67
<i>Co-ordination of Investment Decisions</i>	68

3.3	Rosenstein-Rodan's Growth Model in Practice	71
	<i>Impediments to Growth in Underdeveloped Regions</i>	, 71
	<i>Exploiting Complementarities</i>	72
	<i>Redressing Co-ordination Failure</i>	72
3.4	Criticisms of Balanced Growth	74
	<i>Inelasticity of Factor Supplies</i>	74
	<i>Failure of Balanced Growth to Exploit 'Vertical Integration'</i>	75
	<i>What is the Optimal Industrial Structure?</i>	76
	<i>Diversification versus Specialization</i>	11
	<i>Streeten's Arguments for Unbalanced Growth</i>	80
3.5	Conclusion	82
4.	Albert O. Hirschman (1915-): From Balanced to Unbalanced Growth	85
4.1	Introduction	85
4.2	The Critique of Balanced Growth	87
4.3	Definition of Externalities and Complementarities	90
4.4	Induced Investment	91
4.5	Externalities and Development Policy	92
4.6	Linkages	93
	<i>Backward Linkage</i>	93
	<i>Forward Linkage</i>	94
	<i>Combined Linkage Effects</i>	95
4.7	Linkages and Economic Interdependence	96
4.8	Linkages, Interdependence, and Development Policy	97
4.9	Criticisms of Hirschman's Model	99
	<i>Induced Investment</i>	99
	<i>Input-Output Multipliers and Externalities</i>	100
	<i>Balanced and Unbalanced Growth as Competing Development Strategies</i>	102
4.10	Conclusion	103

5. Gunnar Myrdal (1898-1987): Circular and Cumulative Causation as the Methodology of the Social Sciences	105
5.1 Introduction	105
5.2 Equilibrium versus Circular and Cumulative Causation	106
5.3 The Principles of Circular and Cumulative Causation	108
5.4 The Mechanisms of Circular and Cumulative Causation	110
<i>Increasing Returns and External Economies</i>	111
<i>Trade, Capital Movements and Migration</i>	112
<i>Non-Economic Factors</i>	114
5.5 Conclusion	115
6. Nicholas Kaldor (1908-1986): The Marriage of Young and Keynes'	116
6.1 Introduction	117
<i>Structure of the Chapter</i>	118
6.2 The Critique of Equilibrium Economics	120
<i>Critique of Equilibrium Methodology</i>	120
<i>Increasing Returns</i>	121
<i>Complementarity versus Substitution</i>	124
<i>Endogenous Technological Change and Factor Creation</i>	125
6.3 Kaldor's Critique of Young	126
<i>Effective Demand</i>	127
<i>Manufacturing Growth is Not Self-Sustaining</i>	129
<i>Two Sector-Two Stage Model of Development</i>	130
6.4 Kaldor's Growth Laws	132
<i>Background</i>	132
<i>The Three Growth Laws</i>	133
6.5 Export-led Growth	135
<i>Kaldor's Cumulative Causation Model</i>	137
<i>Exports and Development Strategy</i>	138

6.6	Increasing Returns and the Stylized Facts of Industrial Economies	140
	<i>Industrial Agglomeration</i>	140
	<i>Regional Income Disparities</i>	141
	<i>Trends in Capital-Labour and Capital-Output Ratios</i>	143
	<i>Oligopoly</i>	144
	<i>Price Formation and the Role of Prices</i>	144
6.7	Criticisms of Kaldor	146
	<i>Synthesis of Young and Keynes</i>	146
	<i>Kaldor's Constraint to Growth</i>	148
	<i>Identification of Industries Subject to Increasing Returns</i>	150
	<i>Criticisms of Kaldor's Strategy for Economic Development</i>	153
	<i>Ambiguity in the Strategy for Economic Development</i>	153
	<i>Criticisms of the Two Sector-Two Stage Model</i>	155
	<i>Income Distribution</i>	158
6.8	Conclusion	159
7;	Conclusion	161
7.1	Circular and Cumulative Causation: A Synthesis	162
7.2	Endogenous Growth Theory	166
	<i>External Economies in Endogenous Growth Theory and Circular and Cumulative Causation</i>	167
7.3	Recent Studies of East Asian Development	169
7.4	Future of the CC Research Programme	172
	Appendix to Chapter 7	180
	<i>Notes</i>	184
	<i>Bibliography</i>	215
	<i>Index</i>	224
