About the Author	xii
Preface to Fourth Edition	xiii
Part One: THEORY AND METHOD IN QUALITATIVE RESEARCH	1
1 What Is Qualitative Research?	3
1.1 In search of a working definition	3
1.2 Loaded evaluations of research methods	5
1.3 Methods should fit your research question	7
1.4 The good sense of quantitative research	9
1.5 The nonsense of quantitative research	12
1.6 The good sense of qualitative research	16
1.7 The nonsense of qualitative research	18
1.8 Varieties of qualitative research	22
2 Designing a Research Project	27
2.1 Selecting a topic	29
2.2 Formulating a researchable question	33
2.3 Fitting your research question into an appropriate theory	37
2.4 Choosing an effective research design	42
2.5 An effective literature review	46
2.6 Basic terms in research design	51
2.7 Conclusions	54
3 Data Analysis	57
3.1 Some rules for data analysis	58
3.2 Content analysis	64

3.3	Grounded theory	67
3.4	Narrative analysis	75
3.5	Conclusion	83
4	Research Ethics	87
4.1	Ethical pitfalls	89
4.2	Ethical safeguards	97
4.3	Some ethical complications	104
	Part Two: METHODS	111
5	Ethnographic Observation	113
5.1	The ethnographic focus	119
5.2	Methodological issues	128
5.3	The theoretical character of ethnographic observations	148
5.4	Conclusion: the unity of the ethnographic project	157
6	Interviews	161
6.1	What is an 'open-ended' interview?	161
6.2	Why interview?	165
6.3	Implications: three versions of interview data	168
6.4	Positivism	170
6.5	Emotionalism	174
6.6	Constructionism	181
6.7	Adolescent cultures: combining 'what' and 'how' questions	186
6.8	Moral tales of parenthood	192
6.9	The three models: a summary	198
6.10	Summary: basic issues	200
6.11	Three practical questions – and answers	201
6.12	Conclusion	203
7	Focus groups	207
7.1	What are focus groups?	207
7.2	Analysing focus group data in social science	210
7.3	Form or substance?	221
7.4	Concluding comments	227
8	Texts	229
8.1	Structure of this chapter	235
8.2	Comparative keyword analysis (CKA)	236
8.3	Ethnography	238
8.4	Ethnomethodology: membership categorisation analysis	256
8.5	Conclusion	271

9 Naturally Occurring Talk	274
9.1 Why work with tapes?	277
9.2 Transcribing audiotapes	279
9.3 Why talk matters	284
9.4 Conversation analysis	286
9.5 Discourse analysis	300
9.6 Conversation analysis and discourse analysis compared	314
9.7 Conclusion	316
10 Visual Images	319
10.1 Kinds of visual data	321
10.2 Research strategies	322
10.3 Content analysis	327
10.4 Semiotics	328
10.5 Workplace studies	335
10.6 Conclusion	346
Part Three: RESEARCH PRACTICE	349
11 Credible Qualitative Research	351
11.1 Does credibility matter?	352
11.2 Reliability	360
11.3 Validity	367
11.4 Generalisability	385
11.5 Conclusions	393
12 Writing Your Report	396
12.1 Beginnings	400
12.2 Your literature review	401
12.3 Your methodology section	402
12.4 Writing up your data	403
12.5 Your final section	406
12.6 A short note on plagiarism	406
12.7 Self-expression or argument?	407
Part Four: IMPLICATIONS	409
13 The Relevance of Qualitative Research	411
13.1 Three roles for the social scientist	414
13.2 The audiences for qualitative research	422
13.3 The contribution of qualitative social science	429
13.4 Summary	436
13.5 Conclusion	437

14	The Potential of Qualitative Research: Eight Reminders	441
14.1	Take advantage of naturally occurring data	443
14.2	Avoid treating the actor's point of view as an explanation	445
14.3	Study the interrelationships between elements	449
14.4	Attempt theoretically fertile research	453
14.5	Address wider audiences	455
14.6	Begin with 'how' questions; then ask 'why?'	458
14.7	Study 'hyphenated' phenomena	459
14.8	Treat qualitative research as different from journalism	461
14.9	Concluding remarks	462
	Appendix: Simplified Transcription Symbols	465
	Glossary	467
	References	473
	Author index	491
	Subject index	496
